Well Always Have Paris American Tourists In France Since 1930:

We'll Always Have Paris Harvey Levenstein, 2010-03-15 For much of the twentieth century Americans had a love hate relationship with France While many admired its beauty culture refinement and famed joie de vivre others thought of it as a dilapidated country populated by foul smelling mean spirited anti Americans driven by a keen desire to part tourists from their money We ll Always Have Paris explores how both images came to flourish in the United States often in the minds of the same people Harvey Levenstein takes us back to the 1930s when despite the Great Depression France continued to be the stomping ground of the social elite of the eastern seaboard After World War II wealthy and famous Americans returned to the country in droves helping to revive its old image as a wellspring of sophisticated and sybaritic pleasures At the same time though thanks in large part to Communist and Gaullist campaigns against U S power a growing sensitivity to French anti Americanism began to color tourists experiences there strengthening the negative images of the French that were already embedded in American culture But as the century drew on the traditional positive images were revived as many Americans again developed an appreciation for France s cuisine art and urban and rustic charms Levenstein in his colorful anecdotal style digs into personal correspondence journalism and popular culture to shape a story of one nation s relationship to another giving vivid play to Americans changing response to such things as France s reputation for sexual freedom haute cuisine high fashion and racial tolerance He puts this tumultuous coupling of France and the United States in historical perspective arguing that while some in Congress say we may no longer have french fries others like Humphrey Bogart in Casablanca know they will always have Paris and France to enjoy and remember

Setting the Table for Julia Child

David Strauss, 2020-03-03 Before Julia Child s warbling voice and towering figure burst into America s homes a gourmet food movement was already sweeping the nation Setting the Table for Julia Child considers how the tastes and techniques cultivated at dining clubs and in the pages of Gourmet magazine helped prepare many affluent Americans for Child s lessons in French cooking David Strauss argues that Americans appetite for haute cuisine had been growing ever since the repeal of Prohibition Dazzled by visions of the good life presented in luxury lifestyle magazines and by the practices of the upper class who adopted European taste and fashion upper middle class Americans increasingly populated the gourmet movement In the process they came to appreciate the cuisine created by France s greatest chef Auguste Escoffier Strauss s impressive archival research illuminates themes gender class consumerism and national identity that influenced the course of gourmet dining in America He also points out how the work of painters and fine printers reproduced here called attention to the aesthetic of dining a vision that heightened one s anticipation of a gratifying experience In the midst of this burgeoning gourmet food movement Child found her niche The movement may have introduced affluent Americans to the pleasure of French cuisine years before Julia Child but it was Julia s lessons that expanded the audience for gourmet dining and turned lovers of French cuisine into cooks

Touring Beyond the Nation Eric G. E. Zuelow, 2011 From the Grand Tour to nudist

beaches this volume investigates the rise of modern tourism in Europe and highlights the many connections between European countries in their approach to and development of a transnational tourist industry This is an essential addition to the library of those studying the history of tourism popular culture and leisure in Europe and will also provide interest to scholars of transnational topics including Europeanization and globalization Travel and Identity: Studies in Literature, Culture and Language Jakub Lipski, 2018-02-19 This book presents a selection of research papers dealing with the notions of travel and identity in Anglophone literature and culture Collectively the chapters ponder such notions as self and other race centre and periphery thus shedding new light on a number of issues that are highly relevant in the context of the ongoing migration crisis The contributors employ a diverse range of theoretical standpoints from close reading to deconstruction from historically informed approaches to linguistic analysis and thus offer a nuanced panorama of these issues especially from the nineteenth century onwards *What's France got to do with it?* Juliana de Nooy, 2020-07-30 While only one book length memoir recounting the sojourn of an Australian in France was published in the 1990s well over 40 have been published since 2000 overwhelmingly written by women Although we might expect a focus on travel intercultural adjustment and communication in these texts this is the case only in a minority of accounts More frequently France serves as a backdrop to a project of self renovation in which transplantation to another country is incidental hence the question What s France got to do with it The book delves into what France represents in the various narratives its role in the self transformation and the reasons for the seemingly insatiable demand among readers and publishers for these stories It asks why these memoirs have gained such traction among Australian women at the dawn of the twenty first century and what is at stake in the fascination with France *Charm Offensive* Kelly Ricciardi Colvin, 2023-03-30 In the aftermath of the Second World War the French government cultivated images of sensual and sophisticated white French women in an attempt to reestablish its global image as a great nation They promoted the beauty sexual appeal and general allure of French women all while shrinking the boundaries of what was considered beautiful Charm Offensive explores how this elevation of French femininity created problems on both sides of the equation the pressure on French women to conform to an exacting physical standard was immense while the inability of anyone else to access that standard resulted in a sense of failure Drawing on cultural figures like Air France hostesses tourism workers and celebrities such as Brigitte Bardot Charm Offensive offers an innovative understanding of a tumultuous time of decolonization Book Review Index , 2006 Every 3rd issue is a quarterly cumulation **The New York Times Index** , 2005 **The British National Bibliography** Arthur James Wells, 2005 **Library Journal** , 2004 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately *France as seen by the United States* Frédéric Monneyron, 2006 Politologues historiens sociologues philosophes et conomistes ont interrog lors d un colloque tenu Montpellier et Perpignan en octobre 2005 la nature des relations historiques franco am ricaines ainsi que les repr sentations
