Classroom 15 Peter Laufer, 2020-12-15 A result of an investigative report by tenacious University of Oregon journalism students Classroom 15 tells the story of how the dreams of fourth grade students at the Riverside School Roseburg in rural Oregon timber country were crushed by the prevailing Red Scare McCarthyism state and societal censorship and J Edgar Hoover's FBI The teacher of Classroom 15 known fondly as Mr McFetridge assigned a pen pal project in an effort to take geography lessons outside of the classroom Imagining a place as far from Oregon as they possibly could the students wrote letters to nine and ten year old counterparts in the Soviet Union Janice Boyle the class secretary reached out to Oregon's Congressional representative Charles O Porter seeking assistance connecting with peers in Russia Representative Porter forwarded the letter to the Secretary of State Christian Herter and a week later the students received the shocking and disheartening news that their benign request had been needlessly denied In the wake of McCarthyism the Eisenhower administration subverted the assignment fearing Communist propaganda would infect the innocent minds of eager Oregon schoolchildren The students' plight quickly gained national attention with stories running from the Roseburg News Review to the New York Times The publicity didn't miss the attention of J Edgar Hoover's FBI His agents investigated They traveled to Roseburg collected evidence and took it back to the Bureau's regional headquarters in Portland The public reaction was swift and unrelenting The teacher and the Congressman were attacked by outraged Roseburg citizens the school board and enraged Americans across the country Classroom 15 is all the above and a page turning adventure story told with the voices of the empowered tenacious University of Oregon journalism students who took the nascent story and demonstrated their unwavering devotion to the journalistic process by telling the tale

Man-Eaters Michael Bright, 2013-12-10 In this horrifying study of the world's most dangerous predatory animals and their human trophies Michael Bright unleashed hundreds of gruesome true stories to shock the unshockable If you think we're at the top of the food chain think again And watch your back

The Memory Eaters Elizabeth Kadetsky, 2020-03-31 On autopsy the brain of an Alzheimer's patient can weigh as little as 30 percent of a healthy brain The tissue grows porous It is a sieve through which the past slips As her mother loses her grasp on their shared history Elizabeth Kadetsky sifts through boxes of the snapshots newspaper clippings pamphlets and notebooks that remain hoping to uncover the memories that her mother is actively losing as her dementia progresses These remnants offer the false yet beguiling suggestion that the past is easy to reconstruct easy to hold At turns lyrical poignant and alluring *The Memory Eaters* tells the story of a family's cyclical and intergenerational incidents of trauma secret keeping and forgetting in the context of 1970s and 1980s New York City Moving from her parents' divorce to her mother's career as a Seventh Avenue fashion model and from her sister's addiction and

homelessness to her own experiences with therapy for post traumatic stress disorder Kadetsky takes readers on a spiraling trip through memory consciousness fractured by addiction and dementia and a compulsion for the past salved by nostalgia

The Losses Cully Perlman,2016-12-01 **Science, Geopolitics and Culture in the Polar Region** Professor Sverker Sörlin,2013-10-28 Throughout the twentieth century glaciologists and geophysicists from Denmark Norway and Sweden made important scientific contributions across the Arctic and Antarctic This research was of acute security and policy interest during the Cold War as knowledge of the polar regions assumed military importance But scientists also helped make the polar regions Nordic spaces in a cultural and political sense with scientists from Norden punching far above their weight in terms of population geographical size or economic activity This volume presents an image of Norden that stretches far beyond its conventional limits covering a vast area in the North Atlantic and the Arctic Sea as well as parts of Antarctica Rich in resources scarce in population but critically important in global and regional geopolitics these spaces were contested by major powers such as Russia the United States Canada and in the Antarctic Argentina Australia South Africa and others The empirical focus on Danish Norwegian and Swedish influence in the polar regions during the twentieth century embraces a diverse array of themes from the role of science in policy and diplomacy to the tensions between nationalism and internationalism with clear relevance to the important role science plays in contemporary discussions about Nordic engagement with the polar regions **The Sea Elephants** Shastri Akella,2025-08-30 Shagun knows he will never be the kind of son his father demands After the agonizing deaths of his beloved twin sisters he flees his own guilt his mother s grief and his father s violent disapproval by enrolling at an all boys boarding school He forms tumultuous and eye opening relationships there but doesn t find true belonging till he encounters a traveling theater troupe performing the myths of his childhood Welcomed by other storytellers Shagun thrives easily embodying mortals and gods men and women and embraces a life on the move far from his father s clutches When Shagun meets Marc a charming photographer he seems to have found the love he always longed for But not even Marc can save him from his lingering shame nor his father s ever present threat to send him to a conversion center As Shagun s past begins to engulf him once again he must decide if he is strong enough to face what he fears most and to boldly claim his own happiness Set in 1990s India *The Sea Elephants* is an utterly immersive and spellbinding novel both dark and beautiful harrowing and triumphant An ode to the redemptive joys of storytelling Shastri Akella s soulful debut is a celebration of hard won love of others and for ourselves *Sibelius* Glenda Dawn Goss,2009-12-15 One of the twentieth century s greatest composers Jean Sibelius 1865 1957 virtually stopped writing music during the last thirty years of his life Recasting his mysterious musical silence and his undeniably influential life against the backdrop of Finland s national awakening Sibelius will be the definitive biography of this creative legend for many years to come Glenda Dawn Goss begins her sweeping narrative in the Finland of Sibelius s youth which remained under Russian control for the first five decades of his life Focusing on previously unexamined events Goss explores the composer s formative

experiences as a Russian subject and a member of the Swedish speaking Finnish minority She goes on to trace Sibelius s relationships with his creative contemporaries with whom he worked to usher in a golden age of music and art that would endow Finns with a sense of pride in their heritage and encourage their hopes for the possibilities of nationhood Skillfully evoking this artistic climate in which Sibelius emerged as a leader Goss creates a dazzling portrait of the painting sculpture literature and music it inspired To solve the deepest riddles of Sibelius s life work and enigmatic silence Goss contends we must understand the awakening in which he played so great a role Situating this national creative tide in the context of Nordic and European cultural currents Sibelius dramatically deepens our knowledge of a misunderstood musical giant and an important chapter in the intellectual history of Europe
