ReThinking Management Wendelin Küpers, Stephan Sonnenburg, Martin Zierold, 2017-02-27 This book assembles multidisciplinary contributions to delve deeper into ReThinking Management. The first part provides some foundational considerations and inspirations. Further chapters offer more specific links to the arts and creativity sectors as well as empirical research and case reflections. ReThinking Management pursues the main idea that management theory is not merely a sub discipline of economics but rather a cross disciplinary and critical field of research and practice with a decidedly cultural perspective. While questioning the status and practices of conventional management the book opens up for new understandings, turns and perspectives.

Opening Strategy Richard Whittington, 2019-03-21 Strategy is becoming more open, more transparent and more inclusive. Opening Strategy tells the story of how corporate strategists and strategy consultants have worked since the middle of the last century to open up the strategy process. First strategic planning then strategic management and now open strategy have all brought more people into the strategy process and provided more strategic information for the benefit of both business and society at large. Informed by interviews with corporate strategists and consultants at leading firms such as General Electric and McKinsey Co and drawing on the historical archives of strategy's pioneers this book provides vivid insights into the trials and tribulations of practice change in the strategy profession. Above all it stresses the hard work of the little recognized and sometimes eccentric individuals who have been leaders in practice change. By building on a wide range of illustrations covering both successes and failures the book draws out general lessons for practice innovation in strategy. Those studying the topic will be able to set standard strategy techniques in historical and social context and develop new areas for investigation while practising executives and consultants should gain a sense of how to innovate in strategy and how not to.
