William Henry Holmes And The Rediscovery Of The American West:

William Henry Holmes and the Rediscovery of the American West Kevin J. Fernlund, 2000 William Henry Holmes is the biography of post Civil War America's most brilliant western artist Born in 1846 Holmes first came to national attention as a topographical illustrator for western survey by Ferdinand V Hayden and Clarence E Dutton The insistent incorporation of geological knowledge distinguished Holmes's illustrations of western wonders such as Yellowstone Estes Park Mesa Verde and Grand Canyon from earlier depictions and advanced scientific theory and practice BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Expeditionary Anthropology* Martin Thomas, Amanda Harris, 2018-01-29 The origins of anthropology lie in expeditionary journeys But since the rise of immersive fieldwork usually by a sole investigator the older tradition of team based social research has been largely eclipsed Expeditionary Anthropology argues that expeditions have much to tell us about anthropologists and the people they studied The book charts the diversity of anthropological expeditions and analyzes the often passionate arguments they provoked Drawing on recent developments in gender studies indigenous studies and the history of science the book argues that even today the science of man is deeply inscribed by its connections with expeditionary travel [The San Diego World's Fairs and Southwestern Memory, 1880-1940](#) Matthew F. Bokovoy, 2005-11-01 In the American Southwest no two events shaped modern Spanish heritage more profoundly than the San Diego Expositions of 1915 16 and 1935 36 Both San Diego fairs displayed a portrait of the Southwest and its peoples for the American public The Panama California Exposition of 1915 16 celebrated Southwestern pluralism and gave rise to future promotional events including the Long Beach Pacific Southwest Exposition of 1928 the Santa Fe Fiesta of the 1920s and John Steven McGroarty's The Mission Play The California Pacific International Exposition of 1935 36 promoted the Pacific Slope and the consumer oriented society in the making during the 1930s These San Diego fairs distributed national images of southern California and the Southwest unsurpassed in the early twentieth century By examining architecture and landscape American Indian shows civic pageants tourist imagery and the production of history for celebration and exhibition at each fair Matthew Bokovoy peels back the rhetoric of romance and reveals the legacies of the San Diego World's Fairs to reimagine the Indian and Hispanic Southwest In tracing how the two fairs reflected civic conflict over an invented San Diego culture Bokovoy explains the emergence of a myth in which the city embraced and incorporated native peoples Hispanics and Anglo settlers to benefit its modern development *The Books of the Grand Canyon, the Colorado River, the Green River & the Colorado Plateau* Mike S. Ford, 2003 A Bibliography covering one half century of Southwest literature a sequel to Farquhar's The Books of the Colorado River the Grand Canyon **Mapping the Four Corners** Robert S. McPherson, Susan Rhoades Neel, 2016-08-04 In 1875 a team of cartographers geologists and scientists under the direction of Ferdinand V Hayden entered the Four Corners area for what they thought would be a calm summer's work completing a previous survey Their accomplishments would go down in history as one of the great American surveying

expeditions of the nineteenth century By skillfully weaving the surveyors diary entries field notes and correspondence with newspaper accounts historians Robert S McPherson and Susan Rhoades Neel bring the Hayden Survey to life Mapping the Four Corners provides an entertaining engaging narrative of the team s experiences contextualized with a thoughtful introduction and conclusion Accompanied by the great photographer William Henry Jackson Hayden s team quickly found their trip to be more challenging than expected The travelers describe wrangling half wild pack mules trying to sleep in rain soaked blankets and making tea from muddy alkaline water Along the way they encountered diverse peoples evidence of prehistoric civilizations and spectacular scenery Hispanic villages in Colorado and New Mexico Mesa Verde Hovenweep and other Anasazi sites and the Hopi mesas Not everyone they met was glad to see them in southeastern Utah surveyors fought and escaped a band of Utes and Paiutes who recognized that the survey meant dispossession from their homeland Hayden saw his expedition as a scientific endeavor focused on geology geographic description cartographic accuracy and even ethnography but the search for economic potential was a significant underlying motive As this book shows these pragmatic scientists were on the lookout for gold beneath every rock grazing lands in every valley and economic opportunity around each bend in the trail The Hayden Survey ultimately shaped the American imagination in contradictory ways solidifying the idea of progress and government funding of its pursuit while also revealing via Jackson s photographs a landscape with a beauty hitherto unknown and unimagined
