Programme Music in the Last Four Centuries Frederick Niecks, 2009-08 This historic book may have numerous typos missing text or index Purchasers can download a free scanned copy of the original book without typos from the publisher 1907 Not illustrated Excerpt CHAPTER IV IN GERMANY The writing of the present chapter cannot be called an inspiring task Without Wagner's sovereign contempt for the music of his time and Tchaikovsky's belief in Germany's complete exhaustion one may yet be unable to grow enthusiastic over the theme The productivity during the period with which we are concerned has been enormous But how about the really valuable outcome of it In the latter part of the 19th century the question was often asked What remains if you remove from the living German composers Wagner and Brahms And then there were ever so many people who while heartily admitting the greatness of one of the two were not so sure of the other not to mention those who were all for the one and would have none whatever of the other Now this exclusive way of looking at men and things is not only unfair it is absolutely foolish The men of genius leave room for the men of talent and the masters en grand for the masters en miniature To be sure for some time past Germany has not been abounding in musical genius of the first or even second order But if there has been a dearth of powerful original creativeness and of strikingly outstanding individuality there has been also a goodly provision of artistic ability well deserving our respect and gratitude ability displaying itself not merely in technical skill but often also in imaginativeness sensibility and poetic charm The great bulk of crudities futilities and vacuities need not trouble us they are not peculiar to any one period One could classify composers into 1 such as write only absolute music and are uninfluenced by and even averse to the programmatic tendency 2 such as write programme music but only in the classical manner and forms 3 such as go only History of Europe, and Her Dependencies, During the Last Four Centuries ... John Sedgwick (B.D., Rector of Stoke-Climsland, Callington, Cornwall.), 1850 **A history of Europe and her dependencies during the last four centuries. By the author of "A history of France." Edited by J. Sedgwick, 1850** **A history of Europe, and her dependencies, during the last four centuries, by the author of 'A history of France', ed. by J. Sedgwick [really written by the latter]. John Sedgwick, 1850** **Infant Baptism in the First Four Centuries** Joachim Jeremias, 2004-07-27 Joachim Jeremias here makes his greatest contribution in a study of the early tradition of infant baptism He offers exegesis of pertinent New Testament passages and readers will be impressed with the extra Biblical evidence he produces to support that there was virtually universal observance of the rite in the post Apostolic generations He states his purpose thus to lay before the reader the historical material relating to the history of infant baptism in the first four centuries in as concrete and sober a manner as possible Cultural Translation and Receptions of Paul in the First Four Centuries František Ábel, 2025-07-10 There are two overlapping themes which serve as the focus of Cultural Translation and Receptions of Paul in the First Four Centuries a reception of the apostle Paul in subsequent Christian traditions and b the hypothesis that while Paul himself continued to think as a Jew he was subsequently

re interpreted by non Jews in non Jewish and anti Jewish ways the so called Paul within Judaism school The distinctive focus of this volume is on the dynamic of cultural translation meaning for example the translation from the cultural world of Diaspora Judaism and its Septuagint to Greek philosophical and Greek Christian categories The contributions to the book are diverse ranging from younger to more senior scholars from both North America and Europe **Testimonies of the Fathers of the First Four Centuries** Henry Cary,1835 **Four Centuries of Witch Beliefs (RLE Witchcraft)** R. Trevor Davies,2012-05-23 Originally published in 1947 it is the essential purpose of this book to investigate attitudes of leading Elizabethan and Stuart statesmen ask whether witchcraft was of any importance in seventeenth century English history or even influenced the Great Rebellion The reader is placed in possession of the more pertinent passages from the arguments used to support or discredit belief in witchcraft *The Chromatic Fourth During Four Centuries of Music* Peter Williams,1997 Despite its rather forbidding name the Chromatic Fourth is one of the most familiar short themes in virtually all western music over the four hundred years before the middle of our century It is a sequence of six notes that can be heard in a huge variety of ways most originally effectively and beautifully in the work of the greatest composers from the madrigalists to Stravinsky from Byrd to Bart k with telling examples in the operas of Monteverdi Mozart and Wagner or in the keyboard music of Bull Bach and Schubert Although the existence of the chromatic fourth has long been recognized and occasionally mentioned by music historians this is the first thorough going attempt to trace its likely origins and its evolution over four hundred years With over 200 music examples Peter Williams demonstrates the theme s wonderful variety and shows that it was used by composers not only as a means of emotional expression but also as a structural device **The story of four centuries, sketches of early Church history for youthful readers, by H.L.L.** H.
