Westmoreland's War Reassessing American Strategy In Vietnam:

Westmoreland's War Gregory Daddis, 2014 This groundbreaking study offers a major reinterpretation of American strategy during the first half of the Vietnam War Gregory A Daddis argues senior military leaders developed a comprehensive campaign strategy one not confined to attrition of enemy forces This innovative work is a must for a genuine understanding of the Vietnam War

Withdrawal Gregory A. Daddis, 2017-09-01 A better war Over the last two decades this term has become synonymous with US strategy during the Vietnam War's final years The narrative is enticingly simple appealing to many audiences After the disastrous results of the 1968 Tet offensive in which Hanoi's forces demonstrated the failures of American strategy popular history tells of a new American military commander who emerged in South Vietnam and with inspired leadership and a new approach turned around a long stalemated conflict In fact so successful was General Creighton Abrams in commanding US forces that according to the better war myth the United States had actually achieved victory by mid 1970 A new general with a new strategy had delivered only to see his victory abandoned by weak kneed politicians in Washington DC who turned their backs on the US armed forces and their South Vietnamese allies In a bold new interpretation of America's final years in Vietnam acclaimed historian Gregory A Daddis disproves these longstanding myths Withdrawal is a groundbreaking reassessment that tells a far different story of the Vietnam War Daddis convincingly argues that the entire US effort in South Vietnam was incapable of reversing the downward trends of a complicated Vietnamese conflict that by 1968 had turned into a political military stalemate Despite a new articulation of strategy Abrams's approach could not materially alter a war no longer vital to US national security or global dominance Once the Nixon White House made the political decision to withdraw from Southeast Asia Abrams's military strategy was unable to change either the course or outcome of a decades long Vietnamese civil war In a riveting sequel to his celebrated *Westmoreland's War* Daddis demonstrates he is one of the nation's leading scholars on the Vietnam War Withdrawal will be a standard work for years to come

Vietnam Gary R. Hess, 2015-03-31 Now available in a completely revised and updated second edition *Vietnam Explaining America's Lost War* is an award winning historiography of one of the 20th century's seminal conflicts Looks at many facets of Vietnam War examining central arguments of scholars journalists and participants and providing evidence on both sides of controversies around this event Addresses key debates about the Vietnam War asking whether the war was necessary for US security whether President Kennedy would have avoided the war had he lived beyond November 1963 whether negotiation would have been a feasible alternative to war and more Assesses the lessons learned from this war and how these lessons have affected American national security policy since Written by a well respected scholar in the field in an accessible style for students and scholars

Army History, 2013

The Unknown Enemy Christian Tripodi, 2020-11-12 Western counterinsurgency doctrine proposes that cultural intelligence is an important requirement for those forces operating amidst the unfamiliar socio political structures often found in distant conflict zones Yet while the

determination to understand the intricate nature of alien societies may appear a rational undertaking in such circumstances Christian Tripodi argues that these endeavours rarely help deliver success The frictions of war and the complex human cultural and political terrain of the operating environment render such efforts highly problematic In their attempts to generate and instrumentalize local knowledge for the purpose of exerting influence and control western military actors are drawn into the unwelcome realm of counterinsurgency as a form of political warfare Their operating environment now becomes a space charged with phenomena that they rarely comprehend rarely even see and which they struggle to exert any meaningful control over All in pursuit of a victory that might literally mean nothing *Naval War College Review* ,2016

Strategy in Vietnam Michael A. Hennessy,1997-08-21 Grand strategy strategy and tactics the three layers of policy and action inherent to all military efforts are the focus of this historical analysis of the dynamics of the Vietnam War The American theory of counterrevolutionary warfare is examined in light of American military practice especially that of the Marine Corps during the period of America s greatest involvement 1965 1972 and at the site of the most intense combat the five northern provinces known as I Corps Drawing from two schools of thought that diverge over the appropriate strategy America should have pursued in South Vietnam this inquiry indicates that both the number of troops and their tactical employment proved inadequate for redressing the threat within the parameters America set for itself Specifically this work demonstrates that the counterrevolutionary warfare strategy postulated for Vietnam was largely ignored in some quarters and sowed the seeds of defeat in others *Lessons from an Unconventional War* Richard A. Hunt,Richard H. Shultz,1982

Universitatis Jagellonica Cracoviensis acta scientiarum litterarumque ,2017 **Learning from Conflict** Richard D. Downie,1998-06-18 Why have militaries so often failed to learn from conflict and war Why for example despite years of unsuccessful counterinsurgency experiences in Vietnam and El Salvador and repeated recommendations from official Army studies has the U S Army not changed its doctrine for counterinsurgency Writing for scholars as well as military professionals and policymakers Downie examines the sources of doctrinal change and innovation from a theoretical perspective and derives practical and relevant policy recommendations Contrasting with other findings in this field Downie provides case studies showing that neither external pressure on a military nor institutional recognition of the requirement for doctrinal change is sufficient to explain the process of doctrinal change A military innovates when it learns by proceeding through a learning cycle that includes achieving an organizational consensus that permits adoption of new approaches that respond to factors that make existing doctrine deficient When that process is blocked militaries are left with outmoded doctrinal approaches that constrain military performance and lead to defeat This is an important study for military leaders civilian policymakers and scholars and researchers dealing with contemporary U S military issues The Australian Quarterly ,1968 *Secrets of State* George Munster,Richard Walsh,1982 *American Strategy in Vietnam* Harry G Summers,2007-02-02 A politico military assessment of the Vietnam War analyzing the U S Army s strategic and tactical

ideologies Particularly relevant today it stresses the futility of any military action without the full support of the people
