Wild Apples And Other Natural History Essays:

Wild Apples and Other Natural History Essays Henry David Thoreau, 2010-04-15 This volume of seven essays and a late lecture by Henry David Thoreau makes available important material written both before and after *Walden*. First appearing in the 1840s through the 1860s the essays were written during a time of great change in Thoreau's environs as the Massachusetts of his childhood became increasingly urbanized and industrialized. William Rossi's introduction puts the essays in the context of Thoreau's other major works both chronologically and intellectually. Rossi also shows how these writings relate to Thoreau's life and career as both writer and naturalist, his readings of Ralph Waldo Emerson and Charles Darwin, his failed bid for commercial acceptance of his work and his pivotal encounter with the utter wildness of the Maine woods. In the essays themselves readers will see how Thoreau melded conventions of natural history writing with elements of two popular literary forms: travel writing and landscape writing to explore concerns ranging from America's westward expansion to the figural dimensions of scientific facts and phenomena. Thoreau the thinker, observer, wanderer, and inquiring naturalist all emerge in this distinctive composite picture of the economic, natural, and spiritual communities that left their marks on one of our most important early environmentalists. *The Development of the Natural History Essay in American Literature ...* Philip Marshall Hicks, 1924 *Wild Apples* Henry David Thoreau, 2016-12-05 *Wild Apples* is a fascinating and wonderfully written essay concerning the history and variations of wild apple species by American naturalist Henry David Thoreau. One of Thoreau's major essays, *Wild Apples* perfectly conveys his profound love and appreciation of nature and its many wonders. Highly recommended for lovers of nature writing and fans of Thoreau's seminal work. Contents include: The History Of The Apple tree, The Wild Apple, The Crab, How The Wild Apple Grows, The Fruit And Its Flavor, Their Beauty, The Naming Of Them, The Last Gleaning, and The Frozen thawed Apple. Henry David Thoreau 1817-1862 was an American poet, philosopher, essayist, abolitionist, naturalist, development critic, and historian. He was also a leading figure in Transcendentalism and is best known for his book *Walden*, a treatise on simple living in a natural environment. Other notable works by this author include *The Landlord* 1843, *Reform and the Reformers* 1846-48, and *Slavery in Massachusetts* 1854. Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this volume now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.

Human-Plant Entanglement and Vegetal Agency in the Poetry of Thomas Hardy and Sylvia Plath Dilek Bulut Sarikaya, 2024-03-06 Dilek Bulut Sarikaya scrutinizes human-plant entanglement in the poetry of Thomas Hardy and Sylvia Plath from the perspective of critical plant studies, which is committed to restoring the lost connection between humans and plants. The author offers a theoretical reading of Hardy and Plath's poetry, focusing specifically on how plants are depicted by these two poets as self-conscious and emotional individuals who are turned into vulnerable victims of human exploitative practices. The author develops a critical argument on the necessity of eradicating human anthropocentric mindsets.
