What Is Art Conversations With Joseph Beuys:

What is Art? Joseph Beuys, Volker Harlan, 2012-12-10 Joseph Beuys's work continues to influence and inspire practitioners and thinkers all over the world in areas from organizational learning direct democracy and new money forms to new art pedagogies and ecological art practices Here in dialogue with Volker Harlan a close colleague whose own work also revolves around understandings of substance and sacrament that are central to Beuys the deeper motivations and insights underlying social sculpture Beuys's expanded conception of art are illuminated His profound reflections complemented with insightful essays by Volker Harlan give a sense of the interconnectedness between all life forms and the foundations of a path towards an ecologically sustainable future This volume features over 40 b w illustrations **Contemporary Visual Poetry**

Fiona Becket, 2025-09-15 This book examines contemporary visual poetry and how conceptual writing poem objects and computational texts shape a posthumanist understanding that is situated First the eye is theorised with respect to ethical understanding When visual poets reclaim vision visual poetics becomes a feminist praxis In Paula Claire and Maggie O Sullivan visual poetry becomes an ecological practice concerned with connectivity in the entanglements of natureculture In O Sullivan Campanello Bergvall and Philip spatial and temporal sense de formation sustains radical forms of voicing and eyewitness Finally works by Mez Breeze and Stephanie Strickland expand our understanding of visual poetry in digital electronic virtual reality and artificial intelligence contexts in which technology and affect are intimately connected These visual texts open up Braidotti's question with respect to how we are to visualize the subject as a transversal entity encompassing the human our genetic neighbours the animals and the earth as a whole and to do so within an understandable language **Christoph Schlingensief**

Anna Teresa Scheer, 2018-02-22 The first book to focus specifically on the late German artist Christoph Schlingensief's theatre work it subversively merges art politics and everyday life to imbue his productions both inside and outside the theatre with a re energized concept of the political in art Scheer traces Schlingensief's artistic lineage as a filmmaker with no formal training in theatre whose work does not correspond to theoretical frameworks such as postdramatic theatre Regietheater or established categories of political theatre such as Brechtian community and agit prop theatre She explores how his work instead draws upon the highly performative gestures of the historical and post Cold War avant gardes as well the happenings and event based practices of the sixties Comprehensive case studies of six diverse theatrical and activist events are offered to demonstrate both the immediacy of Schlingensief's response to contemporary social and political events and his use of a range of artistic influences and different genres Rocky Dutschke 68 1996 Save Capitalism Throw the Money Away 1999 The Berlin Republic or the Ring in Africa 1999 Hamlet 2001 Atta Atta Art Has Broken Out 2003 and the Church of Fear 2003 Key questions such as how his theatre functions as a provocation and how an artist can insert themselves into the powerful flows of imagery produced by the perpetual global news cycle form a coherent line of enquiry throughout each of the chapters The significance of Schlingensief's artistic legacy

of politicized theatre making that pioneers new modes of active aesthetic and public engagement in the political realm remains pertinent to topical socio political debates and is of relevance to an international audience across a diversity of disciplines Using the Visual and Performing Arts to Encourage Pro-Environmental Behaviour David Curtis,2020-10-06 Ecoarts practice is evolving quickly as a practice While much of it is made by individual artists working alone artists are increasingly combining into multi artist collectives and collaborating with scientists sustainability professionals industry or the community to develop artworks with quite far reaching effects This book describes an extraordinary range of artistic practices pitched to encourage people to adopt pro environmental behaviours by provoking persuading providing information creating empathy for nature or by being built into sustainability practices themselves It brings together 28 contributors who examine different roles of the arts in encouraging pro environmental behaviour There is a wide range of practitioners represented here including visual and performing artists sustainability professionals social researchers environmental educators research students and academics The contributors to this book are united in believing that the arts are vital in promoting pro environmental behavior in the way that they are practiced but also in the connections they make to ecology science and Indigenous culture **Realism as Protest** Tara Forrest,2015-07-15 Realism as Protest draws on the realistic method developed by Alexander Kluge to counter the limited image of reality generated by the mainstream media Focusing on innovative productions produced by Kluge Schlingensiefel and Haneke this groundbreaking study explores how the experimental form of their work in film television and theatre facilitates thinking discussion and debate about the possibilities for cultural and political change **Fat** Christopher E. Forth,Alison Leitch,2014-04-10 Fat In contemporary society the word never fails to elicit powerful emotions especially as it relates to bodily health and appearance But fat is a noun as well as an adjective and has a cultural life outside of its relationship with the human body By focusing on the complex physical and experiential dimensions of this problematic substance Fat Culture and Materiality breaks new ground in the study of the relationship between culture and the material world With contributions from well respected international scholars this innovative and interdisciplinary collection will appeal to a wide range of readers interested in fat and its relationship to culture materiality and lived experience The volume addresses the role of fats in a variety of cultural settings Topics include the politics of Palestinian olive oil the allure of pig fat in heritage pork the material sources of fat stereotypes in classical and biblical texts the use of harvested fat in aesthetic surgery and the status of fat in the self narratives of anorexics **Natural Materials of the Holy Land and the Visual Translation of Place, 500-1500** Renana Bartal,Neta Bodner,Bianca Kuhnel,2017-04-21 Natural Materials of the Holy Land and the Visual Translation of Place 500 1500 focuses on the unique ways that natural materials carry the spirit of place Since early Christianity wood earth water and stone were taken from loca sancta to signify them elsewhere Academic discourse has indiscriminately grouped material tokens from holy places and their containers with architectural and topographical emulations two dimensional images and bodily relics

However unlike textual or visual representations natural materials do not describe or interpret the Holy Land they are part of it Tangible and timeless they realize the meaning of their place of origin in new locations What makes earth stones or bottled water transported from holy sites sacred How do they become pars pro toto signifying the whole from which they were taken This book will examine natural media used for translating loca sancta the processes of their sanctification and how although inherently abstract they become charged with meaning It will address their metamorphosis natural or induced how they change the environment to which they are transported their capacity to translate a static and distant site elsewhere the effect of their relocation on users viewers and how their containers and staging are used to communicate their substance
