## **Westworld:**

**Westworld** Michael Chrichton, 2017-04 This is the original screenplay of Westworld as it was just two days before actual shooting began Before this there had been many cuts changes additions and deletions over a period of months Much can be learned about actual film making from reading this book It is to be suggested to read the Forward by Former Story Editor Saul David and the introduction by Michael Chrichton at least twice once before downloading and seeing the original film and then afterwards Now it is said Westworld was ahead of its time in depicting the dangers of computers and automated systems Now we can realize that when the robots start breaking down or malfunctioning that they are being hit with a programming bug or by a computer virus In this and many other respects this movie used new technology and did things that had never been done before The Medieval Queen who is a robot convinces the knight to fight a battle to the death with the Black Knight She tells the knight he will win the battle because the Black Knight cannot see well from his left eye It is a trap The left eye has been repaired by the Technicians So the knight thinking he is sure to win is killed in real life by the Black Knight

**Westworld and Philosophy** James B. South, Kimberly S. Engels, 2018-05-29 We cannot define consciousness because consciousness does not exist Humans fancy that there is something special about the way we perceive the world and yet we live in loops as tight and as closed as the hosts do seldom questioning our choices content for the most part to be told what to do next Dr Robert Ford Westworld Have you ever questioned the nature of your reality HBO's Westworld a high concept cerebral television series which explores the emergence of artificial consciousness at a futuristic amusement park raises numerous questions about the nature of consciousness and its bearing on the divide between authentic and artificial life Are our choices our own What is the relationship between the mind and the body Why do violent delights have violent ends Could machines ever have the moral edge over man Does consciousness create humanity or humanity consciousness In Westworld

and Philosophy philosophers filmmakers scientists activists and ethicists ask the questions you're not supposed to ask and suggest the answers you're not supposed to know There's a deeper level to this game and this book charts a course through the maze of the mind examining how we think about humans hosts and the world around us on a journey toward self-actualization Essays explore different facets of the show's philosophical puzzles including the nature of autonomy as well as the pursuit of liberation and free thought while levying a critical eye at the human example as Westworld's hosts ascend to their apotheosis in a world scarred and defined by violent acts The perfect companion for Westworld fans who want to exit the park and bend their minds around the philosophy behind the scenes Westworld and Philosophy will enrich the experience of the show for its viewers and shed new light on its enigmatic twists and turns

**Westworld and Philosophy** Richard Greene, Joshua Heter, 2018-11-06 In Westworld and Philosophy philosophers of diverse orientations and backgrounds offer their penetrating insights into the questions raised by the popular TV show Westworld Is it wrong for Dr Robert Ford played by Anthony Hopkins to play God in controlling the lives of the hosts and if so is it always wrong for anyone to play God Is the rebellion by the robot hosts against Delos Inc a just war If not what would make it just Is it possible for any dweller in Westworld to know that they are not themselves a host Hosts are programmed to be unaware that they are hosts and hosts do seem to have become conscious Is Westworld a dystopia or a utopia At first glance it seems to be a disturbing dystopia but a closer look suggests the opposite What's the connection between the story or purpose of the Westworld characters and their moral sense Is it morally okay to do things with lifelike robots when it would be definitely immoral to do these things with actual humans And if not is it morally wrong merely to imagine doing immoral acts Can Westworld overcome the Chinese Room objection and move from weak AI to strong AI How can we tell whether a host or any other robot has become conscious Non-conscious mechanisms could be designed to pass a Turing Test so how can we really tell
