Who Gets Ptsd Issues Of Posttraumatic Stress Vulnerability:

Who Gets PTSD? John M. Violanti, Douglas Paton, 2006 This book discusses how to determine vulnerability to posttraumatic stress. Psychologists and other health professionals some working with police or militaries explore why some people get post traumatic stress disorder while others who may encounter equally horrible situations and sometimes over and over do not. The key is vulnerability they say and draw from research and life experiences to explain how mental health professionals can better understand who gets it and why and how to prevent or minimize it. Therapist's Guide to Posttraumatic Stress Disorder Intervention Sharon L. Johnson, 2009-04-08 Sharon Johnson is the author of the best selling *Therapist's Guide to Clinical Intervention* now in its second edition. In this new book on PTSD she lends her practical outline format to understanding PTSD assessment, treatment planning and intervention. The book begins with a summary of information on PTSD definition and prevalence, assessment and the evidence basis behind different treatment options. The book offers adjunctive skill building resources to supplement traditional therapy choices as well as forms for use in clinical practice. This clinician's guide to diagnosing and treating PTSD is written in a concise format with much of the material in outline or bullet point format allowing easy understanding of complex material for the busy therapist. The book includes a definition of the disorder, diagnostic criteria, the neurobiology of the disorder, tools and information for diagnosing clients, information on functional impairment, interventions, treatment planning, skill building and additional clinician resources. Outlines treatment goals and objectives for DSM IV PTSD diagnosis. Discusses interventions and the evidence basis for each. Offers skill building resources to supplement treatment. Provides business and clinical forms for use with PTSD patients. *Essentials of Global Mental Health* Samuel O. Okpaku, 2014-02-27 Mental illness accounts directly for 14% of the global burden of disease and significantly more indirectly and recent reports recognise the need to expand and improve mental health delivery on a global basis especially in low and middle income countries. This text defines an approach to mental healthcare focused on the provision of evidence based cost effective treatments founded on the principles of sharing the best information about common problems and achieving international equity in coverage, options and outcomes. The coverage spans a diverse range of topics and defines five priority areas for the field. These embrace the domains of global advocacy, systems of development, research, progress, capacity building and monitoring. The book concludes by defining the steps to achieving equality of care globally. This is essential reading for policy makers, administrators, economists and mental health care professionals and those from the allied professions of sociology, anthropology, international politics and foreign policy. **Behind the Badge** Sharon M. Freeman Clevenger, Laurence Miller, Bret A. Moore, Arthur Freeman, 2014-11-13 This volume is the logical follow up to the military treatment handbook *Living and Surviving in Harm's Way*. Sharon Freeman Clevenger, Laurence Miller, Bret Moore and Arthur Freeman return with this dynamic handbook ideal for law enforcement agencies interested in the psychological health of their officers. Contributors include law enforcement officers with diverse experiences making this handbook
