Underground Front The Chinese Communist Party In Hong Kong:

Underground Front Christine Loh, 2018-11-01 *Underground Front* is a pioneering examination of the role that the Chinese Communist Party has played in Hong Kong since the creation of the party in 1921 through to the present day. The second edition goes into greater depth on the party's view on one country two systems, patriotism and elections. The introduction has been extensively revised and the concluding chapter has been completely rewritten in order to give a thorough account of the post 1997 governance and political system in Hong Kong and where challenges lie. Christine Loh endeavours to keep the data and the materials up to date and to include the discussion of some recent events in Hong Kong. The appendices on the key targets of the party's united front activities also make the book an especially useful read for all who are interested in Hong Kong history and politics and the history of modern China. Although the author calls herself an outsider, this book provides such a distinctly incisive analysis that even an insider will pale by comparison. Christine Loh's exposition of the Communist Party's co-optation and persuasion is particularly revealing for anyone not versed in communist speak. A must read for anyone who cares for Hong Kong simply because the Communist Party in Hong Kong is a heavyweight player in shaping our future. Ching Cheong: Authoritative, thoroughly researched and lucidly written. Christine Loh's work must be read by everyone who wants to make sense of the Chinese Communist Party's agenda in Hong Kong. This book is remarkable for its fair-mindedness in evaluating the party's record. She provides an absorbing account of its leaders' hard-headed pragmatism in tolerating this outpost of colonialism and capitalism during the Cold War and the Cultural Revolution. Her analysis of the party's involvement in contemporary Hong Kong is an impressive contribution to our understanding of Beijing's expanding involvement in Hong Kong affairs. The author has achieved a notable breakthrough with this fascinating study of a political organisation whose role and influence in Hong Kong have hitherto been shrouded in secrecy. Leo Goodstadt.

The Chinese Communist Party Jérôme Doyon, Chloé Froissart, 2024-01-25 This volume brings together an international team of prominent scholars from a range of disciplines with the aim of investigating the many facets of the Chinese Communist Party's 100-year trajectory. It combines a level of historical depth mostly found in single-authored monographs with the thematic and disciplinary breadth of an edited volume. This work stands out for its long-term and multiscale approach, offering complex and nuanced insights, eschewing any Party grand narrative and unravelling underlying trends and logics composed of adaption but also contradictions, resistance and sometimes setbacks that may be overlooked when focusing on the short term. Rather than putting forward an overall argument about the nature of the Party, the many perspectives presented in this volume highlight the complex internal dynamics of the Party, the diversity of its roles in relation to the state as well as in its interaction with society beyond the state. Our historical approach stresses impermanence beyond the apparent permanence of the Party's organisation and ideology while also bringing to light the recycling of past practices and strategies. Looking at the Party's evolution over time shows how its founding structures and objectives have

had a long lasting impact as well as how they have been tweaked and rearranged to adapt to the new economic and social environment the Party contributed to creating **Chinese Communists and Hong Kong Capitalists: 1937-1997 C.** Chu,2010-10-25 This book examines Chinese Communist activities in Hong Kong from the outbreak of the Sino Japanese War in 1937 to the handover in 1997 It reveals a peculiar part of Chinese Communist history and traces six decades of astounding united front between the Chinese Communists and the Hong Kong tycoons and upper class business elite *The Inner Court of Communist China* Wen-Hsuan Tsai,2025-10-01 This book discusses the mishu staff member secretary system and the operation of the Chinese Communist Party between 1921 and 2022 focusing on the system s impact on high level politics and decision making during four key periods Starting with the Revolutionary War 1921 1945 it moves to the founding of the People s Republic of China and the beginning of the Cultural Revolution 1950 1966 the period of the Cultural Revolution 1966 1976 and finally the period of reform and opening up bringing the history to the present day 1976 2022 This is the first systematic analysis of the mishu system offering new insights on the history of the CCP and modern China Parliaments in Asia Zheng Yongnian,Lye Liang Fook,Wilhelm Hofmeister,2013-10-23 Much writing on politics in Asia revolves around the themes of democracy and democratisation with a particular focus on political systems and political parties This book on the other hand examines the role that parliaments a key institution of democracy play in East Southeast and South Asia including Taiwan and Hong Kong Parliaments in these locations function in a variety of historical political and socio economic circumstances with different implications for institution building and political development This book examines questions like how accessible representative transparent accountable and effective are parliaments To what extent are parliaments able to hold other political actors to account or how far are they constrained by the political environment in which they operate Going further this book considers how new media such as the Internet and other social platforms through providing avenues for individuals to articulate their views separate from official channels are influencing the ways parliaments work To stay relevant parliamentarians need to reach out and engage these individuals in formulating deciding and fine tuning policies In the information age being a parliamentarian has become more challenging and how a parliamentarian copes with this change will shape the nature and pace of political development **Chinese Theatre Troupes in Southeast Asia** Beiyu Zhang,2021-05-27 A detailed account of the cultural history of the Chinese diaspora with a focus on the performers and audiences who were involved in the making of Chinese performing cultures in Southeast Asia Focusing on five different kinds of theatre troupes from China and their respective travels in Singapore Bangkok Malaya and Hong Kong Zhang examines their different travelling experiences and divergent cultural practices She thus sheds light on how transnational mobility was embodied practised and circumscribed in the course of troupes travelling sojourning and interacting with diasporic communities These troupes communicated diverse discourses and ideologies influenced by different social political movements in China and these meanings were further altered by transmission By unpacking multiple ways of performing
