*Why Discourse Matters* Yusuf Kalyango, Monika Weronika Kopytowska, 2014 This volume draws on issues and cases from more than 20 countries to provide empirical evidence and theoretical insights into why discourse matters Covering a wide range of concepts and topical issues contributors from media studies journalism and linguistics address the following key questions Why and how does discourse matter pertaining to identity in a mediatized world Who makes discourse and identity matter for what reason in what way and with what consequences The volume provokes a new proposition that it is necessary to go beyond the safe havens of disciplinary strongholds with familiar terminology methodology and questions to address future inquiries into discourse and identity from a combination of linguistics and journalistic media studies **Why**

**Discourse Matters** Kalyango, Jr. (Yusuf), Monika Weronika Kopytowska, 2013 It is heartening to come upon a volume for which the chapter authors not only represent multiple countries but to as well have a preponderance of Africa connected authors Because I believe that the twenty second century will be Africa s I see this ambitious collection as startlingly prescient The co editors have brought together a wide ranging group of writings in this impressive volume Anne Cooper Chen Professor Emerita Ohio University The editors are right to focus on the fact that identity is a major reason why discourse matters What is certainly needed is for linguists cultural analysts sociologists psychologists and other scholars to provide detailed descriptions and to raise questions The present book offers an extraordinarily diverse array of such studies From the Preface by Paul Chilton *The Routledge Handbook of Critical Discourse Studies* John Flowerdew, John E. **Discourse** Patricia Bou-Franch, Pilar Garces-Conejos Blitvich, 2019-10-24 This innovative edited collection presents new insights into emerging debates around digital communication practices. It brings together research by leading international experts to examine methods and approaches to multimodality, face and identity across five thematically organised sections. Its contributors revise current paradigms in view of past, present and future research and analyse how users deploy the wealth of multimodal resources afforded by digital technologies to undertake tasks and to enact identity. In its concluding section it identifies the ideologies that underpin the construction of digital texts in the social world. This important contribution to digital discourse studies will have interdisciplinary appeal across the fields of linguistics, socio linguistics, pragmatics, discourse analysis, gender studies, multimodality, media and communication studies.

**Discourse, Ideology and Specialized Communication** Giuliana Garzone, Srikanth Sarangi, 2008 This book approaches the issue of ideology in specialized communication in professional, institutional and disciplinary settings across domains as diverse as law, healthcare, corporate management, migration, NGOs etc. What unites the contributors is their commitment to a discourse view of language use, i.e. the view that organisational and professional practices are rooted in social ideological orders, although a variety of perspectives on the exact nature of the relationship between ideology and discourse can be discerned in individual chapters. The acts of interpretation by participants and analysts alike are invested in ideology, explicitly or implicitly. This manifest hidden duality surrounding ideology in discourse constitutes the main focus. Challenging the traditional presumption of objectivity, impersonality and non involvement that has often characterized research on Language for Specific Purposes, this book demonstrates how the specialized communication setting is a critical site where ideology is intrinsically embodied in discursive practices.

**Discourse In and Through the Media** Marina Bondi, Silvia Cacchiani, 2016-01-14 This book is a result of the 2013 CLAVIER Conference held in Modena in November 2013 and includes a selection of the papers presented on that occasion. As the title suggests, this volume encourages cross generic and cross disciplinary investigations in order to advocate integrated approaches to the study of media discourse regarding both theoretical background and practical applications. Bringing together a wide range of case studies, the book fosters debate on a variety of aspects related to the representation of specialised discourse in and through the media, including for example voice and point of view, argumentative practices, knowledge construction, multimodality, the re contextualization and re conceptualization of knowledge, opinion formation and peer to peer communication and popularization in and through traditional digital and social media. Taken together, the contributions to this volume provide extensive exemplification of the type of research currently being conducted on these issues. The variety of the questions posed and the wide array of methods used here therefore represent a substantial contribution to sharpening existing knowledge and furthering the ongoing debate among scholars in the field.
