www.facebook.com/KobreGuide Video Journalism Mary Angela Bock, 2012 Video journalism the process by which one person shoots, writes and edits video for broadcast or the web is a form of newsgathering taking hold in newsrooms of all kinds by professionals and would be citizen journalists around the world. Some proponents have celebrated it as an improved narrative form, one that uses more intimate emotional documentary filmmaking techniques than conventional television. Its detractors consider it simply a cheaper way to make news. Video Journalism: Beyond the One Man Band weighs in on the controversy while addressing two overall concerns: What is video journalism exactly? And how do the stories created by video journalists compare with other forms of news? This book presents more than two years of ethnographic research in a wide variety of contexts in the United States and the United Kingdom, including local newspapers, The New York Times, local television stations, the BBC, the Voice of America radio network, and several professional photographic workshops. In a departure from other news ethnographies, this book takes a somewhat unusual approach in that the author observes video journalists at work in the field, not just in newsrooms, on stories ranging from an urban shooting to a presidential campaign visit. This approach offers a fascinating insider perspective for those in the field as well as those who aspire to it.

Practising Videojournalism Vivien Morgan, 2007-09-12 Providing valuable guidance on how to combine journalistic writing ability with video practice and offering information on key skills, Practising Videojournalism gives both students and practicing journalists access to a wide job market and keeps them in step with the multi-skilled journalist demanded by the media today. Vivien Morgan presents invaluable information on key skills such as identifying and researching stories, interviewing, producing scripts and pitching ideas, practical advice on how to use a small video camera, how to think visually about the impact of the footage, framing shots for maximum impact, the use of interchangeable lenses and of a lightweight tripod, the importance of getting clean sound, editing. Defining videojournalism and tracing its developments from its emergence in the 1980s to present day, the book examines satellite broadcasting, online, new media and print journalism as well as mapping the changing face of news. With end of section bullet points and summaries to highlight key concepts, Practising Videojournalism provides students and practicing journalists with both practical information and historical, technological and social context. Digital Media, Social Media, Immersive Media Mr. Rohit Manglik, 2023-11-23 Exploration of evolving digital media tools and their immersive capabilities. Digital Journalism Kevin Kawamoto, 2003 In this innovative book, experts on digital journalism share their perspectives on what digital journalism is, where it came from and where it may be going. Addressing many important issues in new media and journalism, authors take on history, convergence, ethics, online media and politics, and cutting edge technology from multimedia web sites to global satellite capabilities. Digital Journalism is a valuable resource for all journalism students and an intriguing read for anyone interested in the changing technology of news. **Convergent Journalism: An Introduction** Vincent F.
