Traditional Palestinian Embroidery and Jewelry 'Abd al-Samih Abu 'Umar, 2005 **Traditional Palestinian Embroidery and Jewelry** 'Abd al-Samih Abu 'Umar, 2005 Embroidering Identities Iman Saca, Maha Saca, 2006

Companion piece to the exhibit held at the Oriental Institute from November 11 2006 to March 25 2007 It is an overview of the colourful and distinctive clothing of late nineteenth and early twentieth century Palestine The volume includes a glossary of Arabic terms and a checklist to the exhibit Asian Costumes and Textiles from the Bosphorus to Fujiyama Valérie Bérinstain, 2001 Illustrates a wealth of textiles and costumes never seen before and covering all the Asian continent from Turkestan to Japan from India to Indonesia belonging to the Belgian Mis collection one of the world's major private collections

The Presentation of the National-self Tim Jon Semmerling, 2000 This dissertation borrows from Erving Goffman's dramaturgical theories to explain the recent visual images being made in Israel and the Palestinian Territories by both Israelis and Palestinians With a focus on postcards and greeting cards predominantly found among the tourist market place in late 1998 and early 1999 I argue that these types of tourist bric a brac should not be too readily dismissed Rather these postcards and greeting cards are practices and performances of national identity display and political claims used to buttress present ideologies to affect knowledge to build national awareness and to gain international acceptance Many written works have looked at the images of the area made by Europeans prior to 1948 however this work looks at what images have been made recently and are currently being made today by Israelis and Palestinians about themselves their homelands their cultures and their nations This work identifies the symbolic choices in these postcards how the symbolic choices are arranged into messages what the symbolic messages convey to whom the symbolic messages are directed and who benefits and who loses in these presentations of the national selves Each chapter discusses the works of particular postcard greeting card manufacturers artists and or photographers and over one hundred postcards greeting cards are analyzed Not only do I warn that these seemingly banal and ubiquitous objects are really intended to develop knowledge about Israelis and Palestinians in order to make national gains but I point out that they are evidence that semiotic struggle is another facet of the Israeli Palestinian dispute *Ethnomathematics of Negev Bedouins' Existence in Forms, Symbols and Geometric Patterns* Ada Katsap, Fredrick L. Silverman, 2015-12-17 Ethnomathematics of Negev Bedouins Existence in Forms Symbols and Geometric Patterns provokes a journey into the world of Negev Bedouins and attests to the beauty and sophistication of mathematics that occurs naturally in their craftwork structures games and throughout Bedouin life The major focus is Bedouin women's traditional craftwork by which they reflect social and cultural activities in their weaving embroidery and similar pursuits Their creations reveal mathematical ideas incorporated in embroidery compositions in repeated patterns of flowers and geometric figures in varying scales The women use ground staked looms stabilized by block stones to make multi color repeating pattern strip rugs in a process practiced for generations An image of this appears in the

book s cover photo collage Bedouin men construct dwellings tents desert wells and such They and their children play games attuned to sand and other specific desert conditions These activities of Bedouin women men and children require mathematical thinking and strategic reasoning to achieve desired outcomes The book opens with a narrative of Bedouin history followed by a brief overview of ethnomathematics and concludes with discussion about bridging the gap between school mathematics experiences and those outside school It considers mathematically problematic situations embedded in Bedouin sociocultural heritage likely to appeal to teachers for use with school students The book is intended for a diverse audience from Bedouin communities in different countries to the general public and professionals including ethnomathematicians and mathematics educators Numerous photographs document the examples of Bedouin ethnomathematics They are the subject of considerable analysis and appear throughout the book
