Vietnam Today A Guide To A Nation At A Crossroads:

Vietnam Today Mark A. Ashwill, 2011-01-11 Pulsating with energy and steeped in dreams Vietnam stands at a crossroads Located in the geographical center of Southeast Asia Vietnam is a complex mixture of the ancient and the modern A Soviet style legacy contrasts with an emerging Western style market economy Vietnam is faced with pressing political social and economic challenges and yet it is full of hope and potential Here is a first look at Vietnam in the twenty first century a nation undergoing rapid change and opening up to the world Dr Mark Ashwill paints a broad picture of Vietnam past and present and explores today s defining issues Readers come to understand how a two thousand year history of foreign invasion occupation and war has deeply influenced the Vietnamese character The Chinese French and U S Americans have all left their imprint Yet the struggle against oppression has infused the Vietnamese with a fierce spirit of nationalism and caution in their dealings with foreigners Building relationships and trust as a prelude to doing business are critical to the Vietnamese whether at home or abroad Vietnam Today reveals the most prominent characteristics of the Vietnamese their energy and drive the dominance of group over individual and the paramount importance of maintaining harmony In doing so Ashwill and his Vietnamese contributor shed light on many sources of misunderstanding between Vietnamese and Western professionals But for those who are prepared to take the time to get to know the people to move at their pace and to learn about their culture and history Vietnam can be a land of promise and opportunity *Vietnam's Political Process* Casey Lucius, 2009-06-02 Vietnam s decision making process is often described as either consensus based or simply confusing and inexplicable This book provides an approach to understanding political decision making in Vietnam by recognizing enduring values that are derived from State controlled education and official historical narratives [Vietnam - Culture Smart!](#) Geoffrey Murray, 2016-01-07 At head of title on cover The essential guide to customs culture **Labour in Vietnam** Anita Chan, 2011-08-12 Two decades after Vietnam introduced a programme of economic renovation commonly known as Doi Moi the country today allows market competition in industry and a new working class has been created This is the first book to focus on the role and conditions of workers in the new economic regime The authors of the book trace Vietnam s labour history explore the impact of the socialist legacy and examine the reasons for the large number of recent strikes The book provides insights into the workforce of one of Asia s most rapidly developing industrial economies [Serving Library Users from Asia](#) John Hickok, 2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US While books on serving other target groups in libraries have been published e g disabled Latino seniors etc few books on serving library users of Asian heritage have been written Thus the timely need for this book Rather than a generalized overview of Asians as a whole this book has 24 separate chapters each on 24 specific Asian countries cultures of East Southeast and South Asia with a wealth of resources for understanding interacting with outreaching to and serving library users of each culture Resources include cultural guides both print and online language helps with sample library vocabulary Asian

Witt,Gordon Redding,2014-01-30 Much of the existing literature within the varieties of capitalism VOC and comparative business systems fields of research is heavily focused on Europe Japan and the Anglo Saxon nations As a result the field has yet to produce a detailed empirical picture of the institutional structures of most Asian nations and to explore to what extent existing theory applies to the Asian context The Oxford Handbook of Asian Business Systems aims to address this imbalance by exploring the shape and consequences of institutional variations across the political economies of different societies within Asia Drawing on the deep knowledge of 32 leading experts this book presents an empirical comparative institutional analysis of 13 major Asian business systems between India and Japan To aid comparison each country chapter follows the same consistent outline Complementing the country chapters are eleven contributions examining major themes across the region in comparative perspective and linking the empirical picture to existing theory on these themes A further three chapters provide perspectives on the influence of history and institutional change The concluding chapters spell out the implications of all these chapters for scholars in the field and for business practitioners in Asia The Handbook is a major reference work for scholars researching the causes of success and failure in international business in Asia East and Southeast Asia

Within the last twenty years a large scale bottom up privatization has taken place in Vietnam changing and dismantling the

public health care system This process has led to severe tensions inherent in the transitional society of Vietnam between equity and access to health care support especially for the poor elderly migrants and ethnic minorities on the one hand and its efficiency on the other hand The book traces the reform efforts to modernize the health care system by the Communist Party of Vietnam and the Vietnamese government The author bases her findings on little known primary literature and interviews with key stakeholders of the policy network involved in the reform of the health care system thereby painting an authentic atmospheric picture of the profound changes in the health care system in Vietnam
