Things Fall Apart Critical Insights:

Celebrating the 60th Anniversary of 'Things Fall Apart' Désiré Baloubi, Christina R. Pinkston, 2020-12-10 This book celebrates Chinua Achebe one of the most profound and famous African writers of our time and his widely read masterpiece *Things Fall Apart*. The novel remains a must read literary text for reasons the many contributors to this book make clear in their astute readings. Their perspectives offer thought provoking and critically insightful considerations for scholars of all ages cultures and genders.

The Root Causes of Terrorism Mahmoud Masaeli, Rico Sneller, 2017-01-06 Fifteen years after the tragic events of 9 11 bombs are still exploding and innocent people are being killed by terrorist groups in both western and Islamic societies. Most of these sinisterly threatening events are motivated by religious claims or are taking place in religiously affected places. Is religion the main cause of terrorism or does terrorism still arise because of leaders who brainwash and coach future terrorists so that they kill under the banner of religion? The religious imagination seems to hold here an influential power in the creation of delusion to orient the bigot believers toward fulfilling their religious duty against those who are religious in a different way or are not religious at all. Religion in this sense is tightly allied with political aspirations. In spite of the religious justification of the act of killing enlightened religious leaders and religious minded people believe and argue that religion is a source of love and affection. Therefore the sacred texts of religious tradition must be read from a humanist perspective because the ultimate message of religion is about the appreciation of the principle of humanity. This is a growing attitude among many religious people today who believe that God is merciful and compassionate and never orders resentment violence and killing of innocent people. In addition no true religious tradition appreciates self serving interpretations promoting violence against others. If religion disregards love affection and compassion as its essence it drops into the dire vortex of ideological dogma as it is in the case for the Taliban ISIS Boko Haram and Al Shabab. Therefore any interpretation that admits violence and killing would be a mere provincial reading of the religious texts agitated by purposeful intentions aimed at political goals. This book investigates and addresses the root causes of terrorism from a religious studies perspective. The themes analysed and discussed here mainly include a range of religious and philosophical issues such as religious violence in scriptural monotheism radical interpretations of religious texts militancy and sacrifice apocalypticism and terrorism and religious terrorism today. The book brings together new approaches adopted by the authors to not only trace the causes of terrorism in various religious interpretations and realms but also reach a common definition of the main religious causes beyond diverse perspectives and advance solutions against religious inspired terrorism.

Responses of Mysticism to Religious Terrorism Mahmoud Masaeli, Rico Sneller, 2020-01-02 This book explores how mystical traditions of either Abrahamic or non Abrahamic religions hold the potential to challenge the discourse of political Islam and its terrorist intentions. It discusses the urgent need to reconsider mystical messages of love and recognition of difference against the poisonous evil of terrorism issuing from religious contexts. Throughout the publication the editors draw

together the main ideas and perspectives surrounding mystical Islam in real life and the practice of mystics alongside illustrating common beliefs and practices of Islamic mysticism This book analyses the message and impacts of mysticism on the battle against the evil of religious terrorism whilst examining successful stories and cases against violence and religious terrorism

Spirituality and Global Ethics Mahmoud Masaeli, Rico Sneller, 2017-05-11 This volume addresses three fundamental questions about the interplay between the ethics of globality and spirituality What are the practical implications of spirituality for the condition of life in a turbulent era of violent religious non religious extremism In what way can spirituality the view of love compassion tolerance and mutual recognition encounter mistrust enmity separateness and violence How and in what way can spirituality contribute to the newly emerging global ethics Religious scholars distinguish between the esoteric and exoteric sides of belief systems Esotericism centres on the inner awareness and conceals a certain spirituality that is only transmittable to those who could successfully pass through a process of initiatic preparation and transpersonal practices to understand the mystical dimensions of existence In contrast exotericism takes the outer dimension of every day consciousness into account and favours the possibility of the popular understanding of the essence of existence In this perspective truth could be grasped by the public without the need of any transpersonal initiative and transformation of consciousness Esotericism extends beyond religion and has become the spiritual philosophy of life without the need of being essentially religious It has become common notably in the West to identify oneself as spiritualist without having religious affiliations The condition of globality has provided an unprecedented opportunity for spiritual perspectives to grow Ideas perspectives beliefs and philosophies of life are growing outside local national containers to express themselves in different global settings while the forces of globalisation are influencing local identities and cultures While evolving global transformations strengthen people s capability to leave institutionally ordered belief systems it simultaneously enables them to rearrange themselves around alternative perspectives These fundamental transformations cultivate a fabulous landscape for the growth of spirituality

Chinua Achebe's Things Fall Apart Isidore Okpewho, 2003 Chinua Achebe is Africa s most prominent writer and Things Fall Apart 1958 is the most renowned and widely read African novel in the

global literary canon The essays collected in this casebook explore the work's artistic, multicultural and global significance from a variety of critical perspectives

Chinua Achebe and the Politics of Narration Thomas Jay Lynn, 2017-07-18 This book examines vital intersections of narration, linguistic innovation and political insight that distinguish Chinua Achebe's fiction as well as his non-fiction commentaries. Each chapter focuses on a different aspect of these intersections: Achebe's narrative response to Western authors who have written on Africa; his integration of Igbo folklore; the political implications of writing African literature in English; his use of Nigerian Pidgin and the Nigerian Civil War. It also addresses the teaching of Achebe's works. Achebe drew on diverse resources to offer searching psychological and political insights that contribute not only a decidedly African political viewpoint to the modern novel but also a more inclusive narrative consciousness. Achebe's adaptations of Igbo oral art are intrinsic to his writing's political engagement because they assert the integrity and authority of the African voice in a global order defined by colonialism. This book reveals how his work has helped to restructure a global vision of Africa.

Understanding Things Fall Apart Kalu Ogbaa, 1999-01-30 This casebook provides commentary and materials that place the novel *Things Fall Apart* in its historical, social and cultural contexts. Among the documents included are a slave narrative, interviews, journal and magazine articles and historical essays. Maps and photographs are provided.

African Perspectives on Global Development Mahmoud Masa'eli, Rico Sneller, 2019-01-22 Africa is not merely an invention with a modern imperial or colonial background. Nor is it simply a continent in need of foreign aid from the richer, more affluent societies. Africa might be economically needy, politically unstable and in part socially chaotic and suffering from civil wars and social unrest. However, the continent and its peoples are certainly different from the negative image portrayed in the mass media. Africa had been the cradle of civilization in the pre-colonial era and is today undergoing a diverse cultural, philosophical and spiritual development with great potential contributing to contemporary debates around the ethics of globality. The novelty of this book derives from its multidisciplinary approach. Although the authors generally come from the fields of development and economics, global studies, political science, philosophy and ethics and sociology, they present Africa's alternative view of human wellbeing in order to provide theories and policy recommendations which inspire the specific developmental patterns for the growth of the continent. The volume discusses the meaning of development for the continent by drawing on culture, identity, ethnicity and philosophy of nature. The contributors examine a variety of issues and themes directly related to the opportunities provided by globality to promote the development of the continent. They also discuss solutions for underdevelopment and poverty and how those perspectives might be effectively integrated into the global agenda for the development of Africa.
