Trainer Practice Answers British Council:

Cambridge IELTS 11 General Training Student's Book with answers , The British Council Great Britain. National Audit Office, 2008 The British Council has been flexible in moving its attention and resources to match new UK priorities particularly in the Islamic World and the Far East It continues to implement numerous and extensive internal changes aimed at increasing its effectiveness and efficiency though delivery of projects and change has been uneven across its global network The Council's approach to measuring its performance is well developed Its scorecard shows positive results across most aspects of activity including audience sizes customer satisfaction scores and the perceptions of stakeholders and partners The Council increasingly depends on contributions from external partners and commercial sponsors to expand its activities and impacts This will mean reversing the downward trend in sponsorship and other contributions of the last six years The Council has recognised the importance of good customer service but it is not yet meeting the standards it sets for itself across the whole network It also needs to implement a customer database to enable it to track customer contacts and better understand its audiences The British Council's 181 million English language teaching and examinations business has a strong reputation and more than covers its costs The teaching operation also supports UK public diplomacy notably by helping overseas governments expand the teaching of English in their schools and colleges But the teaching business has a high cost base charges premium prices and has limited reach outside overseas capital cities Although there has been an increase in the numbers of students taught the network of teaching centres has contracted in recent years To continue to grow the business the Council will need to put into action its ideas about alternative lower cost ways to deliver good quality teaching
