Why Your Credit Sucks And What You Can Do About It

Thomas Griffiths

Why Your Credit Sucks And What You Can Do About It:

Why Software Sucks-- and what You Can Do about it David S. Platt, 2007 I've just finished reading the best computer book Why Software Sucks since I last re-read one of mine and I wanted to pass along the good word. Put this one on your must-have list if you have software love, software hate, programmers or even ARE a programmer because Mr. Platt, who teaches programming, has set out to puncture the bloated egos of all those who think that just because they can write a program they can make it easy to use. This book is funny but it is also an important wake-up call for software companies that want to reduce the size of their customer support bills. If you were ever stuck for an answer to the question "Why do good programmers make such awful software?" this book holds the answer. John McCormick, Locksmith columnist, TechRepublic.com. I must say first I don't get many computing manuscripts that make me laugh out loud. Between the laughs, Dave Platt delivers some very interesting insight and perspective all in a lucid and engaging style. I don't get much of that either. Henry Leitner, assistant dean for information technology and senior lecturer on computer science, Harvard University. A riotous book for all of us downtrodden computer users written in language that we understand. Stacy Baratelli, author's barber. David's unique take on the problems that bedevil software creation made me think about the process in new ways. If you care about the quality of the software you create or use, read this book. Dave Chappell, principal, Chappell Associates. I began to read it in my office but stopped before I reached the bottom of the first page. I couldn't keep a grin off my face. I'll enjoy it after I go back home and find a safe place to read. Tsukasa Makino, IT manager. David explains in terms that my mother-in-law can understand why the software we use today can be so frustrating, even dangerous at times, and gives us some real ideas on what we can do about it. Jim Brosseau, Clarrus Consulting Group Inc. A Book for Anyone Who Uses a Computer Today and Just Wants to Scream. Today's software sucks. There's no other good way to say it. It's unsafe, allowing criminal programs to creep through the Internet wires into our very bedrooms. It's unreliable, crashing when we need it most, wiping out hours or days of work with no way to get it back. And it's hard to use, requiring large amounts of head-banging to figure out the simplest operations. It's no secret that software sucks. You know that from personal experience, whether you use computers for work or personal tasks. In this book, programming insider David Platt explains why that's the case and more importantly, why it doesn't have to be that way. And he explains it in plain, jargon-free English that's a joy to read, using real-world examples with which you're already familiar. In the end, he suggests what you, as a typical user without a technical background, can do about this sad state of our software, how you, as an informed consumer, don't have to take the abuse that bad software dishes out. As you might expect from the book's title, Dave's expose is laced with humor, sometimes outrageous but always dead-on. You'll laugh out loud as you recall incidents with your own software that made you cry. You'll slap your thigh with the same hand that so often pounded your computer desk and wished it was a bad programmer's face. But Dave hasn't written this book just for laughs. He's written it to give long-overdue voice to your own discovery that software does indeed suck, but it shouldn't. *Money*

Management Turn Bad Credit Into Good Credit Robert Anderson,2020-02-09 It seems that everywhere you turn someone wants to know your credit score It doesn't matter if this is you or someone from your bank Many landlords will even run a potential renter's credit as this will usually give them insight as to whether the person will pay their rent The landlords will also have guidelines to use in order to tell you if you are approved or not approved based on your credit score While some may allow you to have a cosigner if you are not approved they will also want to run your co-signer's credit report This is often frustrating to many people especially when you are trying to repair your credit It can make you feel that you are never given a break or that your identity is now your bad credit It doesn't have to be this way In fact the more you learn about the details of what bad credit is and how there are federal laws to help you overcome bad credit the faster you will find yourself in financial freedom Your credit score is vital to your life It is something that helps you to enjoy life as you have added access to financial services and various investments You must understand how your score can directly influence what you can purchase so that you can enjoy your life The problems you have with your credit score can be very dramatic and you might not be fully aware of what affects your credit score or how valuable it is to you Those people who pay off their debts and lines of credit with on time payments will be more likely to have better credit ratings There are many things relating to your credit score that should be explored that go well beyond just your payment history

Money Management & Financial Budgeting 2 Books In 1 Robert Anderson,2020-02-09 Money Management Turn Bad Credit Into Good Credit It seems that everywhere you turn someone wants to know your credit score It doesn't matter if this is you or someone from your bank Many landlords will even run a potential renter's credit as this will usually give them insight as to whether the person will pay their rent The landlords will also have guidelines to use in order to tell you if you are approved or not approved based on your credit score While some may allow you to have a cosigner if you are not approved they will also want to run your co-signer's credit report This is often frustrating to many people especially when you are trying to repair your credit It can make you feel that you are never given a break or that your identity is now your bad credit It doesn't have to be this way In fact the more you learn about the details of what bad credit is and how there are federal laws to help you overcome bad credit the faster you will find yourself in financial freedom Your credit score is vital to your life It is something that helps you to enjoy life as you have added access to financial services and various investments You must understand how your score can directly influence what you can purchase so that you can enjoy your life The problems you have with your credit score can be very dramatic and you might not be fully aware of what affects your credit score or how valuable it is to you Those people who pay off their debts and lines of credit with on time payments will be more likely to have better credit ratings There are many things relating to your credit score that should be explored that go well beyond just your payment history Financial Budgeting Everyone has an opportunity to grow their money and get out of debt but you must start to make this a reality Be warned though when your income starts to grow it is easy to fall into temptation and start spending more than you are earning again Refrain and

continue saving and investing your money Every small step counts Every coin kept and invested counts If you use the profit you make you will be unable to grow your wealth Instead allow your investment to grow by using the profits as part of the next years principal With time you will have a venture that can not only buy you whatever you want but one that will continue to grow over the years Taking advice from experts in the field you wish to invest is critical to your investment Would you go to a farmer when you are sick or would you seek out a doctor The same way take your investment knowledge from those who understand the market dynamics and can offer you advice to help grow your investment Manage your credit cards with responsibility or they will sink you into a hole The easiest way to get into debt is to spend more than you earn You need to keep your expenses lower than your income at all times Watch your credit card spending because that s how we often find ourselves overspending To get out of debt is to pay The longer it takes you to pay the higher the interest rate you will be required to pay Either consolidate your debt or tackle one debt at a time You might want to reduce your expenses so you have more money to spread around Always start by saving 10% of your income A safety net is essential for your peace of mind Budgeting does not have to be complicated The more you simplify it the better As long as you track your expenses and stick to your budget it will work for you Ensure that you don t view it as a task but as a necessary tool to help you stay ahead get a real financial picture and manage your money correctly
