Thoughts of a Philosophical Fighter Pilot James B. Stockdale, 2013-09-01 Thoughts on issues of character leadership integrity personal and public virtue and ethics the selections in this volume converge around the central theme of how man can rise with dignity to prevail in the face of adversity lessons just as valid for the challenges of present day life as they were for the author's Vietnam experience

Lessons from the Hanoi Hilton Taylor B Kiland, Peter Fretwell, Estate of Jack London, James B Stockdale, 2013-05-15 Why were the American POWs imprisoned at the Hanoi Hilton so resilient in captivity and so successful in their subsequent careers This book presents six principles practiced within the POW organizational culture that can be used to develop high performance teams everywhere The authors offer examples from both the POWs time in captivity and their later professional lives that identify in real life situations the characteristics necessary for sustainable high performance teamwork The book takes readers inside the mind of James Stockdale a fighter pilot with a degree in philosophy who was the senior ranking officer at the Hanoi prison The theories Stockdale practiced become readily understandable in this book Drawing parallels between Stockdale's guiding philosophies from the Stoic Epictetus and the principles of modern sports psychology Peter Fretwell and Taylor Baldwin Kiland show readers how to apply these principles to their own organizations and create a culture with staying power Originally intending their book to focus on Stockdale's leadership style the authors found that his approach toward completing a mission was to assure that it could be accomplished without him Stockdale they explain had created a mission centric organization not a leader centric organization He had understood that a truly sustainable culture must not be dependent on a single individual At one level this book is a business school case study It is also an examination of how leadership and organizational principles employed in the crucible of a Hanoi prison align with today's sports psychology and modern psychological theories and therapies as well as the training principles used by Olympic athletes and Navy SEALs Any group willing to apply these principles can move their mission forward and create a culture with staying power one that outlives individual members

Ars Vitae Elisabeth Lasch-Quinn, 2020-10-15 Despite the flood of self help guides and our current therapeutic culture feelings of alienation and spiritual longing continue to grip modern society In this book Elisabeth Lasch Quinn offers a fresh solution a return to classic philosophy and the cultivation of an inner life The ancient Roman philosopher Cicero wrote that philosophy is ars vitae the art of living Today signs of stress and duress point to a full fledged crisis for individuals and communities while current modes of making sense of our lives prove inadequate Yet in this time of alienation and spiritual longing we can glimpse signs of a renewed interest in ancient approaches to the art of living In this ambitious and timely book Elisabeth Lasch Quinn engages both general readers and scholars on the topic of well being She examines the reappearance of ancient

philosophical thought in contemporary American culture probing whether new stirrings of Gnosticism Stoicism Epicureanism Cynicism and Platonism present a true alternative to our current therapeutic culture of self help and consumerism which elevates the self's needs and desires yet fails to deliver on its promises of happiness and healing Do the ancient philosophies represent a counter tradition to today's culture auguring a new cultural vibrancy or do they merely solidify a modern way of life that has little use for inwardness the cultivation of an inner life stemming from those older traditions Tracing the contours of this cultural resurgence and exploring a range of sources from scholarship to self help manuals films and other artifacts of popular culture this book sees the different schools as organically interrelated and asks whether taken together they can point us in important new directions *Ars Vitae* sounds a clarion call to take back philosophy as part of our everyday lives It proposes a way to do so sifting through the ruins of long forgotten and recent history alike for any shards helpful in piecing together the coherence of a moral framework that allows us ways to move forward toward the life we want and need

Leadership United States Naval Academy. Department of Leadership, Ethics and Law,2000 *Virtue, Norms, and Objectivity* Christopher Gill,2005-03-03 to follow **Co-ed Combat** Kingsley Browne,2007-11-08 A scholar makes a definitive controversial argument against women in combat More than 155 000 female troops have been deployed to Iraq and Afghanistan since 2002 And more than seventy of those women have died While that's a small fraction of all American casualties those deaths exceed the number of military women who died in Korea Vietnam and the Gulf War combined Clearly women in combat isn't a theoretical issue anymore Women now fly combat aircraft and serve on warships Even the remaining all male corners of the military are blurring the lines in Iraq And for many advocates this trend is considered progress toward a better gender neutral military Co ed Combat makes the opposite case based on research in anthropology biology history psychology sociology and law as well as military memoirs It asks hard questions that challenge the assumptions of feminists For instance Has warfare really changed so much as to reverse the almost unanimous history of all male armed forces Are men and women really equivalent in combat skills even leaving aside physical strength Do female troops respond to traditional types of motivations Can the bonds of unit cohesion form in a co ed military unit Can an all volunteer military afford to reject women This is a controversial book likely to draw a passionate response from both conservatives and liberals Pragmatic Rationalism: An Introduction Frank Robert Vivilo,2013-07-16 Pragmatic rationalism is a coherent blend of elements from Epicureanism Stoicism Empiricism and Existentialism It holds that the ultimate goal of life is happiness individual happiness identified as psychic tranquility or untroubledness and attempts to pursue that goal in the most practical efficacious manner possible Accordingly it emphasizes investing this pursuit in the only things we each control our thoughts and feelings and minimizing desire for and reliance on all things external to us and therefore not under our control such as wealth and fame It insists that individuals choose and therefore are responsible for all they think and feel It rejects all emotionalism and belief systems and instead relies on induction and probability to guide decision making and

behavior Though an egoistic and hedonistic philosophy from the individual s perspective it nevertheless advocates the Golden Rule as the most useful guiding principle in interaction with others The Law of Armed Conflict Gary D. Solis,2016-04-18

This book introduces students to the essential questions of the law of armed conflict and international humanitarian law
