number of basic stories in the world Using a wealth of examples from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today it shows that there are seven archetypal themes which recur throughout every kind of storytelling But this is only the prelude to an investigation into how and why we are programmed to imagine stories in these ways and how they relate to the inmost patterns of human psychology Drawing on a vast array of examples from Proust to detective stories from the Marquis de Sade to E T Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years and why so many stories have lost the plot by losing touch with their underlying archetypal purpose BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Understanding Basic Economics* Leno Ceno Michelin, Reuben E.
