The Impact of IMF-Supported Programs on FDI in Low-income Countries Mr.Ali J Al-Sadiq,2015-07-16 It is common for IMF supported adjustment programs with low income member countries LICs to project that they will facilitate FDI inflows The main objective of this paper is to empirically examine this hypothesis Using an unbalanced panel dataset for 73 low income countries over the period 1980 2012 and two different econometric methods that address the selection bias problem the empirical results robustly show that participating in IMF supported program is associated with a significant increase in FDI inflows Review of Facilities for Low-Income Countries International Monetary Fund. Strategy, Policy, & Review Department,International Monetary Fund. Finance Dept.,2012-07-26 The 2009 reforms have broadly achieved their objective of closing gaps and creating a streamlined architecture of facilities that is better tailored to the diverse needs of LICs Supported by the financing package to boost the PRGT s lending capacity for 2009 14 and the accompanying doubling of access the Fund was able to mount an effective response to LICs needs during the global financial crisis *Does Lower Debt Buy Higher Growth? The Impact of Debt Relief Initiatives on Growth* Ms.Sandra Marcelino,Ms.Ivetta Hakobyan,2014-12-18 In 1996 the IMF and the World Bank introduced the Heavily Indebted Poor Countries Initiative a comprehensive debt relief program aimed at reducing the external debt burden of eligible countries to sustainable levels provided they carry out strong programs of macroeconomic adjustment and structural reforms designed to promote growth and reduce poverty Now that the HIPC Initiative is nearly completed this paper investigates whether the initiative managed to spur growth either directly or indirectly through investment In contrast to earlier studies we conclude that there is some evidence of positive effects of the HIPC Initiative on growth Such evidence suggests that the HIPC Initiative and MDRI have helped HIPC eligible countries to reach higher growth but it remains unclear whether this is through higher investment or another channel Also the analysis illustrates that it is hard to disentangle pure debt relief effects from other concurrent factors *Designing Expenditure Policy Conditionality in IMF-Supported Programs* Emine Hanedar,Zsuzsa Munkacsi,2025-01-24 This gap filling paper provides granular advice on how to design quantitative and structural conditionality of IMF supported programs in six expenditure policy areas social assistance energy subsidies pension spending health spending education spending and wage bill management Such granular advice is based on a stocktaking exercise an analysis of 105 programs approved between 2002 and July 2021 containing a ca 1400 conditions Conditions are key to identify outcomes or actions seen as critical for program success or monitoring and so are essential for financial support countries can receive from the Fund

Hasian Jr.,2016-07-14 [Representing Ebola](#) provides readers with a critical legal analysis of the recent West African Ebola Outbreak The author argues that a review of the scientific military legal economic political and mediated coverage of this latest outbreak highlights the ways that organizations like the World Health Organization or Doctors Without Borders want to conceptualize the importance of rapid emergence from the West during African Ebola epidemics The author concludes that while the U S military and other organizations prided themselves on their belated responses to this outbreak oftentimes journalists scientists and others overlooked the contributions that were made by contract tracers and indigenous public health workers Sadly the 2013 2015 West African outbreak took the lives of thousands of individuals and the author contends that this contributed to sensationalist ways of representing local burial and food habits The book concludes by noting that while many West African leaders appreciated the billions of dollars of promised aid that would flow toward this region in the wake of the Ebola outbreak real health security measures have to involve longer term infrastructural changes Talk of how Westerners rescued the West Africans need to be augmented with more nuanced ways of thinking about how many of those who actually battled Ebola need to become part of future conversations regarding everything from theories of aerial transmission to the steps that need to be taken during the first few weeks of recorded outbreaks **IMF Survey** International Monetary Fund.
