## **Why We Left Islam Former Muslims Speak Out:**

**Why We Left Islam** Susan Crimp, Joel Richardson, 2008 Records the testimonies of former Muslims who have left the Islamic faith recording their reasons for leaving the religion and the consequences that they have faced as a result

**Moving In and Out of Islam** Karin van Nieuwkerk, 2018-12-05 Embracing a new religion or leaving one's faith usually constitutes a significant milestone in a person's life. While a number of scholars have examined the reasons why people convert to Islam, few have investigated why people leave the faith and what the consequences are for doing so. Taking a holistic approach to conversion and deconversion, *Moving In and Out of Islam* explores the experiences of people who have come into the faith along with those who have chosen to leave it, including some individuals who have both moved into and out of Islam over the course of their lives. Sixteen empirical case studies trace the processes of moving in or out of Islam in Western and Central Europe, the United States, Canada, and the Middle East. Going beyond fixed notions of conversion or apostasy, the contributors focus on the ambiguity, doubts, and nonlinear trajectories of both moving in and out of Islam. They show how people shifting in either direction have to learn or unlearn habits and change their styles of clothing, dietary restrictions, and ways of interacting with their communities. They also look at how communities react to both converts to the religion and converts out of it, including controversies over the death penalty for apostates. The contributors cover the political aspects of conversion as well, including debates on radicalization in the era of the war on terror and the role of moderate Islam in conversions.

*None of the Above* Joseph Farah, 2008 The choices put before us this year by the two major parties make George Bush look like George Washington by comparison — especially with regard to the Constitution. It is because of my strong belief in the Constitution that I am urging Americans this year not to vote for either major party candidate — because neither Barack Obama nor John McCain understand, appreciate, and revere the charter that serves as the very basis for our unique form of government. It's time for a real protest against a broken and corrupt American political system. It's not a time for choosing the lesser of two evils. That won't fix our country's leadership crisis. It's time for resistance. It's time for rebellion. It's time for radicalism. It's time to start saying no to the bad choices we are being handed by the system. It's time to change from compliance to government to a spirit of obedience to higher to God and the Constitution that limits the authority of government. And it's time to translate this into the political arena. [Inside the](#)

**"The Sons of Pigs and Apes"** Neil J. Kressel, 2012-08-01 From the 1950s through the 1990s, antisemitism everywhere seemed to be on the wane. But as Neil Kressel documents in this startling book, the Muslim world has resurrected in recent decades almost every diatribe that more than two millennia of European hostility produced against the Jews, and it has introduced many homegrown and novel modes of attack. Though it is impossible

to determine precisely how many of the world's 1.2 billion Muslims hold anti-Jewish beliefs Kressel finds that much bigotry comes from the highest levels of religious and political leadership Compounding the problem as Kressel demonstrates many in the West refuse to recognize this issue The growing epidemic of hate has been largely ignored misunderstood or downplayed Kressel reveals because of apathy ignorance confusion bigotry ideology purported pragmatism and misguided multiculturalism Those who value human rights ignore antisemitism at their own risk he cautions noting that no antisemitic regime or movement has ever been otherwise reasonable or progressive Kressel argues convincingly that Muslim antisemitism provides an acid test of the seriousness of Western liberalism If the West fails to stem this growing tide as now seems likely future affairs will not go well for the true proponents of democracy Kressel moves beyond sounding the alarm to explore the diverse religious political social and psychological forces that have created and nurtured the new hostility to Jews in the Muslim world he concludes with a bold and clear plan for what must be done to confront this hostility

*The Apostates* Simon Cottee, 2015-01-07 A candid appraisal of the challenges and consequences of leaving Islam

**Marriage and Civilization** William Tucker,2014-02-03 In his stunning new book Marriage and Civilization author William Tucker looks at the evidence from biology evolution anthropology history and culture to come to a remarkable conclusion it was the monogamous pairing of male and female unusual among mammals that led to human evolution Moreover it is monogamous marriage that has shaped Western Civilization giving us our sense of justice undergirded Western democracy and is the greatest institution we have for perpetuating human freedom and happiness Yet marriage is now under threat and perhaps not in ways that people suspect We could actually see the de facto abolition of marriage with the state taking many of the responsibilities formerly assumed by the nuclear family Among Tucker s many eye opening observations How primitive polygamy was a retrogression from the original monogamous structure of the human family Why monogamy was essential to the development of ancient Greek democracy Why it was the Catholic Church not the Bible or Christianity in general that was the great defender of monogamous marriage in Western Civilization Why polygamous societies from primitive farming communities to the Mongols to the Muslim world to the early Mormons are internally violent and have bloody borders Why same sex marriage utterly irrelevant in evolutionary terms is a distraction from the real marriage debate we should be having The prospects for monogamous marriage and the dangers if it collapses Marriage and Civilization might be the most important provocative and talked about book of the year

Joel Richardson, One day an American on the verge of converting to Islam said to one of the editors Please I fear I am about to make the biggest mistake of my life Please give me one solid reason not to convert This is the book Joel Richardson wishes he had at that moment Powerful often shocking but always heartfelt these essays from over a dozen individuals who have left Islam often in fear for their lives are remarkable for their honesty The stories of how these men and women freed themselves from this repressive and brutal religion are not just inspirational but present a searing challenge to those Westerners determined to perpetuate the Islam is a religion of peace myth at all costs      **Former Muslims in Europe** Maria Vlieg,2021-07-21 Within contemporary Western European academic media and socio political spheres Muslims are predominantly seen through the lens of increased religiosity This religiosity is often seen as problematic especially in the context of securitised discourses of Islamist terrorism Yet there are clear indications that a growing number of people who grew up in Muslim families no longer subscribe to Islam or call themselves religious at all Drawing on fieldwork in the UK and the Netherlands this study examines the experiences of people moving out of Islam It rigorously questions the antagonistic nature of the debate between the religious and the secular or who is in and who is out and argues for recognition of the ambiguity that most of us live in Revealing many complex forms of moving out this study adds much needed nuance to understandings of secularity and Muslim identities in Europe      **Leaving Islam, Ex-Muslims and Zemiology** Weronika Lenartowicz,2024-02-28 Cases of ex Muslims in Europe being punished by their former fellow Muslims constitute an unacceptable practice from the standpoint of democratic societies in which human rights are respected and individuals have the freedom to choose their religion or none at all Ex Muslims fear of punishment by their former community should prompt an open candid and measured discussion of the issue Leaving Islam Ex Muslims and Zemiology presents the reasons for and consequences of consciously leaving Islam based on interviews with 80 ex Muslims currently living in Germany and Sweden In their view many of the practices and beliefs of Islam are harmful and unfair Many parts of the Islamic world regard apostasy as treason or a crime As a result emphasis in the book is shifted from crime to harm and a thesis is put forward concerning the decriminalization of apostasy from the perspective of zemiology The book highlights how a broader shift of interest in the democratic structures of Europe could allow ex Muslims to join the discussion on the

guaranteed right to religious liberties and freedom of speech in the context of the apostasy law in Islam This should happen without fear for their own security and without facing potential suppression or social exclusion It will appeal to scholars with interest in Islam and the conflict between religious values and an individual's aspirations and needs **La Mujer Y El**
