Noncoercive Threats to Academic, Political, and Economic Freedom Akeel Bilgrami, Jonathan R. Cole, 2025-12-02
States and institutions in both conventionally authoritarian and formally democratic societies overtly circumscribe freedom in any number of ways Yet there are also subtler forms by which authorities and cultural forces compromise the choices of individuals in ways that do not seem at first glance to be coercive This book brings together a distinguished set of scholars to examine covert constraints on academic political and economic freedom from a variety of angles developing surprising and timely new insights Ranging across philosophy economics law health science art and the media luminaries from different fields expose threats to freedom within avowedly liberal and democratic institutions and cultures Their incisive essays both analytical and historical emphasize how economic inequality academic orthodoxy media control racism and gender roles undermine the potential for human flourishing By considering such multifarious noncoercive threats they illuminate the vexed notion of freedom Lively and learned this book offers a provocative and urgent understanding of the often unacknowledged forces that restrict our choices Contributors include David Bromwich Eric Foner Robert Gooding Williams Michael Ignatieff Laura Kipnis Anya Schiffrin Joseph E Stiglitz and Geoffrey R Stone In an essay and an interview with the volume editors Noam Chomsky addresses the neoliberal assault on academic freedom

The God That Did Not Fail
Robert Royal, 2010 Secular humanists and other progressives have been predicting the demise of religion for the past 250 years But they keep running into a problem those who were supposed to be liberated by the secular gospel that God is Dead aren't buying it Except for some parts of western Europe and in countries culturally destroyed by Communism secularization in the radical sense has not occurred While it has not obliterated the religious impulse however the drive towards progressive irreligion has Robert Royal believes encouraged ignorance of religion's central role in the development of the West In *The God That Did Not Fail* Royal offers an original reading of religion in ancient Greece and Rome of Christianity and Judaism the Middle Ages the Renaissance and Reformation the several modern Enlightenments culminating with a profound assessment of our current postmodern moment He concludes that since religion is a permanent part of human nature and of the particular character of the West our efforts should be directed not into a quixotic effort to deny the undeniable especially as we face challenges from Islamic fundamentalism but into promoting a well thought out and dynamic interplay of faith reason and modern freedoms
