Writing Genres Rhetorical Philosophy And Theory:

Writing Genres Amy J Devitt, 2008-07-23 In *Writing Genres* Amy J Devitt examines genre from rhetorical social linguistic professional and historical perspectives and explores genre's educational uses making this volume the most comprehensive view of genre theory today *Writing Genres* does not limit itself to literary genres or to ideas of genres as formal conventions but additionally provides a theoretical definition of genre as rhetorical dynamic and flexible which allows scholars to examine the role of genres in academic professional and social communities *Writing Genres* demonstrates how genres function within their communities rhetorically and socially how they develop out of their contexts historically how genres relate to other types of norms and standards in language and how genres nonetheless enable creativity Devitt also advocates a critical genre pedagogy based on these ideas and provides a rationale for first year writing classes grounded in teaching antecedent genres

The Gospel of John as Genre Mosaic Kasper Bro Larsen, 2015-10-28 In recent decades New Testament scholarship has developed an increasing interest in how the Gospel of John interacts with literary conventions of genre and form in the ancient Jewish and Greco Roman context The present volume brings together leading scholars in the field in order to discuss the status quaestionis and to identify new exegetical frontiers In the Fourth Gospel genres and forms serve as vehicles of ideological and theological meaning The contributions to this volume aim at demonstrating how awareness of ancient and modern genre theories and practices advances our understanding of the Fourth Gospel both in terms of the text as a whole gospel ancient biography drama romance etc and in terms of the various literary tiles that contribute to the Gospel's genre mosaic

Modern Genre Theory Andrew Judd, 2024-07-02 How a better understanding of genre leads to a better understanding of the biblical text The Bible with its gloriously rich diversity of ancient genres demands a flexible and historically aware approach to genre Different conceptions of narrative poetry gospel epistle wisdom and apocalyptic texts lead to vastly different readings and our disagreements about what the Bible means often boil down to different assumptions about what the biblical text is As secular genre theory has experienced a recent renaissance biblical studies has been left in the dark ages of rigid taxonomies and stubborn essentialism The Bible deserves better This book offers students in biblical studies an accessible but comprehensive introduction to modern genre theory providing access to literary tools for understanding how writers and readers use genre to make meaning Modern Genre Theory describes the current state of biblical genre theory as well as the meaning of form criticism and why it needs to die Scholar of biblical hermeneutics Andrew Judd then presents a better alternative of interpretation based on the best developments in secular literary theory linguistics and rhetorical studies Drawing on advancements in modern genre theory Judd Proposes a working definition of genre for biblical studies Identifies twelve tenets of modern genre theory that follow from seeing genres in their historical and social context Offers eight case studies in biblical exegesis to show how a better understanding of genre leads to a better understanding of the Bible From the creation accounts of Genesis to the visions of Revelation it is important to get a handle

on genre This book offers a way to reading the Bible better How Students Write: A Linguistic Analysis Laura Louise Aull, 2020-04-01 Broad generalizations about people today are a familiar feature of first year student writing How Students Write brings a fresh perspective to this perennial observation using corpus linguistics techniques This study analyzes sentence level patterns in student writing to develop an understanding of how students present evidence draw connections between ideas relate to their readers and ultimately learn to construct knowledge in their writing Drawing on both first year and upper level student writing the book examines the discourse of students at different points in their education It also distinguishes between argumentative and analytic essays to explore the way school genres and assignments shape students choices In focusing on sentence level features such as hedges perhaps and boosters definitely this study shows how such rhetorical choices work together to open or close opportunities for thoughtful exchanges of ideas Attention to these features can help instructors foster civil discourse design effective assignments and expose and question norms of higher education

Playing with Scripture Andrew Judd, 2024-01-22 This book puts a creative new reading of Hans Georg Gadamer s philosophical hermeneutics and literary genre theory to work on the problem of Scripture Reading texts as Scripture brings two hermeneutical assumptions into tension that the text will continually say something new and relevant to the present situation and that the text has stability and authority over readers Given how contested the Bible s meaning is how is it possible to read Scripture as authoritative and relevant Rather than anchor meaning in author text or reader Gadamer s phenomenological model of hermeneutical experience as Spiel play offers a dynamic intersubjective account of how understanding happens avoiding the dead end of the subjective objective dichotomy Modern genre theory addresses some of the criticisms of Gadamer accounting for the different roles played by readers in different genres using the new term Lesespiel reading game This is tested in three case studies of contested texts the recontextualization of psalms in the book of Acts the use of Hagar s story Genesis 16 in nineteenth century debates over slavery and the troubling reception history of the rape and murder in Gibeah Judges 19 In each study the application of ancient text to contemporary situation is neither arbitrary nor slavishly bound to tradition but playful *Dangerous Writing* Tony Scott, 2009-03-15 Outlines a political economic theory of composition Connects pedagogical practices in writing classes to their broader political economic contexts and argues that the analytical power of writing is prevented from reaching its potential by pressures within the academy and without that tend to wed higher education with the aims and logics of fast capitalism Since the 1980s and the social turn in composition studies and other disciplines scholars in this field have conceived writing in college as explicitly embedded in socio rhetorical situations beyond the classroom From this conviction develops a commitment to teach writing with an emphasis on analyzing the social and political dimensions of rhetoric By focusing on the structures of labor and of institutions that enforce those structures the author finds teachers and administrators are too easily swept along with the inertia of a hyper commodified society in which students especially working class students are often positioned as

commodities themselves A critique of the field of composition as much as it is a critique of capitalism From publisher description *Linguistics and Language Behavior Abstracts* ,2006-10 **Genre Theory, Narrative Theory, and Assumptions about Multigenre Writing** Michelle Tremmel,2003 *The Rhetoric and Ideology of Genre* Richard M. Coe,Lorelei Lingard,Tatiana Teslenko,2002 This book takes up issues of current concern in composition studies sociolinguistics and ESL issues concerning academic literacy critical literacy expressive versus cognitive approaches to the teaching of writing and the like It does so in a practical experiential way drawing on events in classrooms in universities in South Africa and the United States The contrast between the South African context and the American as well as their surprising parallels highlight certain questions concerning the teaching of literacy in a dramatic way so that theory and practice are brought together In contrast to writing programs that follow a textbook or a planned sequence of study the authors describe a narrative pedagogy that encourages students to find a direction and choose activities suggested by their own concerns and ongoing lives Publisher *Bibliographic Index* ,2006 **Forthcoming Books** Rose Arny,2003-12

Handbook of Classical Rhetoric in the Hellenistic Period, 330 B.C.-A.D. 400 Stanley E. Porter,2001 A comprehensive introduction to classical rhetoric as practised in the hellenistic period The three sections define the major categories of rhetoric analyze rhetorical practice according to genre and treat individual writers in the rhetorical tradition Academic Writing Consulting and WAC Jeffrey Jablonski,2006 This book provides theoretical models and practical methods for helping writing teachers and writing program administrators within postsecondary institutions conduct the interdisciplinary collaborative consulting activities that are common with formal and information writing across the curriculum WAC programs It specifically discusses how to conduct the day to day work of negotiating close working partnerships with faculty in other disciplines and is the first book length treatment to do so The book deepens current understandings of how writing specialist collaborate with non writing specialists in academic contexts and provides a map for structuring successful collaborations in the future **Learning and Teaching Genre** Aviva Freedman,Peter Medway,1994 This collection examines academic genres types of writing produced by students in secondary school and college from the perspective of genre as social action Such a perspective expands the understanding of what students do when they learn new school genres of what teachers and institutions do to enhance and constrain such learning and of what all this signifies for conceptions of writing pedagogy The book begins with an overview of the reconception of genre study The essays that follow have an interest in genre particularly those that appear in educational settings as instances of either student reading or writing Common motifs recur throughout questions are raised concerning learning and teaching new genres the ideological power of genres read and written and the power of the teacher curriculum planner or student to invent new genres or to resist and subvert those that exist Throughout the contributors give detailed accounts of successful classroom practices Learning and Teaching Genre brings recent developments in research and thinking about written genres to the attention of high school

and college teachers and illustrates how that work can effectively inform classroom practice WPA, *Writing Program Administration*, 2003

The History and Theory of Rhetoric James A. Herrick, 2001 The History and Theory of Rhetoric offers an accessible discussion of the history of rhetorical studies in the Western tradition from ancient Greece to contemporary American and European theorists

Theorizing Composition Mary Kennedy, 1998-06-25 The last 25 years have witnessed extraordinary growth in the academic specialization variously described as composition studies or rhetoric and composition What was noticeable about the field in its infancy was a preoccupation with practice a lack of emphasis on theory and an exclusive reliance on the writing process As its disciplinary status has grown the field has become far more theoretical Composition studies has expanded its focus reconceptualized the writing process and embraced a wide range of critical perspectives The result of this change is that terms such as poststructuralism social construction gender and genre which were largely unknown in 1965 now dominate discussion This reference book is a guide to the multiplicity of theories that have emerged to form the disciplinary foundation of composition studies The volume consists of 66 entries each of which is written by an expert contributor and focuses on a particular theory or group of theories While the entries show how various individuals have contributed to theoretical movements very few concentrate on the work of a single theorist Each entry first provides a critical summary of a particular theory or group of theories including key elements basic concepts and claims and information about seminal or particularly influential works It then reviews the theory's critical reception in composition studies and discusses its significance in the field The bibliography at the end of each entry lists primary texts and major scholarship related to the theory and provides additional suggestions for further reading The volume closes with a selected bibliography of important works

CCCC Bibliography of Composition and Rhetoric 1995 Gail Stygall, Kathleen Murphy, 1999-08 Published for the Conference on College Composition and Communication this bibliography provides an annual listing of scholarship on written English and teaching at the college level Entries appear under six major categories Bibliographies and Checklists Theory and Research Teacher Education Administration and Social Roles Curriculum Testing Measurement and Evaluation Listservs Electronic Resources and WWW Sites This volume lists and annotates nearly two thousand articles books dissertations and papers that with few exceptions appeared in 1995 It includes an index of authors and editors a subject index and entries cross referenced according to subject matter As usual the CCCC Bibliography of Composition and Rhetoric draws on a large group of experts in the field Annotations which accompany every entry in this volume describe a publication's contents and are intended to help users determine the entry's usefulness Annotations are brief and are not meant to be descriptive or evaluative they explain what an entry is about but leave readers free to judge for themselves the work's merits Some of the main topics are self explanatory while others require some explanation Bibliographies and Checklists are clear enough but Theory and Research may not be These entries discuss concepts or hypotheses explain how people learn describe fields or methodologies examine historical developments review previous

explanations of a subject or advance conclusions drawn from empirical evidence Teacher Education Administration and Social Roles obviously covers the education of teachers and administrative and personnel policies this topic also deals with services supporting classroom instruction and relations between educational institutions and the larger society Listservs Electronic Resources and WWW Sites deals with the Internet s electronic discussion groups interested in theory and practice in composition and rhetoric General Catalog -- University of California, Santa Cruz University of California, Santa Cruz,2008 *The Philosopher's Index* ,2009 Vols for 1969 include a section of abstracts
