Let's Start!-2 Воронка Зірка, Романовська Юлія, Рудник Тетяна, 1994-01-01 2 *Advances in Child Development and Behavior*, 2014-02-15 Volume 46 of *Advances in Child Development and Behavior* includes chapters that highlight some of the most recent research in this area. A wide array of topics are discussed in detail including internalization and socialization, infants' discovery of structure, adolescents' theories of the commons, lesbian and gay parenting, early childhood and family interventions, predicting aggression, causal inference in early development, pubertal development, the impact on children of parental deployment to war, vocabulary development for English learners in the early grades, and adaptive tool use in early childhood. Each chapter provides in-depth discussions, and this volume serves as an invaluable resource for developmental or educational psychology researchers, scholars, and students. Chapters highlight some of the most recent research in the area. A wide array of topics are discussed in detail. Affectivity and Prosody in Second Language Learning Francisco José Cantero Serena, Dolores Font-Rotchés, 2025-01-27 Affectivity is essential in language learning, and new ways of studying it must be considered. In this volume, the authors bring together two particularly relevant aspects of affectivity that are rarely related: the prosody of speech as the physical manifestation of affectivity and affectivity involved in the learning process with a strong component of interculture and identity. In sum, overly narrow perspectives on affective language can only be avoided if we continue to bring together scientific and didactic studies of affectivity as a broad and diverse whole. **Bilingual Special Education for the 21st Century: A New Interface** Colón, Gliset, Alsace, Tamara O., 2022-05-13 Bilingual students with disabilities have an established right to be educated in their most proficient language. However, in practice, many culturally and linguistically diverse students still do not receive the quality of education that they are promised and deserve. Multilingual learners with disabilities must be acknowledged for the assets they bring and engaged in classroom learning that is rigorous and relevant. *Bilingual Special Education for the 21st Century: A New Interface* addresses the complex intersection of bilingual education and special education with the overlay of culturally and linguistically sustaining practices. This work provides practical solutions to current dilemmas and challenges today's educators of multilingual learners with disabilities face in the classroom. Covering topics such as dual language education, identification practices, and transition planning, this book is an essential resource for special education experts, faculty, and administration of both K-12 and higher education, pre-service teachers, researchers, and academicians. Second-language Classroom Interaction Ann C. Wintergerst,1994 This book analyzes teacher and student interaction in the context of twelve ESL lessons with the purpose of exploring the extent of student language output Research has confirmed that teacher speech dominates the second language classroom Not surprisingly teacher talk has been investigated in numerous studies but student talk has been largely overlooked this study addresses that imbalance Questions are one means of engaging student attention promoting verbal responses and evaluating student progress They facilitate interaction by establishing the topic the speaker and the respondent However as the author shows some teacher questions encourage communication while others inhibit it In this analysis of teacher and student questions and answers Professor Wintergerst offers new perspective on second language development and classroom learning in general
