What Are These Wounds The Life Of A Cistercian Mystic Saint Lutgarde:

What Are These Wounds? Thomas Merton, 2015 What Are These Wounds? The Life of a Cistercian Mystic Saint Lutgarde Thomas Merton, 2014-04-02 2014 Reprint of 1950 Edition Full facsimile of the original edition not reproduced with Optical Recognition Software The gifted Trappist Thomas Merton here gives a sympathetic interpretation of the interior and mystical experiences of St Lutgarde a thirteenth century Trappist Merton gives to St Lutgarde wider significance than is normally provided her by pointing out that she was the forerunner of St Margaret Mary and the institution of the Feast of the Sacred Heart This claim is based upon her mystical vision of the pierced Heart of the Savior The story of St Lutgarde as related by Merton abounds in mystical visions stigmata and miracles For Catholic readers interested in hagiography the name of Merton may elicit the interest of a wider group **Women and Gender in Medieval Europe** Margaret Schaus, 2006 Publisher description *Medieval Cistercian History* Thomas Merton, 2019-05-10 Thomas Merton's deep roots in his own Cistercian tradition are on display in the two sets of conferences on the early days of the Order included in the present volume The first surveys the relevant monastic background that led up to the foundation of the Abbey of Cîteaux in 1098 and goes on to consider the contributions of each of the first three abbots of the New Monastery that would become the epicenter of the most dynamic religious movement of the early twelfth century The second set investigates the arc of medieval Cistercian history in the two centuries following the death of Saint Bernard in which the Order moves from being ahead of its time in its formative stages to being representative of its time in its most powerful and influential phase to becoming regressive with the rise of new religious currents that begin to flow in the thirteenth century Merton stresses the need to respect the complexity of the actual lived reality of Cistercian life during this period to beware of easy generalizations and instead consider the full range of factual data The result is a richly nuanced picture of the development of early Cistercian life and thought that serves as a fitting concluding volume to the series of Merton's novitiate conferences providing a thorough Initiation into the Monastic Tradition *Mystics and Miracles* Bert Ghezzi, 2010-06 **Thomas Merton** Paul R. Dekar, 2011-08-05 Thomas Merton was arguably the twentieth century's most widely published and widely read spiritual writer This book explores Merton's prophetic writings and experience as they offer guidance for spiritual seekers in their search to experience God to simplify their lives to live more humanly and to shape Christian community in the face of alienation consumerism noise and technology The book includes parts of three previously unpublished conference contributions by Merton on technology Translating Christ in the Middle Ages Barbara Zimbalist, 2022-02-15 This study reveals how women's visionary texts played a central role within medieval discourses of authorship reading and devotion From the twelfth to the fifteenth centuries women across northern Europe began committing their visionary conversations with Christ to the written word Translating Christ in this way required multiple transformations divine speech into human language aural event into textual artifact visionary experience into linguistic record and individual encounter into communal

repetition This ambitious study shows how women's visionary texts form an underexamined literary tradition within medieval religious culture Barbara Zimbalist demonstrates how within this tradition female visionaries developed new forms of authorship reading and devotion Through these transformations the female visionary authorized herself and her text and performed a rhetorical imitatio Christi that offered models of interpretive practice and spoken devotion to her readers This literary historical tradition has not yet been fully recognized on its own terms By exploring its development in hagiography visionary texts and devotional literature Zimbalist shows how this literary mode came to be not only possible but widespread and influential She argues that women's visionary translation reconfigured traditional hierarchies and positions of spiritual power for female authors and readers in ways that reverberated throughout late medieval literary and religious cultures In translating their visionary conversations with Christ into vernacular text medieval women turned themselves into authors and devotional guides and formed their readers into textual communities shaped by gendered visionary experiences and spoken imitatio Christi Comparing texts in Latin Dutch French and English Translating Christ in the Middle Ages explores how women's visionary translation of Christ's speech initiated larger transformations of gendered authorship and religious authority within medieval culture The book will interest scholars in different linguistic and religious traditions in medieval studies history religious studies and women's and gender studies
