White Lotus Teachings In Chinese Religious History:

The White Lotus Teachings in Chinese Religious History B. J. ter Haar, 1992 It is argued that the name White Lotus Teachings was used by officials and literati as a derogatory label since 1525 until the late Qing The label originated in the autonym of a popular lay Buddhist movement from the Southern Song and Yuan that enjoyed general respect at the time among all layers of society *The White Lotus Teachings in Chinese Religious History* Barend ter Haar, 2021-09-13 This book provides a new hypothesis for understanding the real nature of the term White Lotus Teachings The author argues that there are actually two different phenomena covered by similar terms from c 1130 until 1400 a real lay Buddhist movement existed which can be called the White Lotus movement It enjoyed the respect of contemporary literati and religious elites The movement used the autonym White Lotus Society which came to be prohibited in the early Ming and was discarded as a result After 1525 the name reappeared in the form White Lotus Teachings but now only as a derogatory label used by officials and literati rather than by believers themselves As a result of this hypothesis the history of the White Lotus Teachings changes from one of religious groups and magicians into one of elite ideology and religious persecution The book is therefore important both for historians and anthropologists of Chinese religion and society and for comparative historians interested in the ideological and social construction of heterodoxy *Encyclopedia of Chinese History* Michael Dillon, 2016-12-01 China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture society and economy and increasing coverage of contemporary China in the media Our understanding of China's history has also been evolving The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians Now that the Chinese archives are open to researchers there is a growing body of academic expertise on history in China that is open to western analysis and historical methods This has in many ways changed the way that Chinese history particularly the modern period is viewed The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the present day Treating Chinese history in the broadest sense the Encyclopedia includes coverage of the frontier regions of Manchuria Mongolia Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan and on the Chinese diaspora In A Z format with entries written by experts in the field of Chinese Studies the Encyclopedia will be an invaluable resource for students of Chinese history politics and culture **Zhipan's Account of the History of Buddhism in China** Thomas Jülch, 2023-09-14 The Fozu tongji by Zhipan ca 1220 1275 is a key text of Chinese Buddhist historiography The core of the work is formed by the Fayun tongsai zhi an annalistic history of Buddhism in China which extends through Fozu tongji juan 34 48 Thomas J lch now presents a translation of the Fayun tongsai zhi in three volumes This third volume

covers the annalistic display concerning the Song dynasty Offering elaborate annotations J Ich succeeds in clarifying the backgrounds to the historiographic contents which Zhipan presents in highly essentialized style Regarding the historical matters addressed in the material translated for the present volume the Fozu tongji is often the earliest source In several cases inaccuracies in Zhipan s account can however still be discerned and J Ich succeeds in employing other sources to reveal and correct those errors

Buddhism, Diplomacy, and Trade Tansen Sen, 2015-09-11 Relations between China and India underwent a dramatic transformation from Buddhist dominated to commerce centered exchanges in the seventh to fifteenth centuries The unfolding of this transformation its causes and wider ramifications are examined in this masterful analysis of the changing patterns of the interaction between the two most important cultural spheres in Asia Tansen Sen offers a new perspective on Sino Indian relations during the Tang dynasty 618 907 arguing that the period is notable not only for religious and diplomatic exchanges but also for the process through which China emerged as a center of Buddhist learning practice and pilgrimage Before the seventh century the Chinese clergy given the spatial gap between the sacred Buddhist world of India and the peripheral China suffered from a borderland complex A close look at the evolving practice of relic veneration in China at Famen Monastery in particular the exposition of Mount Wutai as an abode of the bodhisattva Ma jusri and the propagation of the idea of Maitreya s descent in China however reveals that by the eighth century China had overcome its complex and successfully established a Buddhist realm within its borders The emergence of China as a center of Buddhism had profound implications on religious interactions between the two countries and is cited by Sen as one of the main causes for the weakening of China s spiritual attraction toward India At the same time the growth of indigenous Chinese Buddhist schools and teachings retrenched the need for doctrinal input from India A detailed examination of the failure of Buddhist translations produced during the Song dynasty 960 1279 demonstrates that these developments were responsible for the unraveling of religious bonds between the two countries and the termination of the Buddhist phase of Sino Indian relations Sen proposes that changes in religious interactions were paralleled by changes in commercial exchanges For most of the first millennium trading activities between India and China were closely connected with and sustained through the transmission of Buddhist doctrines The eleventh and twelfth centuries however witnessed dramatic changes in the patterns and structure of mercantile activity between the two countries Secular bulk and luxury goods replaced Buddhist ritual items maritime channels replaced the overland Silk Road as the most profitable conduits of commercial exchange and many of the merchants involved were followers of Islam rather than Buddhism Moreover policies to encourage foreign trade instituted by the Chinese government and the Indian kingdoms contributed to the intensification of commercial activity between the two countries and transformed the China India trading circuit into a key segment of cross continental commerce

The Song-Yuan-Ming Transition in Chinese History Paul Jakov Smith, Richard von Glahn, 2020-03-23 This volume seeks to study the connections between two well studied epochs in Chinese history the mid

imperial era of the Tang and Song ca 800 1270 and the late imperial era of the late Ming and Qing 1550 1900 Both eras are seen as periods of explosive change particularly in economic activity characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture The task of establishing links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty 1271 1368 This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs This book aims to restore continuity to that historical narrative by filling the gap between mid imperial and late imperial China The contributors argue that the Song Yuan Ming transition early twelfth through the late fifteenth century constitutes a distinct historical period of transition and not one of interruption and devolution They trace this transition by investigating such subjects as contemporary impressions of the period the role of the Mongols in intellectual life the economy of Jiangnan urban growth neo Confucianism and local society commercial publishing comic drama and medical learning

Stumbling Giant Timothy Beardson, 2013-05-21 A thoughtful reconsideration of China's actual place in the new world order based on reality rather than fanciful speculation Kirkus Reviews Can anything prevent China surpassing the United States and becoming the world's top superpower While predictions that China's rise to global supremacy is a near certainty have resulted in this belief becoming almost conventional wisdom this book boldly counters such widely held assumptions Investment strategist Timothy Beardson brings to light the daunting array of challenges that today confront China as well as the inadequacy of the policy responses Threats to China come on many fronts Beardson shows and by their number and sheer weight these problems will thwart any ambition to become the world's Number One power Drawing on extensive research and experience living and working in Asia over the last 35 years the author spells out China's situation an

inexorable demographic future of a shrinking labor force relentless aging extreme gender disparity and even a falling population Also the nation faces social instability a devastated environment a predominantly low tech economy with inadequate innovation the absence of an effective welfare safety net an ossified governance structure and radical Islam lurking at the borders Beardson s nuanced firsthand look at China acknowledges its historic achievements while tempering predictions of its imminent hegemony with a no nonsense dose of reality

The Cultural Practices of Modern Chinese Buddhism Francesca Tarocco,2007 Buddhism in China during the late Qing and Republican period remained a powerful cultural and religious force Francesca Tarocco is a rising star in this field and offers an innovative high quality piece of work that presents a new perspective on the influence of Buddhism on Chinese culture Drawing on scarcely analyzed historical and archive sources including photographs and musical scores Tarocco adeptly argues that Chinese Buddhism played a more vital role in shaping Chinese culture than previously assumed This enlightening study fills a significant gap in the field of Chinese Buddhist history Focusing on the cultural side of Buddhism it adds breadth and balance to studies in Buddhism as a whole appealing to professionals and academics with an interest in Buddhism and Chinese Buddhist history

of ideas on the subject of modern Chinese literature and culture of the past several years The essays represent a wide spectrum of new approaches and new areas of subject matter that are changing the landscape of knowledge of modern and contemporary Chinese culture women s literature theatre performance film graphic arts popular literature as well as literature of the Chinese diaspora These phenomena and the approaches to them manifest interconnected trajectories for new scholarship in the field the rewriting of literary history the emergence of visual culture and the quotidian apocalypse the displacement of revolutionary romanticism and realism as central paradigms for cultural expression by the perspective of private everyday experience **Powerful Arguments** ,2020-03-02 The essays in Powerful Arguments reconstruct the

standards of validity underlying argumentative practices in a wide array of late imperial Chinese discourses from the Song through the Qing dynasties The fourteen case studies analyze concrete arguments defended or contested in areas ranging from historiography philosophy law and religion to natural studies literature and the civil examination system By examining uses of evidence habits of inference and the criteria by which some arguments were judged to be more persuasive than others the contributions recreate distinct cultures of reasoning Together they lay the foundations for a history of argumentative practice in one of the richest scholarly traditions outside of Europe and add a chapter to the as yet elusive global history of rationality *Practicing Scripture* Barend ter Haar,2014-11-30 Practicing Scripture is an original and detailed history of one of the most successful religious movements of late imperial China the Non Action Teachings or

Wuweijiao from its beginnings in the late sixteenth century in the prefectures of southern Zhejiang to the middle of the twentieth century when communist repression dealt it a crippling blow Uncovering important data on its beliefs and practices Barend ter Haar paints a wholly new picture of the group which despite its Daoist sounding name was a deeply devout lay Buddhist movement whose adherents rejected the worship of statues and ancestors while venerating the writings of Patriarch Luo fl early sixteenth century a soldier turned lay Buddhist The texts written in vernacular Chinese and known as the Five Books in Six Volumes mix personal experiences religious views and a wealth of quotations from the Buddhist canon Ter Haar convincingly demonstrates that the Non Action Teachings was not messianic or millenarian in orientation

and had nothing to do with other new religious groups and networks traditionally labelled as White Lotus Teachings It combined Chan and Pure Land practices with a strong self identity and vegetarianism and actively insisted on the right of free practice Members of the movement created a foundation myth in which Ming 1368 1644 emperor Zhengde bestowed the right upon their mythical forefather In addition they produced an imperial proclamation whereby Emperor Kangxi of the Qing 1645 1911 granted the group similar privileges Thanks to its expert handling of a great number and variety of extant sources Practicing Scripture depicts one of the few lay movements in traditional China that can be understood in some depth both in terms of its religious content and history and its social environment The work will be welcomed by China specialists in religious and Buddhist studies and social history

Christian Heretics in Late Imperial China Lars Peter Laamann,2013-05-13 Following the prohibition of missionary activity after 1724 China s Christians were effectively cut off from all foreign theological guidance The ensuing isolation forced China s Christian communities to become self reliant in perpetuating the basic principles of their faith Left to their own devices the missionary seed developed into a panoply of indigenous traditions with Christian ancestry as the common denominator Christianity thus underwent the same process of inculturation as previous religious traditions in China such as Buddhism and Judaism As the guardian of orthodox morality the prosecuting state sought to exercise all pervading control over popular thoughts and social functions Filling the gap within the discourse of Christianity in China and also as part of the wider analysis of religion in late Imperial China this study presents the campaigns against Christians during this period as part and parcel of the campaign against heresy and heretical movements in general
