**What Works?** Nutley, Sandra M., Davies, Huw T.O., Peter C. Smith, 2000-07-19 An exploration of how the knowledge gained from research is used to improve the effectiveness of public policy formation and public service delivery It covers eight areas of public service health education criminal justice social policy transport urban policy housing and social care

What Works? Sandra M. Nutley, Peter C. Smith, H. T. O. Davies, 2000 What counts is what works but how can we actually tell what works And what can we do with such knowledge to influence policy and practice As all parts of the public sector embrace evidence as a means of providing more effective and efficient public services this book provides a contribution to such debates The authors consider the role of evidence in specific public policy areas healthcare education criminal justice social care welfare housing transport and urban renewal using experts in each field to explore the creation dissemination and use of evidence within each They consider in particular How is research evidence of service effectiveness created How does such evidence shape policy and influence service delivery What efforts are being made to encourage greater utilisation of evidence in policy and practice The rich cross sectoral accounts of the many and diverse activities in each sector provide an insight into the ebb and flow of evidence as guidance to policy and practice The book develops perceptive analyses of outstanding problems and raises challenging agendas for service development and future research The authors conclude with the all important question of the implementation of evidence based practice **Evidence-based Practice -**

**Modernising the Knowledge Base of Social Work?** Hans-Uwe Otto, Andreas Polutta, Holger Ziegler, 2009-06-04 The quest to create an evidence based Social Work practice is emerging strongly in different fields of Social Work and social policy In this volume internationally renowned proponents and opponents of this approach deliver profound analyses of the meaning and implications of an evidence based perspective which clearly challenges the nature of the knowledge base of the established Social Work practice and apparently reevaluates and reshapes the character of welfare professionalism Aus dem Inhalt What Knowledge Evidence based Practice Profession and Users Organising Measuring and Implementing Evidence Towards an Evidence based Professionalism **What Works?** Huw T. interest in the use of evidence for public policymaking but the vast majority of work on the subject has failed to engage with the political nature of decision making and how this influences the ways in which evidence will be used or misused within political areas This book provides new insights into the nature of political bias with regards to evidence and critically considers what an improved use of evidence would look like from a policymaking perspective Part I describes the great potential for evidence to help achieve social goals as well as the challenges raised by the political nature of policymaking It explores the concern of evidence advocates that political interests drive the misuse or manipulation of evidence as well as counter concerns of critical policy scholars about how appeals to evidence based policy can depoliticise political debates Both concerns reflect forms of bias the first representing technical bias whereby evidence use violates principles of scientific best practice and the second representing issue bias in how appeals to evidence can shift political debates to particular questions or marginalise policy relevant social concerns Part II then draws on the fields of policy studies and cognitive psychology to understand the origins and mechanisms of both forms of bias in relation to political interests and values It illustrates how such biases are not only common but can be much more predictable once we recognise their origins and manifestations in policy arenas Finally Part III discusses ways to move forward for those seeking to improve the use of evidence in public policymaking It explores what constitutes good evidence for policy as well as the good use of evidence within policy processes and considers how to build evidence advisory institutions that embed key principles of both scientific good practice and democratic representation Taken as a whole the approach promoted is termed the good governance of evidence a concept that represents the use of rigorous systematic and technically valid pieces of evidence within decision making processes that are representative of and accountable to populations served
