Modal Justification via Theories Bob Fischer, 2016-12-15 This monograph articulates and defends a theory based epistemology of modality TEM According to TEM someone justifiably believe an interesting modal claim if and only if a she justifiably believes a theory according to which that claim is true b she believes that claim on the basis of that theory and c she has no defeaters for her belief in that claim The book has two parts In the first the author motivates TEM sets out the view in detail and defends it against a number of objections In the second the author considers whether TEM is worth accepting To argue that it is the author sets out criteria for choosing between modal epistemologies concluding that TEM has a number of important virtues However the author also concedes that TEM is cautious it probably implies that we are not justified in believing some interesting modal claims that we might take ourselves to be justified in believing This raises a question about TEM s relationship to Peter van Inwagen s modal skepticism which the author explores in detail As it turns out TEM offers a better route to modal skepticism than the one that van Inwagen provides But rather than being a liability the author argues that this is a further advantage of the view Moreover he argues that other popular modal epistemologies do not fare better they cannot easily secure more extensive modal justification than TEM The book concludes by clarifying TEM s relationship to the other modal epistemologies on offer contending that TEM need not be a rival to those views but can instead be a supplement to them

world the gospel came to believers who had grown up hearing and reading the great works of pagan literature and seeing the pagan gods everywhere around in their world saturated as it was with pagan gods in literature public and private art coins and more The joy in encountering Jesus and learning of his love for all sinful humanity stood out particularly starkly against the cruelty of the pagan worldview that comes through so clearly in the myths And yet they too could see hints of truth and spiritual longings for salvation in those myths In twenty short chapters Nadya Williams introduces the readers to one or two different ancient authors and their key works She offers three interrelated reasons for Christians today to read the pagan classics for spiritual formation reading to be surprised by joy reading to understand the world of the Bible and the earliest Christians and reading for character formation It is time Christians rediscovered the benefits of reading the great works of Greco Roman classical literature as Christians
