Modern Messages from Green Gables on Loving, Living and Learning Robert V. Smith, 2021-10-20 Many people have read and been inspired by the Anne of Green Gables novels However few may know very much about the extraordinary intuition brilliance creativity and productivity of the Anne author Lucy Maud Montgomery 1874 1942 Fewer still may understand how Montgomery was much ahead of her time as a feminist and an advocate for women's roles in society as reflected in her writings and life story This book

encourages readers to imagine how Montgomery's life experiences influenced the life of Anne and consider how these real and imaginary lives offer messages for 21st century men and women their loving living and lifelong learning It offers such understanding by revivifying Anne a little more than 100 years after she left her literary existence in 1919 to portray her life story fundamentally tied to loving The revivified Anne and her physician husband Gilbert Blythe review the life challenges and triumphs of their creator and how Montgomery's example might offer messages for us on living and learning Anne and Gilbert know that Montgomery was a keen observer of others akin to many of the characters in her books They describe how Montgomery imaginatively captured the essence of the people around her The associations include not only the benevolent individuals on her beloved Prince Edward Island and in Ontario Canada but also the bigotry sexual repression and small mindedness common in the late nineteenth and early twentieth centuries The revivified Ann and Gilbert in this book illuminate Anne's and Montgomery's lives that portray integrity tolerance compassion generosity perseverance and graciousness even in times of personal adversity When these traits are combined with lifelong learning creativity and a dedication of service to humanity we realize enduring messages for all members of the global community in our modern times

Immersion Travel USA: The Best and Most Meaningful Volunteering, Living, and Learning Excursions Sheryl Kayne, 2008-09-17 Awarded the 2009 Silver Medal in the Society of American Travel Writers Foundation's annual Lowell Thomas Travel Journalism Competition the first and only travel book devoted solely to immersion travel volunteering living and learning trips within the United States This book will absolutely changes lives and the way you think about travel in the United States Designed to be a resource and idea book this guide provides practical information about immersion travel special considerations and costs how to plan and take vacations sabbaticals side trips and more There are chapters filled with candid warm stories from travelers who have been there done that It's exciting to visit a national park but it's a lifetime experience to live inside one for an extended amount of time Help others and enjoy yourself by biking and building homes across the country Learn the fine art of making an authentic Windsor chair Work as a caretaker and live in a lighthouse Care about returning the wolf to its natural habitat Play in the High Sierra Mountains backpacking and camping

African American Political Thought Melvin L. Rogers, Jack Turner, 2024-05-31 *African American Political Thought* offers an unprecedented philosophical history of thinkers from the African American community and African diaspora who have addressed the central issues of political life democracy race violence liberation solidarity and mass political action Melvin L. Rogers and Jack Turner have brought together leading scholars to reflect on individual intellectuals from the past four centuries developing their list with an expansive approach to political expression The collected essays consider such figures

as Martin Delany Ida B Wells W E B Du Bois James Baldwin Toni Morrison and Audre Lorde whose works are addressed by scholars such as Farah Jasmin Griffin Robert Gooding Williams Michael Dawson Nick Bromell Neil Roberts and Lawrie Balfour While African American political thought is inextricable from the historical movement of American political thought this volume stresses the individuality of Black thinkers the transnational and diasporic consciousness and how individual speakers and writers draw on various traditions simultaneously to broaden our conception of African American political ideas This landmark volume gives us the opportunity to tap into the myriad and nuanced political theories central to Black life In doing so African American Political Thought A Collected History transforms how we understand the past and future of political thinking in the West

Perspectives on Thinking, Learning, and Cognitive Styles Robert J. Sternberg, Li-fang Zhang, 2014-04-08 This volume presents the most comprehensive balanced and up to date coverage of theory and research on cognitive thinking and learning styles in a way that represents diverse theoretical perspectives includes solid empirical evidence testing the validity of these perspectives and shows the application of these perspectives to school situations as well as situations involving other kinds of organizations International representation is emphasized with chapters from almost every major leader in the field of styles Each chapter author has contributed serious theory and or published empirical data work that is primarily commercial or that implements the theories of others The book's central premise is that cognitive learning and thinking styles are not abilities but rather preferences in the use of abilities Traditionally many psychologists and educators have believed that people's successes and failures are attributable mainly to individual differences in abilities However for the past few decades research on the roles of thinking learning and cognitive styles in performance within both academic and nonacademic settings has indicated that they account for individual differences in performance that go well beyond abilities New theories better differentiate styles from abilities and make more contact with other psychological literatures recent research in many cases is more careful and conclusive than are some of the older studies Cognitive learning and thinking styles are of interest to educators because they predict academic performance in ways that go beyond abilities and because taking styles into account can help teachers to improve both instruction and assessment and to show sensitivity to cultural and individual diversity among learners They are also of interest in business where instruments to assess styles are valuable in selecting and placing personnel The state of the art research and theory in this volume will be of particular interest to scholars and graduate students in cognitive and educational psychology managers and others concerned with intellectual styles as applied in educational industrial and corporate settings
