Verspreide Opstellen Over De Gesch Van Nederland:

Verspreide Opstellen over de Geschiedenis Van Nederland J. Huizinga, 2007-04-12 Naast zijn cultuur historische werken en zijn biografie n heeft Huizinga zich vooral tegen het eind van zijn leven aan algemene culturele beschouwingen gezet Als een van de hoogtepunten van die cultuurwetenschappelijke arbeid geldt de uit 1938 stammende studie *Homo ludens* Daarbij ging het hem niet om de betekenis van het spel als cultuurverschijnsel maar om het ludieke als wezenlijk kenmerk van de menselijke beschaving Dat kenmerk werkt hij uit in beschouwingen over bijvoorbeeld taal rechtspraak oorlogvoering filosofie kunst en sport Huizinga toont op briljante en onnavolgbare wijze dat de homo sapiens die wij zijn in wezen tevens een homo ludens is en dat altijd is geweest De taalwetenschapper en Sanskritist Johan Huizinga 1872 1945 geldt als de belangrijkste historicus die Nederland in de twintigste eeuw heeft voortgebracht vooral dankzij zijn studies *Herfsttij der middeleeuwen* en *Homo ludens* Daarnaast betoonde hij zich met zijn boek *In de schaduwen van morgen* 1935 ook een invloedrijk cultuurcriticus van zijn eigen tijd Dat hij in de jaren dertig als een zeer serieuze kandidaat voor de literaire Nobelprijs werd beschouwd laat zien hoezeer hij excelleerde in de compositie en zeggingskracht van zijn interpretaties en opvattingen Een klassiek schrijver die binnen Nederland alleen concurrentie krijgt van schrijvers als Multatuli Couperus Elsschot en Hermans Willem Otterspeer De reeks *Athenaeum* Boekhandel Canon verschijnt in samenwerking tussen Athenaeum Boekhandel en Amsterdam University Press Voor meer informatie over de reeks zie www.aup.nl/aaa-serie en www.athenaeum.nl Deze uitgave is mede tot stand gekomen in samenwerking met de Digitale Bibliotheek voor de Nederlandse Letteren dbnl.org

Introduction to Dutch Law Jeroen Chorus, 2016-04-18 A standard legal resource since its first edition in 1978 this matchless book has proven itself the ideal overview of Dutch law for foreign lawyers This Fifth Edition fully updates its systematic description of the legal sources institutions and concepts in all major fields of law Recent developments covered include the progressive implementation of standards set by international conventions the reorganization of the judiciary the statute on environmental law and the re codification of private international law The continuing influence of European law is evident in many fields perhaps most notably in family law The various chapters are written by experts scholars and lawyers in particular fields and provide an authoritative overview of each field The historical sources of Dutch law are discussed as well as Dutch legal culture judicial organization legal education and the legal profession These chapters are followed by introductions to essential issues of private and public law and labour law The last chapter examines questions of legal philosophy The only resource of its kind available this book is unmatched as a thorough guide to further research It offers practitioners particularly foreign lawyers a quick and reliable way into any area of Dutch law that they may be required to research It will also be of great value to comparatists especially those studying the influence of European law on national legal systems scholars and students Like previous editions the Fifth Edition has been prepared under the auspices of the Netherlands Comparative Law Association

The Culturalization of

Citizenship Jan Willem Duyvendak, Peter Geschiere, Evelien Tonkens, 2016-06-30 The notion of citizenship has gradually evolved from being simply a legal status or practice to a deep sentiment Belonging or feeling at home has become a requirement This groundbreaking book analyzes how feeling rules are developed and applied to migrants who are increasingly expected to express feelings of attachment belonging connectedness and loyalty to their new country More than this however it demonstrates how this culturalization of citizenship is a global trend with local variations which develop in relation to each other The authors pay particular attention to the intersection between sexuality race and ethnicity spurred on by their awareness of the dialectical construction of homosexuality held up as representative of liberal Western values by both those in the West and by African leaders who use such claims as proof that homosexuality is un-African

Out of Character Rogier van Reekum, 2023-12-28 This book offers a detailed and innovative study of the Dutch case of politics of citizenship and nationalism by focusing on public and political controversies in the crucial period of 1973-2015 By foregrounding the crucial role of performance and narration in public and political debates this book shows how discourses of citizenship and nationhood are deeply shaped by established repertoires and long lasting lines of disagreement about difference and belonging in the Netherlands While change did occur within the Dutch context during this period this book reveals that these transformations were not primarily driven by purportedly permissive and accommodating responses to immigration and cultural diversity Instead it unveils a Dutch landscape deeply marked by challenges related to race democracy and liberal exceptionalism In doing so the book contributes to ongoing debates in the study of citizenship nationalism and intellectual history around the merits and limitations of liberal politics of inclusion It critically extends concepts and arguments in cultural pragmatics and problematizes the common hope that public debate may progressively resolve antagonisms over difference With a focus on empirical research the book meticulously reconstructs the emergence of national identity debates in recent decades and vividly portrays the dynamics and tensions of these public performances while dissecting their role in shaping the nation's identity and its boundaries The book covers a crucial period of the European politics of citizenship and nationhood in which anti-immigrant politics new modes of racism and the bordering of Europe took shape It locates the Dutch case within these developments and insists on the importance of historical continuity and narrative performance This book demonstrates that the Netherlands and Europe more broadly has not overcome the profound consequences of its past

The Eclipse of Liberal Protestantism in the Netherlands Tom-Eric Krijger, 2019-09-16 In *The Eclipse of Liberal Protestantism in the Netherlands* Tom-Eric Krijger is the first to offer a synthesis of the development of the Protestant modernist movement in Dutch religious social cultural and political life between 1870 and 1940 In historiography the liberal Protestant community is said to have lost appeal and influence in these decades due to a lack of theological clarity inner harmony and organisation Analysing liberal Protestants' self-perception vis-à-vis Christian orthodoxy self-understanding as a faith community attitude towards other alternatives to orthodoxy class consciousness

literary criticism political commitment and involvement with foreign mission Krijger challenges this view Making an international comparison he argues that the Dutch modernist movement failed to make headway primarily due to liberal Protestant expectations and discourse

An Economic and Social History of the Netherlands, 1800-1920 Michael Wintle, 2000-09-21 An Economic and Social History of the Netherlands 1800 1920 provides a comprehensive account of Dutch history from the late eighteenth to the early twentieth century examining population and health the economy and socio political history The Dutch experience in this period is fascinating and instructive the country saw extremely rapid population growth awesome death rates staggering fertility some of the fastest economic growth in the world a uniquely large and efficient service sector a vast and profitable overseas empire characteristic pillarization and relative tolerance Michael Wintle also examines the lives of ordinary people what they ate how much they earned what they thought about public affairs and how they wooed and wed This book will be of central importance to Dutch specialists as well as European historians more generally

History of the Low Countries J. C. H. Blom, E. Lamberts, 2006-06-01 The history of the smaller European countries is rather neglected in the teaching of European history at university level We are therefore pleased to announce the publication of the first comprehensive history of the Low Countries in English from Roman Times to the present Remaining politically and culturally fragmented with its inhabitants speaking Dutch French Frisian and German the Low Countries offer a fascinating picture of European history en miniature For historical reasons parts of northern France and western Germany also have to be included in the Low Countries a term that must remain both broad and fluid a convenient label for a region which has seldom if ever composed a unified whole In earlier ages it was even more difficult to set parameters again reflecting Europe as a whole when tribes and kingdoms stretched across expanses not limited to the present states of Belgium Luxembourg and the Netherlands Nevertheless its parts did demonstrate many common traits and similar developments that differentiated them from surrounding countries and lent them a distinct character Internationally the region often served both as a mediator for and a buffer to the surrounding great powers France Britain and Germany an important role still played today as Belgium and the Netherlands have increasingly become involved in the broader process of European integration in which they often share the same interest and follow parallel policies This highly illustrated volume serves as an ideal introduction to the rich history of the Low Countries for students and the generally interested reader alike

Consensual Model of Democracy: 1967-1997, 2007 **Milton, Marvell, and the Dutch Republic** Esther van Raamsdonk, 2020-09-13 The tumultuous relations between Britain and the United Provinces in the seventeenth century provide the backdrop to this book striking new ground as its transnational framework permits an overview of their intertwined culture politics trade intellectual exchange and religious debate How the English and Dutch understood each other is coloured by these factors and revealed through an imagological method charting the myriad uses of stereotypes in different genres and contexts The discussion is anchored in a specific context through the lives and works of John Milton and

Andrew Marvell whose complex connections with Dutch people and society are investigated As well as turning overdue attention to neglected Dutch writers of the period the book creates new possibilities for reading Milton and Marvell as not merely English but European poets *Belgisch tijdschrift voor filologie en geschiedenis* ,2010

Verspreide Opstellen Over De Gesch Van Nederland Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has been much more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Verspreide Opstellen Over De Gesch Van Nederland**," published by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
