What About Me Well Children With Sick Siblings:

What about Me? Allan Peterkin, 1992 Laura experiences conflicting emotions when her brother becomes seriously ill Includes suggestions for parents to help their well children cope with a chronically ill sibling When Your Child Is Sick Joanna Breyer, 2018-06-26 An invaluable reference for parents of sick or hospitalized children by an experienced psychosocial counselor To many parents it is hard to imagine a more upsetting reality than one where their child is hospitalized severely sick or terminally ill In When Your Child is Sick psychosocial counselor Joanna Breyer distills decades of experience working with sick children and their families into a comprehensive guide for navigating the uncharted and frightening terrain She provides expert advice to guide them through the hospital setting at home care and long term outcomes Breyer's actionable techniques and direct advice will help parents feel more in control of a circumstance that has upended their life She alerts parents to key personnel in the hospital gives dialogue prompts to help parents ask for the help they need addresses the needs of their other children at home offers advice on how to best utilize friends and family who want to help includes stories from other families who have been there and teaches coping techniques to help both parents and children weather the stress of prolonged illness and even death When Your Child is Sick is a valuable guide to managing the myriad practical and emotional complications of an impossible situation What About Me? William G. Bentrin, 2010-04-08 A sick or injured child can disrupt the best of families Parents are frequently so focused on the sick child that well siblings may feel abandoned In spite of the love they feel for their sibling a well child may be annoyed with all the attention their sick sibling receives The well child may feel guilty about their anger or annoyance Conflicting emotions can overwhelm the healthiest child This book hopes to demonstrate to the healthy child that their feelings are normal acceptable and guilt is not necessary The book also hopes to alleviate any of the well child's feelings of alienation and loneliness by reassuring them of their parents' love

Sibling Loss Joanna H. Fanos, 2014-02-04 Despite the rise of clinical interest in posttraumatic stress disorder and traumatic stress in children there has been little attention paid to the impact of sibling death as a traumatic event Although there is much evidence that children suffer long lasting consequences of such trauma as divorce or the loss of a parent the loss of a sibling has not been the topic of substantial clinical or research attention The sibling relationship has only begun to receive research and theoretical attention The complexities of the sibling bond as it changes and evolves over the life span have only begun to be explored The death of a child has generally been considered one of the most stressful events encountered by families in our society The chronicity of illnesses such as cystic fibrosis is in a sense new an outgrowth of recent advances in medical treatment which have considerably extended the lives of children stricken with leukemia cystic fibrosis HIV infection diabetes and others This book explores the long term consequences of chronic illness followed by the death of a sibling on adult adjustment The illness and loss of the child will have a direct impact on the siblings dependent upon their own capacity to give meaning to its occurrence and to mourn the loss effectively In addition the sibling's world

will be inexorably shaped by the handling of the illness and loss by the parents *In the Shadow of Illness* Myra Bluebond-Langner, 2020-06-30 A revealing account of how families adapt to living with a chronically ill child What is it like to live with a child who has a chronic life threatening disease What impact does the illness have on well siblings in the family Myra Bluebond Langner suggests that understanding the impact of the illness lies not in identifying deficiencies in the lives of those affected but in appreciating how family members carry on with their lives in the face of the disease s intrusion The Private Worlds of Dying Children Bluebond Langner s previous book now considered a classic in the field explored the world of terminally ill children In her new book she turns her attention to the lives of those who live in the shadow of chronic illness the parents and well siblings of children who have cystic fibrosis Through a series of narrative portraits she draws us into the daily lives of nine families of children at different points in the natural history of the illness from diagnosis through the terminal phase In these portraits as family members talk about their experiences in their own words we see how parents well siblings and the ill children themselves struggle in different ways to contain the intrusion of the disease into their lives Bluebond Langner looks at how parents adjust their priorities and their idea of what constitutes a normal life how they try to balance the needs of other family members while caring for the ill child and how they see the future This context helps us understand how well siblings view the illness and how they relate to their ill sibling and parents Since the issues raised are not unique to cystic fibrosis but are common to other chronic and life threatening illnesses this book will be of interest to all who study care for or live with the seriously ill **Supporting the Child and the Family in Paediatric Palliative Care** Erica Brown, Brian Warr, 2007-06-15 This book provides a comprehensive overview of good practice in caring for terminally ill children young people and their families The material offers helpful suggestions on how to support families in making informed choices during distressing periods such as where their child will die and how to prepare for the funeral POTS - Together We Stand: Riding the Waves of Dysautonomia , 2016-02-02 POTS Together We Stand Riding the Waves of Dysautonomia is a collaborative effort of many doctors teachers counselors parents and patients who wove this tapestry Initially conceptualized as a survival guide for children teens young adults and parents it quickly transcended into this unprecedented critical volume This encompassing work responds to the many desperate and heartbreaking pleas of those affected by dysautonomia included are clear explanations of medical information evidenced based research best practices for clinical diagnoses and treatment options alternative complimentary medicine approaches non medical strategies coping techniques helpful tips patient rights and options and inspiring narrative accounts of people living with the syndrome around the globe The book contributors and its readers join hand in hand to represent the POTS dysautonomia community s shared struggles and hopes concerns and endeavors unequivocally serving as a living testament that Together We Stand This is the 3rd Edition An Intimate Loneliness Riches, Gordon, Dawson, Pam, 2000-01-01 What impact does a child s death have on family relationships How might differences in the way mothers and fathers deal with bereavement contribute to increased

marital tension Why are bereaved siblings so deeply affected by the way their parents grieve An Intimate Loneliness explores how family members attempt to come to terms with the death of an offspring or brother or sister Drawing on relevant research and the authors own experience of working with bereaved parents and siblings this book examines the importance of social relationships in helping parents and siblings adjust to their bereavement The chances of making sense of this most distressing loss are influenced by the resilience of the family s surviving relationships by the availability of wider support networks and by the cultural resources that inform each s perception of death This book considers the impact of bereavement on self and family identity In particular it examines the role of shared remembering in transforming survivors relationships with the deceased and in helping rebuild their own identity with a significantly changed family structure Problems considered include the failure of intimate relationships cultural and gender expectations the invisibility of fathers and siblings grief sudden and difficult deaths lack of information and the sense of isolation felt by some family members This book will be of value to students on courses in counselling health care psychology social policy pastoral care and education It will appeal to sociology students with an interest in death dying and mortality It is also aimed at professionally qualified counselling health and social service workers at informed voluntary group members the clergy teachers and others involved with pastoral care

Chronic Childhood Illness Gilman D. Grave,1976 Contains the proceedings of three separate conferences held in 1973 and 1974 **Brother Jonathan** ,1842 *Family Herald* ,1883 **The Children's Friend** ,1919

Oxford Textbook of Palliative Care for Children Ann Goldman,Richard Hain,Stephen Liben,2012-05-24 The first edition of this book was the first authoritative systematic and comprehensive text to define the increasingly important and evolving specialty of paediatric palliative care It explores both the clinical aspects and the multidimensional and holistic nature of care for the dying child based on the knowledge that all human experience has a physical emotional psychological and spiritual impact The book covers ways of providing support in all of these areas both for the child families and carers recognising the importance of teamwork and taking an evidence based approach The Oxford Textbook of Palliative Care for Children is about the care of children for whom cure of their underlying disease is not possible It encompasses the physical management of symptoms such as pain and nausea as well as social issues such as accessing appropriate education emotional issues such as techniques for communication and spiritual issues such as feelings of guilt and isolation The book suggests that if we are to maintain the quality of life for a child it is essential to recognise all these dimensions and try to address them This can only be done by recognising the skills of a wide range of professionals and working together in ways that are not always intuitive to any one discipline It explores the multidimensional and holistic nature of care for the dying child Those working in paediatric palliative care recognise that all human experience has emotional psychological and spiritual impact as well as physical and this book offers the essential information needed for those involved in paediatric care to find ways of providing support in all of these areas Comprehensive in scope exhaustive in detail and definitive in authority

this second edition has been thoroughly updated to cover new practices current epidemiological data and the evolving models that support the delivery of palliative medicine to children Paediatric palliative care is now developing in countries with differing health care systems and being adapted to suit individual illnesses and the varying resources and geography in different parts of the world This book is an essential resource for anyone who works with children worldwide Stars and Keys Lee Haring,2007-07-19 In Stars and Keys Folktales and Creolization in the Southwest Indian Ocean Lee Haring introduces readers to the rich folklore traditions of the islands of the southwest Indian Ocean The culture of Madagascar Mauritius Seychelles R union and the Comoros is a unique blend of traditions that have been brought from Africa South Asia Europe and the Middle East The folktales from these islands reflect the diversity of this culture and provide a rare opportunity to observe the fluidity of traditions and the process of creolization Haring presents the tales in a uniquely innovative style he interrupts the text as if he were reading aloud and directly addresses the reader His words and those of the storytellers are clearly distinguished making this folktale collection useful to a wide range of readers and scholars

Death, Society, and Human Experience Robert Kastenbaum,Christopher M. Moreman,2024-03-28 The 13th edition of Death Society and Human Experience provides a panoramic overview of the ways that we are touched by death and dying both as individuals and as members of society A landmark text in the field the authors draw on contributions from the social and behavioral sciences as well as the humanities including perspectives offered through history philosophy religion literature and the arts to provide thorough coverage and understanding of topics associated with the end of life and death and dying By approaching the subject from multiple angles the authors explain the various ways that individual cultural and societal attitudes influence both how and when we die and how we live and deal with the knowledge of death and loss Originally written by Robert Kastenbaum a renowned scholar who developed one of the world s first death education courses Christopher M Moreman who has worked in the field of death studies for two decades has updated this edition In addition to infusing his close areas of focus both in afterlife beliefs and experiences and how these might affect how people live their lives he s weaved in new coverage of current affairs including The impact of COVID 19 on experiences of death bereavement mourning and more Expanded legalization of physician assisted dying in the United States and several countries Changes in bereavement rituals and traditions stemming from technology use and social media With additional content and classroom extensions available online Death Society and Human Experience remains a thoughtful exploratory and impressively comprehensive overview for undergraduate and graduate courses in death dying and bereavement Bereavement Care for Families David W.
