A NOVEL

By the author of LORD OF THE FLIES

William Golding The Inheritors

William Golding

William Golding The Inheritors:

The Inheritors William Golding, 1962 *The Inheritors* is a story of eight Neanderthals who encounter Homo sapiens for the first time. The humans view the Neanderthals as Forest Devils and are quick to kill them when they can. Eventually all the Neanderthals are killed except for two small children that are taken captive and treated like pets. *The Inheritors* William Golding, 1961 *William Golding, The Inheritors* Hilda D. Spear, 1983-01-01 **The Inheritors** William Golding, 2012-03-15 Hunt, trek and feast among Neanderthals in this stunning novel by the radical Nobel Laureate and author of *Lord of the Flies*. This was a different voice, not the voice of the people. It was the voice of other. When spring comes, the people leave their winter cave foraging for honey grubs and the hot richness of a deer's brain. They awaken the fire to heat their naked bodies, lay down their thorn bushes and share pictures in their minds. But strange things are happening: inexplicable scents and sounds. Unimaginable beasts are half glimpsed in the forest: upright creatures of bone faces and deerskins. What the people don't know is that their day is already over. Extraordinary Genius. Remarkable in the literature of the twentieth century. Ben Okri: A stunning read. Truly a masterpiece. Monique Roffey: An earthquake in the petrified forests of the English novel. Arthur Koestler: An astonishing underrated novel. Robert MacFarlane: Beautiful, powerful. A visionary dream. Shakespearean. Ted Hughes: A master fabulist and a brilliantly creative interpreter of remote history. An iconoclast. John Fowles: A tour de force. Genius. Daily Telegraph: Alarming, eye-opening, desolating, mind-invading and unique. William Golding's *The Inheritors* and *Free Fall* Terence Dewsnap, 1966 *William Golding THE INHERITORS* Cindy Leffler, Nebraska Wesleyan University, 1975 An examination of Golding's *The Inheritors* xxxx p 2 **William Golding's *The Inheritors*** Mary W. Schneider, 1965 *The Ironic Art of William Golding's *The Inheritors** E. C. Bufkin, 1968 **William Golding *The Inheritors* and Pincher Martin**, 1979 *Myth and Method in William Golding's *The Inheritors** Joel Weir Ray, 1963 **End of empire and the English novel since 1945** Rachael Gilmour, Bill Schwarz, 2015-07-01 Available in paperback for the first time, this first book-length study explores the history of postwar England during the end of empire through a reading of novels which appeared at the time, moving from George Orwell and William Golding to Penelope Lively, Alan Hollinghurst and Ian McEwan. Particular genres are also discussed, including the family saga, travel writing, detective fiction and popular romances. All included reflect on the predicament of an England which no longer lies at the centre of imperial power, arriving at a fascinating diversity of conclusions about the meaning and consequences of the end of empire and the privileged location of the novel for discussing what decolonization meant for the domestic English population of the metropole. The book is written in an easy style, unburdened by large sections of abstract reflection. It endeavours to bring alive in a new way the traditions of the English novel. **William Golding** Norman Page, 1985 **The Unconscious in Literature** Yasunori Sugimura, 2025-01-31 This book aims to investigate the unconscious in literature using Freudian and Lacanian psychology to analyse the unconscious in a range of literary works. The works of Thomas Hardy, William Golding and

Iris Murdoch are discussed in the first chapter through eight Based on the argument in these chapters this volume considers the environmental problem by examining the unconscious in the literary texts including poetry in the light of philosophers and critics on ecology There is a focus on the Oedipus complex the death drive and the unsymbolic void as they have much relevance to each other in the unconscious as to one s relationship with others primarily with the mother and underlie the plots and leitmotifs of the literary texts discussed The author carefully examines the complicated relationship between the infringement of the pleasure principle and the unsymbolic void and how they are depicted as various phases of nature

Timothy J. Inheritors William Golding,1964 **Inlets of the Soul** Pierre François,2021-11-01 The relationship of myth to literature has largely been overshadowed in contemporary theory by perspectives of a linguistic or sociological orientation and by relativist sometimes negatory stances on all searches for meaning This book attempts to show that myth criticism and critical theories of more recent provenance are not irreconcilable While taking into consideration some of the more influential tenets of structuralist post structuralist Marxist and feminist theory it applies a post Jungian archetypal approach to illustrating the perennial nature of a particular myth the Fall of Man in two main traditions Mesopotamian and Christian and in the contemporary novel in English The discussions of five major novels by William Golding Patrick White Martin Amis Salman Rushdie and Wilson Harris not only serve to expand the mythological insights achieved in the first part of the book they also suggest the incommensurability of imaginal novelistic life with mythology s age old intuitions about the human condition Myth criticism emerges from this book as an irreplaceable vantage point from which man s lapsarian predicament can be scrutinized synchronically as archaic wisdom contemporary anxiety and post colonial commitment to the building of a new human city *Language and Style in The Inheritors* David L. Hoover,1999 Language and Style in The Inheritors links the linguistic characteristics of the language of William Golding s underappreciated second novel with larger stylistic and thematic issues to achieve a satisfying and persuasive interpretation while also demonstrating the usefulness and effectiveness and some of the limitations of linguistic and computer assisted approaches without being overwhelmingly theoretical or technical This analysis uses comparative data from a corpus of more than thirty British and American novels to compare and contrast with the contents of The Inheritors It begins with a discussion of point of view style and interpretation

and moves into an examination of *The Inheritors* in regard to other works that focus on it. The author then provides a discussion of Golding's manipulation of transitivity to produce the animistic character of the novel and a statistical analysis of its readability, sentence complexity and vocabulary complexity followed by an analysis of diction. He concludes with an integration of the linguistic discoveries with important thematic issues and a consideration of altered versions of *The Inheritors*. William Golding Norman Page, **The Contemporary Novel** Irving Adelman, Rita Dworkin, 1997-10-09. In this new edition what was already an expansive work has been updated and further enlarged to include information not only on American and British novelists but also on writers in English from around the world.
