Whats The Matter With Kansas How Conservatives Won The Heart Of America

Stanley D. Brunn

Whats The Matter With Kansas How Conservatives Won The Heart Of America:

What's the Matter with Kansas? Thomas Frank, 2007-04-01 One of our most insightful social observers cracks the great political mystery of our time how conservatism once a marker of class privilege became the creed of millions of ordinary Americans With his acclaimed wit and acuity Thomas Frank turns his eye on what he calls the thirty year backlash the populist revolt against a supposedly liberal establishment The high point of that backlash is the Republican Party's success in building the most unnatural of alliances between blue collar Midwesterners and Wall Street business interests workers and bosses populists and right wingers In asking what's the matter with Kansas how a place famous for its radicalism became one of the most conservative states in the union Frank a native Kansan and onetime Republican seeks to answer some broader American riddles Why do so many of us vote against our economic interests Where's the outrage at corporate manipulators And whatever happened to middle American progressivism The questions are urgent as well as provocative Frank answers them by examining pop conservatism the bestsellers the radio talk shows the vicious political combat and showing how our long culture wars have left us with an electorate far more concerned with their leaders values and down home qualities than with their stands on hard questions of policy A brilliant analysis and funny to boot What's the Matter with Kansas presents a critical assessment of who we are while telling a remarkable story of how a group of frat boys lawyers and CEOs came to convince a nation that they spoke on behalf of the People Los Angeles Times *The Moderate Majority* George

Hawley, 2024-11-04 *The Moderate Majority* examines the Republican electorate and challenges the conventional narrative that today's Republicans are all radicalized reactionary ideologues It illuminates the substantial gap between the elites and diverse mostly moderate rank and file GOP voters With a historically grounded mixed methods approach that draws on a rich collection of empirical survey data and face to face interviews this book presents a comprehensive portrait of contemporary mass Republican opinion and behavior

Who Gets Represented? Peter K. Enns, Christopher Wlezien, 2011-01-10 An investigation of policy preferences in the U S and how group opinion affects political representation While it is often assumed that policymakers favor the interests of some citizens at the expense of others it is not always evident when and how groups interests differ or what it means when they do *Who Gets Represented* challenges the usual assumption that the preferences of any one group women African Americans or the middle class are incompatible with the preferences of other groups The book analyzes differences across income education racial and partisan groups and investigates whether and how differences in group opinion matter with regard to political representation Part I examines opinions among social and racial groups Relying on an innovative matching technique contributors Marisa Abrajano and Keith Poole link respondents in different surveys to show that racial and ethnic groups do not as previously thought predictably embrace similar attitudes about social welfare Katherine Cramer Walsh finds that although preferences on health care policy and government intervention are often surprisingly similar across class lines different income groups can maintain the same policy preferences for different reasons

Part II turns to how group interests translate into policy outcomes with a focus on differences in representation between income groups James Druckman and Lawrence Jacobs analyze Ronald Reagan's response to private polling data during his presidency and show how different electorally significant groups Republicans the wealthy religious conservatives wielded disproportionate influence on Reagan's policy positions Christopher Wlezien and Stuart Soroka show that politicians' responsiveness to the preferences of constituents within different income groups can be surprisingly even handed Analyzing data from 1876 to the present Wesley Hussey and John Zaller focus on the important role of political parties vis vis constituents preferences for legislators behavior Who Gets Represented upends several long held assumptions among them the growing conventional wisdom that income plays in American politics and the assumption that certain groups will always or will never have common interests Similarities among group opinions are as significant as differences for understanding political representation Who Gets Represented offers important and surprising answers to the question it raises

The Changing World Religion Map Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions faiths and practices It discusses a broad range of issues and phenomena that are related to religion including nature ethics secularization gender and identity Broadening the context it studies the interrelation between religion and other fields including education business economics and law The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions Beginning with an introduction of the concept of the changing world religion map the book first focuses on nature ethics and the environment It examines humankind's eternal search for the sacred and discusses the emergence of green religion as a theme that cuts across many faiths Next the book turns to the theme of the pilgrimage illustrated by many examples from all parts of the world In its discussion of the interrelation between religion and education it looks at the role of missionary movements It explains the relationship between religion business economics and law by means of a discussion of legal and moral frameworks and the financial and business issues of religious organizations The next part of the book explores the many new faces that are part of the religious landscape and culture of the Global North Europe Russia Australia and New Zealand the U S and Canada and the Global South Latin America Africa and Asia It does so by looking at specific population movements diasporas and the impact of globalization The volume next turns to secularization as both a phenomenon occurring in the Global religious North and as an emerging and distinguishing feature in the metropolitan cosmopolitan and gateway cities and regions in the Global South The final part of the book explores the changing world of religion in regards to gender and identity issues the political religious nexus and the new worlds associated with the virtual technologies and visual media

American Credo Michael Foley, 2007-09-13 If America has a claim to exceptionalism *American Credo* locates it in a little understood ability to engage in deep conflicts over political ideas while at the same time reducing adversarial positions to legitimate derivatives of American history and development

Conventional Wisdom and American Elections Jody C. Baumgartner, Peter L. Francia, 2008 List of

illustrations Preface pt 1 Voters 1 The big year for the youth vote myth and reality 2 The America divided myth red states blue states and other gaps 3 The myth of the vanishing voters and the rise of the independent voter pt 2 Following campaigns 4 Misconceptions about the e campaign what the Internet can and cannot do for political campaigns 5 Myth or reality presidential campaigns have become nastier 6 Science or voodoo misconceptions about national election polls 7 It's the ratings stupid misconceptions about media bias 8 A dime's worth of difference political parties and the myth of Tweedledum and Tweedledee pt 3 Understanding election outcomes 9 Selling of the president the image is everything myth 10 The misconception of competitive congressional elections 11 Presidential campaigns and kingmaker states the myth of a national contest Notes Index About the authors

Is There a Culture War? James Davison Hunter, Alan Wolfe, 2007-04-01
 In the wake of a bitter presidential campaign and in the face of numerous divisive policy questions many Americans wonder if their country has split in two People are passionately choosing sides on contentious issues such as the invasion of Iraq gay marriage stem cell research and the right to die and the battle over abortion continues unabated Social and political splits fascinate the media we hear of Red States against Blue States and the Religious Right against Secular America Fox News and Air America NASCAR dads and soccer moms Is America in fact divided so clearly Does a moderate middle still exist Is the national fabric fraying To the extent that these divisions exist are they simply the healthy and unavoidable products of a diverse democratic nation In *Is There a Culture War* two of America's leading authorities on political culture lead a provocative and thoughtful investigation of this question and its ramifications James Davison Hunter and Alan Wolfe debate these questions with verve insight and a deep knowledge rooted in years of study and reflection Long before most scholars and pundits addressed the issue Hunter and Wolfe were identifying the fault lines in the debate Hunter's 1992 book *Culture Wars* put the term in popular circulation arguing that America was in the midst of a culture war over our most fundamental and cherished assumptions about how to order our lives Six years later in *One Nation After All* Wolfe challenged the idea of a culture war and argued that a majority of Americans were seeking a middle way a blend of the traditional and the modern For the first time these two distinguished scholars join in dialogue to clarify their differences update their arguments and search for the truth about America's cultural condition

Psychoanalytic Insights into Social, Political, and Organizational Dynamics Seth Allcorn, Howard F Stein, 2021-08-16 This fascinating interdisciplinary work explores U S politics since 2015 and offers psychodynamic insights into the unconscious undercurrents of contemporary culture and politics in the United States Allcorn and Stein expertly lead readers up the steep learning curve of understanding the Trump era by exploring seven key elements of recent political dynamics Using the complementary psychodynamic models of object relations Group Relations and Karen Horney's tripartite theory this book makes sense of the Age of Trump and its chaotic world of alternate facts conspiracy theories reality TV politics hoax pandemics and the sweeping chaos of life in the United States This sense making relies on two triangulations The first represents the complex systemic political scene The second uses three

psychoanalytic theories to understand social political and organizational dynamics This book is a key resource for helping readers know and understand ourselves our fellow citizens colleagues family friends and what Trump and his followers call them such as liberals and foreign immigrants as well as both the larger polarized social and political context in the United States today The book also provides concrete examples of how these discoveries can be operationalized both in organizations and at the level of national government and leadership This book is an essential reading for students in organizational behavior including leadership and how governments operate as well as behavioral health professionals consulting or offering therapy to organizations

American Liberalism John McGowan, 2007-10-22 Americans live in a liberal democracy Yet although democracy is widely touted today liberalism is scorned by both the right and the left The United States stands poised between its liberal democratic tradition and the illiberal alternatives of liberalism s critics John McGowan argues that Americans should think twice before jettisoning the liberalism that guided American politics from James Madison to the New Deal and the Great Society In an engaging and informative discussion McGowan offers a ringing endorsement of American liberalism s basic principles values and commitments He identifies five tenets of liberalism a commitment to liberty and equality trust in a constitutionally established rule of law a conviction that modern societies are irreducibly plural the promotion of a diverse civil society and a reliance on public debate and deliberation to influence others opinions and actions McGowan explains how America s founders rejected the simplistic notion that government or society is necessarily oppressive They were however acutely aware of the danger of tyranny The liberalism of the founders distributed power widely in order to limit the power any one entity could exercise over others Their aim was to provide for all an effective freedom that combined the right to self determination with the ability to achieve one s self chosen goals In tracing this history McGowan offers a clear vision of liberalism s foundational values as America s best guarantee today of liberty and the peace in which to exercise it

Dying of Whiteness Jonathan M. Metzl, 2019-03-05 A physician s provocative Boston Globe and timely Ibram X Kendi New York Times Book Review account of how right wing backlash policies have deadly consequences even for the white voters they promise to help In election after election conservative white Americans have embraced politicians who pledge to make their lives great again But as physician Jonathan M Metzl shows in *Dying of Whiteness* the policies that result actually place white Americans at ever greater risk of sickness and death Interviewing a range of everyday Americans Metzl examines how racial resentment has fueled progun laws in Missouri resistance to the Affordable Care Act in Tennessee and cuts to schools and social services in Kansas He shows these policies costs increasing deaths by gun suicide falling life expectancies and rising dropout rates Now updated with a new afterword *Dying of Whiteness* demonstrates how much white America would benefit by emphasizing cooperation rather than chasing false promises of supremacy Winner of the Robert F Kennedy Book Award

Reviewing **Whats The Matter With Kansas How Conservatives Won The Heart Of America**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is actually astonishing.
