Wholeness On Education Buckminster Fuller And Tao:

Wholeness Alex Gerber, 2001 **A Journey in Search of Wholeness and Meaning** Rupert Clive Collister, 2010 This book explores the concept that the reality which is created by the consciousness inherent in the Western worldview is exceptionally limiting and probably unsustainable After describing the contexts within which the book was written the author documents his personal journey in search of wholeness and meaning From his experience of this journey he suggests that the wisdom insight and praxis contained within what he describes as the meta narratives of Holism Indigenous cultures and Eastern traditions are manifestations of a holistic consciousness The author explores the concept that a shift to such a holistic consciousness is required in order to redress the imbalance that is evident in all humanity's relationships and he suggests that enabling such a shift in consciousness would have deep implications for the concepts and contexts of community adult learning meaningful work and sustainability **An Everyday God** James Taylor, 2005 A long awaited reissue of James Taylor's bestselling timeless classic *An Everyday God* Taylor is a master at finding God in the stuff of ordinary life He teaches the way Jesus taught by telling stories about everyday things an old song remembered from years ago an arthritic pet cat a lost contact lens Along the way he opens our eyes ears minds and hearts to the discovery that God is not only present in religious ceremonies but in everything we do whether we're studying the universe or diapering a baby taking out the garbage or playing touch football At any time God may be telling us something new or helping us to understand something old The first book in Taylor's *Everyday* trilogy *An Everyday God* remains a rewarding guide to spiritual growth *The A.W.E. Project* Matthew Fox, Matthew Fox has done it again As one of the most prophetic voices of our time he has created a unique new project that speaks to the concerns and hopes of all of us who care about creating lives of meaning for ourselves our communities our children and our children's children The A W E Project reminds us that awe is the appropriate response to the unfathomable wonder that is creation from the magnificence of galaxies to the complex and brilliant process of cell differentiation and the miracle of the human hand a product of 14 billion years of evolution Imagine how much richer learning will be for all ages when we intentionally cultivate a sense of appreciation and wonder A W E is also the acronym for Fox's proposed style of learning an approach to balance the three R's This approach to learning eldering and mentoring is intelligent enough to honor the teachings of the Ancestors to nurture Wisdom in addition to imparting knowledge and to Educate through Fox's 10 C's The 10 C's are the core of the A W E philosophy and process of education and include compassion contemplation and creativity The A W E Project does for the vast subject of learning what Fox's *Reinvention of Work* did for vocation and *Original Blessing* did for theology With passion and conviction Fox turns conventional education upside down shakes out what is no longer working and offers visions of what can be The A W E Project includes a DVD featuring original compositions based on the 10 C's by Hip Hop artist and filmmaker Professor Pitt part of the worldwide movement of rappers for peace and justice **Beyond Belief: Agnostic Musings for 12 Step Life** Joe

Transcendental Learning John P. Miller,2012-01-01 Transcendental Learning discusses the work of five figures associated with transcendentalism concerning their views on education Alcott Emerson Fuller Peabody and Thoreau all taught at one time and held definite views about education The book explores these conceptions with chapters on each of the five individuals and then focuses the main features of transcendental learning and its legacy today A central thesis of the book is that transcendental learning is essentially holistic in nature and provides rich educational vision that is in many ways a tonic to today s factory like approach to schooling In contrast to the narrow vision of education that is promoted by governments and the media the Transcendentalists offer a redemptive vision of education that includes educating the whole child body mind and soul happiness as a goal of education educating students so they see the interconnectedness of nature recognizing the inner wisdom of the child as something to be honored and nurtured a blueprint for environmental education through the work of Thoreau an inspiring vision for educating women of all ages through the work of Margaret Fuller an experimental approach to pedagogy that continually seeks for more effective ways of educating children a recognition of the importance of the presence of teacher and encouraging teachers to be aware and conscious of their own behavior a vision of multicultural and bilingual education through the work of Elizabeth Peabody The Transcendentalists particularly Emerson and Thoreau sewed the seeds for the environmental movement and for non violent change Their work eventually influenced Gandhi and Martin Luther King Jr and it continues to resonate today in the thinking of Aung Sang Suu Kyi and the Dalai Lama The Transcendentalists vision of education is worth examining as well given the dissatisfaction with the current educational scene Endorsements A Transcendental Education provides a powerfully hopeful integrative and holistic vision that can help guide education out of its current vacuum The book is thoughtfully explicated expertly synthesized and completely relevant for anyone interesting in helping education find itself Like the transcendentalists themselves this is both down to earth and soaring in its potential implications Tobin Hart author of *The Secret Spiritual World of Children* and *From Information to Transformation Education for the Evolution of Consciousness* The secret to a vital renewed America lies in the life and writings of the Transcendentalist community of Concord Massachusetts in the 19th century Jack Miller who I know has been devoted to a new living form of education throughout his career has written a book that could inspire a revolution in teaching It goes against the tide as do Emerson and Thoreau But it offers a blueprint and a hope for our children Thomas Moore author of *Care of the Soul* A timely account of great thinking on genuine education Reading this today s beleaguered teachers should experience a renewal of spirit and commitment Nel Noddings author of *Happiness and Education* Where the Truth Comes Out: Humanistic Education Robert Leroy Shannon,1971
