What Is Poststructuralism Making Theory Make Sense Book 1:

Critical Theory, Poststructuralism and 'Nietzsche's Paradox' Nektarios Kastrinakis, 2025-07-18 Critical Theory Poststructuralism and Nietzsche's Paradox addresses a fundamental question in the exchange between Critical Theory and poststructuralism is poststructuralism justified in its critique of dialectical thinking and in the conclusion of this critique that we need to leave dialectics behind us to properly understand the social world When Deleuze's book Nietzsche and Philosophy was first published back in 1962 it caused a sensation in France and its Nietzschean critique of Hegelian dialectics played a pivotal role in the emergence of the current of thought we call poststructuralism However to what extent is this critique valid and justified This question has never been adequately investigated With this book Nektarios Kastrinakis attempts such an investigation through the exploration of the influence of Nietzsche in both Deleuze and Adorno More specifically he investigates a paradox in 20th century philosophy the paradox of Nietzsche Nietzsche is claimed by Deleuze to be a fierce critic of Hegel's dialectics and by authors like Gillian Rose and Karin Bauer to be the originator of Adorno's negative dialectics Kastrinakis argues that there are in fact at least two Nietzsches one with an irrationalistic and one with a rationalistic critique of identity thinking on which both poststructuralism Deleuze and Critical Theory Adorno respectively lay a legitimate claim He moreover enacts the missing in the literature debate between Adorno and Deleuze which concludes that Adorno's critique of identity thinking his negative dialectics when modified to include an affirmative moment at its heart unacknowledged by Adorno himself can effectively challenge Deleuze's Nietzschean critique of dialectics Critical Theory Poststructuralism and Nietzsche's Paradox intervenes in the boundary between political philosophy and philosophy and will be of interest to scholars of Nietzsche Deleuze Adorno but also generally of poststructuralism and Critical Theory in these disciplines

Library and Information Science and the Philosophy of Science Birger Hjørland, 2005 This e book is concerned with metatheories in Library and Information Science LIS and especially with the philosophy of science of LIS Metatheories are theories about the description investigation analysis or criticism of the theories in a domain Lou Sullivan Diaries (1970-1980) and Theories of Sexual Embodiment Lanei M. Rodemeyer, 2017-09-05 This book highlights the intersection between theory and lived experience academic description and the personal narrative of Lou Sullivan Sullivan puzzled in his diaries over the conundrum of his desire to transition from female to male in order to be a gay man The reader will follow Sullivan as he struggles with his feelings of maleness in his troubled relationship with his lover Tom through his many sexual escapades and finally as he begins taking hormones Alongside the diaries is an engagement with body and gender theories accessible to the introductory reader yet also taking up current debates especially in transgender studies

A Companion to Postcolonial Studies Henry Schwarz, Sangeeta Ray, 2008-04-15 This volume examines the tumultuous changes that have occurred and are still occurring in the aftermath of European colonization of the globe from 1492 to 1947 Ranges widely over the major themes regions theories and practices of postcolonial study Presents original essays by the

leading proponents of postcolonial study in the Americas Europe India Africa East and West Asia Provides clear introductions to the major social and political movements underlying colonization and decolonization accessible histories of the literature and culture and separate regions affected by European colonization Features introductory essays on the major thinkers and intellectual schools that have informed strategies of national liberation worldwide Offers an incisive summary of the long history and theory of modern European colonization in local detail and global scale *Contemporary Rhetorical Theory* John Louis Lucaites, Celeste Michelle Condit, Sally Caudill, 1999-01-01 This indispensable text brings together important essays on the themes issues and controversies that have shaped the development of rhetorical theory since the late 1960s An extensive introduction and epilogue by the editors thoughtfully examine the current state of the field and its future directions focusing in particular on how theorists are negotiating the tensions between modernist and postmodernist considerations Each of the volume s eight main sections comprises a brief explanatory introduction four to six essays selected for their enduring significance and suggestions for further reading Topics addressed include problems of defining rhetoric the relationship between rhetoric and epistemology the rhetorical situation reason and public morality the nature of the audience the role of discourse in social change rhetoric in the mass media and challenges to rhetorical theory from the margins An extensive subject index facilitates comparison of key concepts and principles across all of the essays featured Understanding the Effects of Child Sexual Abuse Sam Warner, 2009-01-13 Child sexual abuse is a global problem that negatively affects many women and girls As such it has long been of concern to feminists and more recently mental health activists This book draws on this revolutionary legacy feminism and post structuralism to critically examine current perceptions of women girls and child abuse in psychology psychiatry and the mass media and to re evaluate mainstream and feminist approaches to this subject The book aims to contribute to the ongoing development of a knowledge base for working with abused women and girls and demonstrates the need to question the use of formulaic methods in working with abused women and girls It calls for an explicit concern with politics principles and ethics in the related areas of theory research and practice Using research into women who have been sexually abused in childhood and who are detained in maximum security mental health care Sam Warner explores and identifies key principles for practice A social recovery model of intervention is developed and case study examples are used to demonstrate its applicability in a range of practice areas These include abuse psychotherapy expert witness reports in child protection with mothers of abused girls and with women and girls in secure care contexts This thorough investigation of this emotive issue provides a clear theoretical and practical framework for understanding and coping with child sexual abuse This book will be of interest to anyone who works with children and adults who have been abused This includes clinical psychologists therapists and other professionals that work in mental health psychotherapy and social services and legal settings within both community and secure care contexts It should also be essential reading for students and academics in this area A Complexity Theory for Public Policy Göktuğ Morçöl, 2012 Complexity theory has

become popular in the natural and social sciences over the last few decades as a result of the advancements in our understanding of the complexities in natural and social phenomena. Concepts and methods of complexity theory have been applied by scholars of public affairs in North America and Europe but a comprehensive framework for these applications is lacking. A Complexity Theory for Public Policy proposes a conceptual synthesis and sets a foundation for future developments and applications. In this book, G. K. Morl convincingly makes the case that complexity theory can help us understand better the self-organizational, emergent, and co-evolutionary characteristics of complex policy systems. In doing so, he discusses the epistemological implications of complexity theory and the methods complexity researchers use and those methods they could use. As the complexity studies spread more around the world in the coming decades, the contents of this book will become appealing to larger audiences, particularly to scholars and graduate students in public affairs. The unique combination of synthesis and explanation of concepts and methods found in this book will serve as reference frames for future works.

International Relations Theory and Philosophy Cerwyn Moore, Chris Farrands, 2010-01-04. Discusses the contribution of philosophers and thinkers whose ideas have recently begun to permeate international relations theory and seeks to integrate diverse ideas broadly concerned with the interpretive theory and methods of international relations. *Development*

Discourse and Global History Aram Ziai, 2025-09-25. *Development Discourse and Global History* introduces readers to the shifting ways in which people have been talking and writing about development over time and the rules governing the conversation. Drawing on the methods of Michel Foucault, Ziai's ground-breaking book traces the origins of development discourse back to late colonialism and notes the significant discontinuities that led to the establishment of a new discourse and its accompanying industry. This book goes on to describe the contestations, appropriations, and transformations of the concept over time. It shows that trends which have emerged since the 1980s, such as an emphasis on participation and ownership, sustainable development, and free markets, are incompatible with the original rules and so lead to serious contradictions. The Eurocentric, authoritarian, and depoliticising elements in development discourse are uncovered whilst still recognising its progressive appropriations. This new edition includes revisions throughout and an important new chapter on race and racism, as well as a discussion of the evolution of the Sustainable Development Goals. This book is perfect for students and researchers in development studies, global history, and discourse analysis, as well as an interdisciplinary audience from international relations, political science, sociology, geography, anthropology, language, and literary studies.

Organizations as Complex Systems Maurice Yolles, 2006-09-01. Managing the Complex is an ambitious title and it would be an audacious one if we were not to begin with a frank admission: to date, few to none of us have a skill set which includes managing the complex. We try various things, we write about others, and we wonder about still others. When a tool, perspective, or technique comes along which seems to evoke success, we emulate it, probe it, and recoil at the all too often admission that it was situation and context which afforded success, its opportunity, and not some quality intrinsic to the tool, perspective, or

technique Indeed if the study of complexity has done anything for managers and for those who espouse managerial theory it is in providing a scientific foundation for the notion that context matters Those who preach abstract ideas have then to reconcile themselves to the notion that situation and embodiment matters Those who believe in strong causality and determinism are left to wrestle with the role of chance uncertainty and chaos Those who prefer to argue that men move history are confronted with the role of environment and affordances while those who argue the reverse are left to contend with charisma irrationality of crowds and the strange qualities we know as emotions A series on complex systems has less ambitious goals to contend with than this Such a series can deal with classifications and categories and speak of noise as if it were not the central focus of the problem Managing the complex is about managing noise or perhaps we should say it is about dealing with accepting making room for and learning from noise The articles in this volume and in volumes to come will each be considered as noise by some and as gems by others but we hope that practicing managers and academics alike will find plenty of fuel to drive their personal explorations into understanding and perhaps even managing the complex

Modernism and the Culture of Market Society John Xiros Cooper,2004-09-02 Many critics argue that the modernist avant garde were always in opposition to the commercial values of market driven society For John Xiros Cooper the avant garde bears a more complex relation to capitalist culture than previously acknowledged He argues that in their personal relationships gender roles and sexual contacts the modernist avant garde epitomised the impact of capitalism on everyday life Cooper shows how the new social cultural and economic practices aimed to defend cultural values in a commercial age but in this task modernism became the subject of a profound historical irony Its own characterising techniques styles and experiments deployed to resist the new nihilism of the capitalist market eventually became the preferred cultural style of the very market culture which the first modernists opposed In this broad ranging 2004 study John Xiros Cooper explores this provocative theme across a wide range of Modernist authors including Joyce Eliot Stein and Barnes **Contemporary**

cultural theory **The Rise of Nationalist Populism** Daniel Rueda,2024-10-03 The Rise of Nationalist Populism explores the intersection between populism and nationalism conducted through the discursive analysis of three Populist Radical Right parties that have gained prominence during the 2010s Rassemblement National France Lega Italy and Vox Spain Due to its rise in Europe the United States and further afield there is a growing interest in right wing populism an exclusionary and illiberal form of populism that has been able to attain success in several countries This book contributes to the analysis of how populism understood as a way of constructing the political is shaped by the ideologies that permeate it It examines how a certain form of nationalism is shaped by populist dynamics that is by a certain form of identity building The book analyses the intersection between nationalism and populism in right wing populist parties by using a discourse analysis methodology based on Ernesto Laclau s works thus conducting an examination similar to the ones presented by the Essex School of Discourse Analysis The empirical analysis focuses on party literature and carefully selected candidate speeches at a national level for its three case studies as well as providing an overarching comparison The book shows how the economic crisis and the irruption of issues related to sovereignty and national identity arising in France Italy and Spain paved the way for the emergence of their respective right wing populist forces The book will appeal to researchers and students of political science especially those with an interest in populism discourse analysis identity and the far right **Postpositivist International Relations Theory** Amartya Mukhopadhyay,2023-10-16 This book discusses postpositivist theories foregrounding postpositivism against the reigning realist and positivist pluralist orthodoxies The book explicates seven theories not as disparate endeavours but as developments linked by a common thread that seeks to enunciate globalist emancipatory goals for the theoretical field and the world that these theories seek to change It focuses on the following themes feminism environmentalism or green theory the English School critical theory constructivism postmodernism and postcolonialism Additionally a separate chapter on globalization shows that while mainstream neo realist international relations theories respond hostilely to globalization and liberal pluralist theories react benignly to it postpositivist theories positively welcome it The book offers a competent meta theoretical gridwork showing on which side of the opposing disciplinary positions in the fourth debate each of the seven theories are located It is a comprehensive guide to the postpositivist restructuring of the discipline of international relations This book will be of interest to researchers and students of political science international relations history humanities and literature **Architecture's Theory** Catherine Ingraham,2023-04-18 A collection of illuminating essays exploring what theory makes of architecture and what architecture makes of theory in philosophical and materialized contexts From poststructuralism and deconstruction to current theories of technology and nature critical theory has long been closely aligned with architecture In turn architecture as a thinking profession materializes theory in the form of built work that always carries symbolic loads In this collection of essays Catherine Ingraham studies the complex connectivity between architecture s discipline and practice and theories of philosophy art literature history and politics She

argues that there can be no architecture without theory Whether considering architecture s relationship to biomodernity or exploring the ways in which contemporary artists and designers engage in figural play Ingraham offers provocative interpretations that enhance our understanding of both critical theory and architectural practice today Along the way she engages with a wide range of contemporary theorists including Giorgio Agamben Judith Butler Jacques Derrida Graham Harman and Timothy Morton considering buildings around the world including the Palace of Culture in Warsaw the Viceroy s House complex in New Delhi Mack Scogin and Merrill Elam s Wolfsburg Science Center project in Germany and the Superdome in New Orleans Approaching its subject matter from multiple angles Architecture s Theory shows how architecture s theoretical and artifactual practices have a unique power to alter culture

Marx Through Post-Structuralism Simon Choat, 2010-06-17 Marx Through Post Structuralism presents a thorough critical examination of the readings of Marx given by four post structuralist thinkers all key figures in Continental philosophy Jean Fran ois Lyotard Jacques Derrida Michel Foucault and Gilles Deleuze Arguing that both Marx and the post structuralists seek to produce a genuinely materialist philosophy the author aims to develop a better understanding of both Marx and post structuralism and in so doing to reflect on the possibilities and problems for materialist philosophy more broadly Against the common assumption that post structuralism begins with a rejection of Marx Choat argues that Marx has been a key influence on post structuralist thought and that each of the four thinkers examined affirms Marx s contemporary significance By looking at how these thinkers have read Marx analysing their direct comments unspoken uses and implicit criticisms the book demonstrates that there is a distinct and original post

structuralist approach to Marx that allows us to read him in a new light *Edouard Glissant and Postcolonial Theory* Celia Britton, 1999 Edouard Glissant has written extensively in French about the colonial experience in the Caribbean Since he is known primarily as a novelist and poet his theoretical essays have so far remained largely unread by the English language theorists in this field This book situates Glissant within ongoing debates in postcolonial theory making illuminating connections between his work and that of Frantz Fanon Gayatri Spivak Homi Bhabha and Henry Louis Gates Jr Focusing on language and subjectivity *Edouard Glissant and Postcolonial Theory* moves between an analysis of Glissant's theoretical work and detailed readings of his novels to elucidate a network of related issues Celia Britton addresses the major themes central to his writing the reappropriation of history standard and vernacular language hybridity subalternity the problematizing of identity and the colonial construction of the Other and asks provocative questions relating to each How does the colonized subject relate to a language initially imposed by the colonizer but subsequently to some extent subverted and reappropriated How does this strategic use of language come to function as a crucial mode of cultural resistance What role can fictional representation play in this process This book represents the first presentation of Glissant's incisive theoretical work and analysis of his immensely powerful and subtle novels in the context of postcolonial studies By juxtaposing them Britton illuminates the significant contribution Glissant has made to this theoretical endeavor Literary Theory and Criticism: An Introduction Anne H. Stevens, 2015-06-18 *Literary Theory and Criticism: An Introduction* provides an accessible overview of major figures and movements in literary theory and criticism from antiquity to the twenty first century It is designed for students at the undergraduate level or for others needing a broad synthesis of the long history of literary theory An introductory chapter provides an overview of some of the major issues within literary theory and criticism further chapters survey theory and criticism in antiquity the Middle Ages and Renaissance the Enlightenment and the nineteenth century For twentieth and twenty first century theory the discussion is subdivided into separate chapters on formalist historicist political and psychoanalytic approaches The final chapter applies a variety of theoretical concepts and approaches to two famous works of literature William Shakespeare's *Hamlet* and Mary Shelley's *Frankenstein* Getting Lost Patti Lather, 2012-02-01 Winner of the 2008 Critics Choice Award presented by the American Educational Studies Association In this follow up to her classic text *Troubling the Angels* an experimental ethnography of women with AIDS Patti Lather deconstructs her earlier work to articulate methodology out of practice and to answer the question What would practices of research look like that were a response to the call of the wholly other She addresses some of the key issues challenging social scientists today such as power relations with subjects in the field the crisis in representation difference deconstruction praxis ethics responsibility objectivity narrative strategy and situatedness Including a series of essays reflections and interviews marking the trajectory of the author's work as a feminist methodologist *Getting Lost* will be an important text for courses in sociology of science philosophy of science ethnography feminist methodology women and gender studies and qualitative research in education
