Will And Spirit A Contemplative Psychology:

Will and Spirit Gerald G. May, 1982 A rich book covering many areas of human experience For the person looking for an intelligent and clear presentation of the relationship between psychological and spiritual growth this is the book to read

America **Will and Spirit** Gerald Gordon May, 1987 A psychiatrist and contemplative describes the dynamics of the human mind as it comes into contact with the transcendent in prayer **Care of Mind/Care of Spirit** Gerald G.

May, 2009-03-31 Although secular psychology addressed a great deal about how we come to be the way we are and how we might live more efficiently it can offer nothing in terms of why we exist or how we should use our lives writes Gerald May in this classic discussion of the nature of contemporary spiritual guidance and its relationship to counseling and psychiatry For millions turning for answers to the world of the spirit May shows how psychiatry and spiritual direction are alike how they complement one another and how they ultimately diverge **Mind, Brain and the Elusive Soul** Mark Graves, 2016-04-22

Does science argue against the existence of the human soul Many scientists and scholars believe the whole is more than the sum of the parts This book uses information and systems theory to describe the more that does not reduce to the parts One sees this in the synapses or apparently empty gaps between the neurons in one's brain where informative relationships give rise to human mind culture and spirituality Drawing upon the disciplines of cognitive science computer science neuroscience general systems theory pragmatic philosophy and Christian theology Mark Graves reinterprets the traditional doctrine of the soul as form of the body to frame contemporary scientific study of the human soul Discovering the Art of Soul Friending

Carolyn Gratton, 2019-01-28 This friendly accessible book is about the age old hunger in human hearts to open and deepen and grow towards faithful intimacy with the Source of all that is This spiritual journey is radically personal but it is not meant to be entirely solitary It can be supported at crucial times by friendship with someone who has learned how to listen through a life of prayer for the guidance of God's Spirit in their own soul and in the soul of another Long ago in Celtic Christian Ireland such a person was called an anam cara a soul friend Every soul from time to time on its mysterious trek towards union with God needs a human friend for encouragement on the way In Discovering the Art of Soul Friending Carolyn Gratton invites us to say yes to the ability to share with another and to disclose something of oneself on each seeker's journey towards union with God Enriched by a lifetime of insights gained from educating groups around the world she guides aspiring spiritual companions to a discernment of their own level of spiritual maturity sensitivity in the art of spiritual guidance and to a seeker's desires the soil from which their truest love can spring a commitment to prayer and the transformation of consciousness it makes possible rootedness in their own faith tradition and throughout life an openness to the expanded perceptions possible in our multicultural world Carolyn completes each chapter with what she calls a Book Providence section an annotated bibliography of resources that can expand the discernment skills and contextual awareness of potential soul friends *108 Mystics* Carl McColman, 2017-01-03 This is a user friendly and potentially life changing

introduction to the wisdom teachings of 108 of the greatest mystics in the Western tradition McColman's premise is that we all need teachers and companions to assist us in developing rich interior lives It celebrates the universal power and wisdom of the teachings of the mystics highlighting the ways in which their words can help anyone find greater love purpose and a deeper sense of God's presence McColman organizes the mystics into nine categories visionaries confessors lovers poets saints heretics wisdom keepers soul friends and unitives and he covers a wide range of mystics including Martin Luther King Hildegard of Bingen Julian of Norwich Dag Hammarskjöld and C S Lewis plus Evelyn Underhill Simone Weil Thomas Merton and Bede Griffiths The Journal of Transpersonal Psychology ,1983 A Spectrum of Approaches to Spirituality in Secular Psychotherapy Beth Carlson,1997 Spiritual Direction and Midlife Development Raymond Studzinski,1985
