When Western influences began to pervade the Muslim world over a century ago intense and rapid changes occurred in almost every sphere of Muslim life The encounter with the West profoundly influenced Arab and Muslim intellectuals and led them to compare their stagnant condition with that of the more dynamic West Questions arose What were the secrets behind the West s ascendancy and the reasons for the East s decline How could the East be revived Could it reconcile the prevailing values in the East with those of the West In spite of its brevity this book offers the reader a fascinating study of how one of the century s most important Muslim thinkers dealt with the ideas and institutions of the West While Rida s intellectual odyssey ran from guarded admiration of the West to contempt for its hypocrisy and even to calls for open rebellion what is important to note is that his foremost concern was with values and ideas in the tradition of the hadith which states that wisdom is like the believer s lost camel it is his to mount regardless of where he may find it Thus while Rida could hardly have endorsed the colonial policies of a Bismarck for example he nonetheless admired the man s thinking in regard to education Through the efforts of Muhammad Rashid Rida an entire generation of Muslim intellectuals was brought face to face with the thought of several of the West s most important writers and social philosophers Finally though the inhumanity of the battlefield may have convinced Rida that Western politics were about the cynical exercise of power the humanity of the West s thinkers remained the standard by which he judged the West in general Hindu Bhakti Through Muslim Eyes R. David Coolidge,2025-05-16

Hindu Bhakti Through Muslim Eyes puts the Caitanya Vai avā tradition of devotion to Krishna in scholarly conversation with Islam for the first time It builds on a millennium of Muslim reflections regarding Hindu theology and practice despite common assumptions that Hindus and Muslims are destined for misunderstanding and conflict Beginning with al B r n in the 11th Century Muslims often commented on the beliefs and practices of the Hindu tradition in relation to their own tradition of Islam This process continues until today as Muslims increasingly articulate a scholarly perspective on our planet s religious diversity Centered in the author s Islamic theological ethical and liturgical commitments this study explores the tradition of Krishna worship traced to the charismatic figure Caitanya who preached in the Bengal Sultanate of the early 16th Century The book explores possibilities for Muslim interreligious scholarship beyond Judeo Christian frameworks as well as the revival of al B r n s legacy in the 21st Century Relevant for scholars in Islamic Studies Hindu Studies Interreligious Studies Comparative Theology and Decolonial Studies Hindu Bhakti Through Muslim Eyes forges new ground in Muslim scholarship regarding religious and cultural pluralism In particular it offers a model of engagement built on patient learning of a different textual corpus and communal praxis while still remaining rooted in the Islamic tradition as a distinctive intellectual paradigm

Women And Revolution In Iran Guity

Nashat, 2021-11-28 Iranian women acquired greater legal, social and economic opportunities during the past three decades than in any other period of history, yet they participated in large numbers in the 1979 revolution to overthrow Shah

Mohammad Reza Pahlavi. Ironically, they may have lost more than any other group from the changes introduced and stand to lose even more from changes contemplated by leaders of the current regime. The role of women in the revolution, the reasons for their participation and their subsequent fate are documented in this volume. The authors examine the status of women in pre-revolutionary society, the ways in which their lives were affected by Islamic principles and the changes that occurred throughout the twentieth century as increasing numbers of women entered the labor force and public life. They then turn to recent political events, describing the participation of working-class, rural and educated women and activists from both the right and left. Finally, they consider the implications of recent government politics aimed at limiting women's activities outside the home and encouraging a return to more traditional roles.

Lobola (Bridewealth) in Contemporary Southern Africa

Lovemore Togarasei, Ezra Chitando, 2021-02-03 This volume explores the multiple meanings and implications of lobola in Southern Africa. The payment of lobola, often controversially translated as bridewealth, is an entrenched practice in most societies in Southern Africa. Although having a long tradition, there have been voices questioning its relevance in contemporary times, while others vehemently defend the practice. This book brings together a range of scholars from different academic disciplines, national contexts, institutions, genders and ethnic backgrounds to debate the relevance of lobola in contemporary southern African communities for gender equality.

The Webs of Shaitan

Mahfouz A. Adedimeji, 2011-08-10 The webs of Shaitan pervade the horizon, catching and clutching Muslims in rapid succession. Shaitan is a hunter; his arrows are the eyes, the ears, the tongue, the stomach, the private parts, the hands and the legs. How safe are we from the traps of Shaitan? How immune are we from the arrows of enemy? This small book highlights, in a free and racy prose, the major areas where Shaitan penetrates souls and the routes of escaping him. The first part, 'The web', examines the woe-bearing webs in the hands of Shaitan: words, world, wealth, women and wine in the context of our modern world. The second part, 'The way', aims at making Muslims retrace their steps to Islam. This it does by schematizing the imperative of knowledge and, among other things, providing a number of tips on perfecting salat, the criterion between kufr and Islam.

The Contemporary Islamic Governed State Joseph J. Kaminski, 2017-08-21 This book offers a normative reconceptualization of a modern Islamic governed state. First, Joseph Kaminski surveys the historical context of the trajectory of Islamic thought and offers a unique discursive framework for reconceptualizing an Islamic governed state that rejects

secular Enlightenment liberalism and instead is heavily grounded in Ancient Greek ideals of politics and political leadership. Despite heavily borrowing from Greek thought, the model offered remains firmly rooted in a Shari'ah based discursive ontological framework. The volume explores topics of bureaucracy, law, democracy, women in politics, and economic justice. Further, this volume presents case studies from Turkey, Egypt, Tunisia, and Malaysia and utilizes the presented theoretical framework as a lens for analysis.
