Trade Offs Negotiating The Omnibus Trade And Competitiveness Act:

Trade-offs Susan Carol Schwab,1994 Discusses the business implications of the Omnibus Trade Act of 1988 and explains why this law was a milestone in United States trade policy *American Trade Politics* I. M. Destler,2005-06-08 In this comprehensive revision of the most influential widely read analysis of the US trade policymaking system Destler addresses how globalization has reshaped trade politics weakening traditional protectionism but intensifying concern about trade's societal impacts Entirely new chapters treat the deepening of partisan divisions and the rise of trade and issues especially labor and the environment The author concludes with a comprehensive economic and political strategy to cope with globalization and maximize its benefits The original edition of *American Trade Politics* won the Gladys Kammerer Award of the American Political Science Association for the best book on US national policy **The Politics of Piracy** Andrew Mertha,2018-09-05 China is by far the world's leading producer of pirated goods from films and books to clothing from consumer electronics to aircraft parts As China becomes a full participant in the international economy its inability to enforce intellectual property rights is coming under escalating international scrutiny What is the impact Andrew C Mertha asks of external pressure on China's enforcement of intellectual property The conventional wisdom sees a simple correlation between greater pressure and better domestic compliance with international norms and declared national policy Mertha's research tells a different story external pressure may lead to formal agreements in Beijing resulting in new laws and official regulations but it is China's complex network of bureaucracies that decides actual policy and enforcement The structure of the administrative apparatus that is supposed to protect intellectual property rights makes it possible to track variation in the effects of external pressure for different kinds of intellectual property Mertha shows that while the sustained pressure of state to state negotiations has shaped China's patent and copyright laws it has had little direct impact on the enforcement of those laws By contrast sustained pressure from inside China on the part of foreign trademark owners and private investigation companies in their employ provides a far greater rate of trademark enforcement and spurs action from anti counterfeiting agencies **The Domestic Sources of American Foreign Policy** Eugene R. Wittkopf,James M. McCormick,2004 Now in its fourth edition this comprehensive survey of the interaction between domestic and international politics shows how public opinion interest groups the media the intelligence establishment and the different branches of American government influence US foreign policy formulation with a special emphasis on national security issues in the wake of the attacks of September 11 2001 innovation in key arenas including Cuba Afghanistan and the war on terrorism Prominent contributors including Joseph S Nye Jr Stanley Hoffmann and Fred I Greenstein from academic and policy communities combine practical and theoretical perspectives to offer this well rounded complement to courses in American government foreign policy and international relations *Democratizing U.S. Trade Policy* Bruce Stokes,Pat Choate,2001 A Council on Foreign Relations paper **Encyclopedia of Business Ethics and Society** Robert W. Kolb,2007-08-21 2008
