The Oxford Handbook of Russian Religious Thought Caryl Emerson, George Pattison, Randall A. Holy Sobriety in Modern Russia Kimberly Page Herrlinger, 2023-08-15 Drawing on multiple archives and primary sources including secret police files and samizdat *Holy Sobriety in Modern Russia* reconstructs

the history of a spiritual movement that survived persecution by the Orthodox church and decades of official atheism and still exists today Since 1894 tens of thousands of Russians have found hope and faith through the teachings and prayers of the charismatic lay preacher and healer Brother Ioann Churikov 1861 1933 Inspired by Churikov s deep piety miraculous healing ability and scripture based philosophy known as holy sobriety the trezvenniki or sober ones reclaimed their lives from the effects of alcoholism unemployment domestic abuse and illness Page Herrlinger examines the lived religious experience and official repression of this primarily working class community over the span of Russia s tumultuous twentieth century crossing over and challenging the traditional divide between religious and secular studies of Russia and the Soviet Union and highlighting previously unseen patterns of change and continuity between Russia s tsarist and socialist pasts This grass roots faith community makes an ideal case study through which to explore patterns of spiritual searching and religious toleration under both tsarist and Soviet rule providing a deeper context for today s discussions about the relationship between Russian Orthodoxy and national identity Holy Sobriety in Modern Russia is a story of resilience reinvention and resistance Herrlinger s analysis seeks to understand these unorthodox believers as active agents exercising their perceived right to live according to their beliefs both as individuals and as a community

Philosophy of the Name Sergii Bulgakov, 2022-10-15 This is the first English translation by Thomas Allan Smith of *Philosophy of the Name* *Filosofii imeni Sergii Bulgakov* 1871 1944 wrote the book in response to a theological controversy that erupted in Russia just before the outbreak of World War I Bulgakov develops a philosophy of language that aims to justify the truthfulness of the statement the Name of God is God himself a claim provoking debate on the meaning of names and the Name of God in particular *Philosophy of the Name* investigates the nature of words and human language considers grammar and parts of speech and concludes with an exposition on the Name of God Name glorifying a spiritual movement connected with the Orthodox practice of the Jesus Prayer was initially censured by the Holy Synod of the Russian Orthodox Church and the controversy raised profound questions that continue to vex ecclesiastical authorities and theologians today The controversy exposed a vital question concerning the ability of human language to express experiences of the Divine truthfully and authentically Bulgakov examines the idea that humans do not create words rather objects speak their word to human beings and words are the incarnation of thought in a sonic body conveying meaning *Philosophy of the Name* offers a philosophy of language for contemporary theologians of all confessions who wrestle with the issue of language and God It is a persuasive apologia for the mysterious power of words and an appeal to make use of words responsibly not only when speaking about God but equally when communicating with others

A Spiritual Revolution Andrey V. Ivanov, 2020-11-10 The ideas of the Protestant Reformation followed by the European Enlightenment had a profound and long lasting impact on Russia s church and society in the eighteenth century Though the traditional Orthodox Church was often assumed to have been hostile toward outside influence Andrey V Ivanov s study argues that the institution in fact embraced many Western ideas thereby undergoing what some observers called a religious

revolution Embedded with lively portrayals of historical actors and vivid descriptions of political details A Spiritual Revolution is the first large scale effort to fully identify exactly how Western progressive thought influenced the Russian Church These new ideas played a foundational role in the emergence of the country as a modernizing empire and the rise of the Church hierarchy as a forward looking agency of institutional and societal change Ivanov addresses this important debate in the scholarship on European history firmly placing Orthodoxy within the much wider European and global continuum of religious change

Alexei Khomiakov Artur Mrówczyński-Van Allen, 2020-01-01 Alexei Khomiakov 1804 1860 a great Russian thinker one of the founders of the Slavophile school of thought nowadays might be seen as one of the precursors of critical thought on the dangers of modern political ideas The pathologies that Khomiakov attributes to Catholicism and Protestantism authoritarianism individualism and fragmentation are today the fundamental characteristics of modern states of the societies in which we live and to a large extent of the alternatives that are brought forth in an attempt to counter them Khomiakov's works therefore might help us take on the challenge of rescuing Christian thought from modern colonization and offer a true alternative a space for love and truth the living experience of the church This book serves as a step on the path toward recovering the church's reflection on its own identity as sobornost as the community that is the living body of Christ and can be the next step forward toward recovering the capacity for thought from within the church

Faith and Science in Russian Religious Thought Teresa Obolevitch, 2019-05-09 Faith and Science in Russian Religious Thought provides a comprehensive analysis of the relationship between science and faith in Russian religious thought Teresa Obolevitch offers a synthetic approach on the development of the problem throughout the whole history of Russian thought starting from the medieval period and arriving in contemporary times She considers the relationship between science and religion in the eighteenth century the so called academic philosophy of the 19th and 20th century the thought of Peter Chaadaev the Slavophiles and in the most influential literature figures such as Fedor Dostoevsky and Lev Tolstoy The volume also analyses two channels of the formation of philosophy in the context of the relationship between theology and science in Russia The first is connected with the attempt to rationalize the truths of faith and is exemplified by Vladimir Soloviev and Nikolai Lossky the second with the apophatic tradition is presented by Pavel Florensky and Semen Frank The book then describes the relation to scientific knowledge in the thought of Lev Shestov Nikolai Berdyaev Sergius Bulgakov and Alexei Losev as well as the original project of Russian Cosmism on the examples of Nikolai Fedorov Konstantin Tsiolkovsky and Vladimir Vernadsky Obolevitch presents the current state of the discussion on this topic by paying attention to the Neopatristic synthesis Fr Georges Florovsky and his followers and offers the brief comparative analysis of the relationship between science and religion from the Western and Russian perspectives

The Eastern Christian Tradition in Modern Russian Thought and Beyond Teresa Obolevitch, 2022-07-18 In The Eastern Christian Tradition in Modern Russian Thought and Beyond Teresa Obolevitch reflects on the ontology and anthropology of neo patristic synthesis and its connection to Western

philosophy with a focus on the work of Georges Florovsky and Vladimir Lossky The book also examines the concept of apophaticism in Russian philosophy in neo patristic synthesis and the thought of Semyon Frank and Lev Karsavin as well as in epistemological and cosmological comparison with process theology Additionally Obolevitch s work undertakes a comparative analysis of the reception of Russian sophiology in the West especially in the work of Thomas Merton and also considers similarities between neo patristic synthesis and Zen Buddhism in the thought of Merton and Sergey Horujy

Deification in Russian Religious Thought Ruth Coates, 2019-09-12 Deification in Russian Religious Thought considers the reception of the Eastern Christian Orthodox doctrine of deification by Russian religious thinkers of the immediate pre revolutionary period Deification is the metaphor that the Greek patristic tradition came to privilege in its articulation of the Christian concept of salvation to be saved is to be deified that is to share in the divine attribute of immortality In the Christian narrative of the Orthodox Church God became human so that humans might become gods Ruth Coates shows that between the revolutions of 1905 and 1917 Russian religious thinkers turned to deification in their search for a commensurate response to the apocalyptic dimension of the universally anticipated destruction of the Russian autocracy and the social and religious order that supported it Focusing on major works by four prominent thinkers of the Russian Religious Renaissance Dmitry Merezhkovsky Nikolai Berdiaev Sergei Bulgakov and Pavel Florensky Coates demonstrates the salience of the deification theme and explores the variety of forms of its expression She argues that the reception of deification in this period is shaped by the discourse of early Russian cultural modernism and informed not only by theology but also by nineteenth century currents in Russian religious culture and German philosophy particularly as these are received by the novelist Fedor Dostoevsky and the philosopher Vladimir Soloviev In the works that are analysed deification is taken out of its original theological context and applied respectively to politics creativity economics and asceticism At the same time all the thinkers represented in the book view deification as a project a practice that should deliver the total transformation and immortalisation of human beings society culture and the material universe and this is what connects them to deification s theological source
