What Color Is a Conservative? J. C. Watts, Chriss Winston, 2003-11-11 The paperback edition of the inspirational story of the first black to hold a Republican leadership position J C Watts Jr *Congress and Diaspora Politics* James A. Thurber, Colton C. Campbell, David A. Dulio, 2018-08-20 Studies the impact of lobbying efforts by domestic ethnic groups and foreign governments on US policymaking Congress and Diaspora Politics examines the impact of lobbying efforts by domestic ethnic groups and foreign governments on US policymaking Over time the number and variety of ethnic groups have grown and foreign governments have increasingly turned to professional lobbyists rather than relying on their diplomatic corps to cultivate relationships with Congress The case studies presented here examine this new lobbying environment by focusing on Jewish American Muslim American and Cuban American interest groups as well as lobbying efforts by the governments of Turkey Armenia Mexico and others They explore the strategies tactics and resources utilized to impact policymaking The volume also offers perspectives of those who have worked on both sides of the lobbying equation a view from K Street the lobbying side and a view from the Hill the congressional side Finally challenges lawmakers face when diaspora interests intersect with national interests are covered Informative and insightful this book makes an important contribution by bringing together for the first time the impact of both ethnic and foreign lobbying on US foreign and domestic policy Thomas Ambrosio North Dakota State University **African Americans in Conservative Movements** Louis G. Prisock, 2018-05-23 Providing an expansive view of the making and meaning of African American conservatism this volume examines the phenomenon in four spheres the political realm the academic world the black church and grass roots activism movements In his analysis of their activities in these realms Louis Prisock examines the challenges African American conservatives face as they operate within the context of largely white conservatism At the same time that African American conservatives challenge the white conservative movement's principle of color blindness they are accused of being racial mascots or tokens from those outside of it Prisock unwinds the intricacies of black conservatives relationships to both the wider conservative movement and the everyday life experiences of black Americans showing that they are as vulnerable to the inescapability of race as any other individual in a racialized America *The Civil War Income Tax and the Republican Party, 1861-1872* Christopher Michael Shepard, 2010 A flat tax Tax cuts Complete elimination of the income tax These ideas have most certainly been advocated by members of the Republican Party during the past few decades Party leaders such as George W Bush Ronald Reagan and Newt Gingrich expressed disdain for the income tax and utilized their power to remove it as a revenue source At the time of the Civil War many Republicans mainly in the Northeast were opposed to the new Federal Income Tax Initially used to finance that war the Federal income tax became a hotly debated issue at a time when America

was trying to put back together a fractured nation The issue split the party with Midwestern and Southern Republicans wanting to continue the income tax and Northern and Western Republicans championing its demise In the end the anti income tax wing took control of the Republican Party and shaped its economic principles for the future The book is an in depth look into how the Republicans in Congress dealt with the creation of the United States first income tax and how it affected the party for the future The author argues that the anti income tax faction of the Republican Party won the debate and took over the party and to this day the Republican Party typically promotes either cutting taxes or eliminating them altogether The author gives a brief history of the formation of the Republican Party and how they developed their economic views in distinction from the declining Whig Party who mostly sought to fund the federal budget through tariffs and not by taxing the people directly The second half of the book looks at the different income tax legislations and how Republicans in Congress responded to them Each chapter begins with a brief historical context at the time when an income tax bill was being discussed in Congress The views of Republicans on the income tax were altered throughout the war and its aftermath In the beginning Republicans enthusiastically supported the income tax as a measure needed to sustain the fighting As the war came to a close however many Republicans began to change their view They originally backed progressive rates then they wanted just one flat tax rate and by 1870 many wanted the tax to be ended There was a divide in the Republican Party though Western Republicans wanted to keep the income tax intact while Northern Republicans called for its repeal The last chapter of the book looks at the Republican Party and the income tax since 1872 Many of the arguments made by current and past Republicans e g George W Bush Eisenhower Elihu Root and even Earl Warren against the income tax are shown to be the same ones made by many Republicans in the debate over the Civil War income tax Apparently the Northern anti income tax wing won the debate and took over the party 140 years ago

Nordin,2012-06-25 In 2008 American history was forever changed with the election of Barack Obama the United States first African American president However Obama was far from the first African American to run for a public office or to face the complexities of race in a political campaign For over a century offices ranging from city mayor to state senator have been filled by African Americans making race a factor in many elections In *From Edward Brooke to Barack Obama* Dennis S Nordin navigates the history of biracial elections by examining the experiences of a variety of African American politicians from across the country revealing how voters both black and white respond to the issue of race in an election The idea to compare the African American political experience across several levels of office first occurred to Nordin as he was researching Arthur W Mitchell s 1934 congressional campaign The question of white voter support was of particular significance as was whether the continuation of that support depended upon his avoiding minority issues in office To begin answering these questions and others Nordin compares the experiences of eleven African American politicians Taken from across the country to ensure a wide sample and accurate depiction of the subject the case studies examined include Tom Bradley mayor of Los Angeles David Dinkins mayor of New York Freeman Bosley Jr mayor of St Louis Senator Edward Brooke of Massachusetts Senator Carol Moseley Braun of Illinois Governor L Douglas Wilder of Virginia and Representative J C Watts Jr of Oklahoma among others As Nordin analyzes these individuals and their contribution to the whole he concludes that biracial elections in the United States have yet to progress beyond race *From Edward Brooke to Barack Obama* investigates the implications of race in politics a highly relevant topic in today s American society It offers readers a chronological overview of the progress made over the last several decades as well as shows where there is room for growth in the political arena By taking a pertinent topic for the era and placing it in the context of history Nordin successfully chronicles the roles of race and race relations in American politics **Black Elephants in the Room** Corey D.

Republican principles And at the end we learn the importance of understanding both the meanings African Americans attach to racial identity and the political contexts in which those meanings are developed and expressed [This Side of Heaven](#) Robert J.
