Tragedy in Athens David Wiles, 1999-08-19 This book examines the performance of Greek tragedy in the classical Athenian theatre David Wiles explores the performance of tragedy as a spatial practice specific to Athenian culture at once religious and political After reviewing controversies and archaeological data regarding the fifth century performance space Wiles turns to the chorus and shows how dance mapped out the space for the purposes of any given play The book shows how performance as a whole was organised and through informative diagrams and accessible analyses Wiles brings the theatre of Greek tragedy to life The Facts on File Companion to Classical Drama John E. Thorburn, 2005 Surveys important Greek and Roman authors plays characters genres historical figures and more *Athenian Tragedy in Performance* Melinda Powers, 2014-05-01 Foregrounding critical questions about the tension between the study of drama as literature versus the study of performance Melinda Powers investigates the methodological problems that arise in some of the latest research on ancient Greek theatre She examines key issues and debates about the fifth century theatrical space audience chorus performance style costuming properties gesture and mask but instead of presenting a new argument on these topics Powers aims to understand her subject better by exploring the shared historical problems that all scholars confront as they interpret and explain Athenian tragedy A case study of Euripides's *Bacchae* which provides more information about performance than any other extant tragedy demonstrates possible methods for reconstructing the play's historical performance and also the inevitable challenges inherent in that task from the limited sources and the difficulty of interpreting visual material to the risks of conflating actor with character and extrapolating backward from contemporary theatrical experience As an inquiry into the study of theatre and performance an introduction to historical writing a reference for further reading and a clarification of several general misconceptions about Athenian tragedy and its performance this historiographical analysis will be useful to specialists practitioners and students alike *Close Relations* Paul Monaghan, 2020-05-15 The spatial turn of the 1990s has inspired many academics to re evaluate the importance of space and time within their own disciplines and to engage in productive dialogue with other disciplines whose spatial focus intersects with their own This book applies insights and approaches generated by the spatial turn to Greek and Roman theatre The title evokes the close relations that exist between the many aspects and notions of space time and their complex interweaving between the disciplinary and interdisciplinary approaches that are needed to understand complex spatial phenomena between notions of space in general and those of theatrical space and between Greek and Roman theatre as it existed in antiquity and as it has been received interpreted and transformed throughout history ever since The Athenian Institution of the Khoregia Peter Wilson, 2003-09-18 The first major study of a central cultural institution of classical Athens

position to take a deep breath and look at Menander and New Comedy both Greek and Roman in wider contexts of interpretation and with fresh perspectives drawn from innovative work both in Classical and more modern studies This book aims to showcase these new approaches to postclassical comedy The individual contributions six in total approach New Comedy as theatrical performance but also as a dynamic player in the socio political discourses of the polis culture that gave birth to it The chapters highlight continuities as well as discontinuities with the cultural and literary past of Athens and the Greek world but mostly emphasise the progressiveness of New Comedy as a genre and its importance for the nascent culture of Hellenism and Rome thereafter Blume TM s introductory chapter tells the story of Menander TM s re emergence from the tenebrae in full detail The other five chapters are dual in nature expositional of a method but also practical examples of it They are arranged in a fashion which underlines the major theoretical underpinnings of New Comedy studies as they are being developed in the present Cultural Studies David Konstan and Susan Lape Intertextuality and Performance Antonis K Petrides and Rosanna Omitowaju and Reception in Rome Sophia Papaioannou **Clio**, 2007 **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences**, 1999 **Tragic Manhood and Democracy** David A.
