German Army Uniforms of World War II Stephen Bull,2021-02-04. A detailed illustrated history of the uniforms of the German army from the period leading up to World War II until 1945. In the years after World War I the defeated and much reduced German Army developed new clothing and personal equipment that drew upon the lessons learned in the trenches. In place of the wide variety of uniforms and insignia that had been worn by the Imperial German Army, a standardized approach was followed, culminating in the uniform items introduced in the 1930s as the Nazi Party came to shape every aspect of German national life. The outbreak of war in 1939 prompted further adaptations and simplifications of uniforms and insignia, while the increasing use of camouflaged items and the accelerated pace of weapons development led to the appearance of new clothing and personal equipment. Medals and awards increased in number as the war went on, with grades being added for existing awards and new decorations introduced to reflect battlefield feats. Specialists such as mountain troops, tank crews, and combat engineers were issued distinctive uniform items and kit, while the ever-expanding variety of fronts on which the German Army fought, from the North African desert to the Russian steppe, prompted the rapid development of clothing and equipment for different climates and conditions. In addition, severe shortages of raw materials and the demands of clothing and equipping an army that numbered in the millions forced the simplification of many items and the increasing use of substitute materials in their manufacture. In this fully illustrated book, noted authority Dr. Stephen Bull examines the German Army's wide range of uniforms, personal equipment, weapons, medals, and awards, and offers a comprehensive guide to the transformation that the German Army soldier underwent in the period from September 1939 to May 1945. **The**

The G.I. Collector's Guide: U.S. Army Service Forces Catalog, European Theater of Operations Henri-Paul Enjames, 2022-09-21 In World War II the U.S. Army not only supplied its soldiers with the most modern equipment and uniforms suitable for any combat situation but went as far as providing them with their favorite drinks or candy bars and seemingly anything else they might require. This comprehensive reference book brings together all the equipment issued to American soldiers in the European Theater of Operations 1943-45. Each item is presented with its catalog numbers described in detail and fully depicted in photographs including close ups of the labels to aid identification of items. Graphics and diagrams offer additional information and context. This second volume of the G.I. Collector's Guide is fully revised with the addition of sections including personal equipment trophies and souvenirs the wartime draft and Stateside training and the life of POWs in German camps. More than one thousand new artifacts with detailed captions are featured in this completely revised new work. Expert Henri Paul Enjames describes all variations of uniform insignia badges weapons and equipment in detail. US 10th Mountain Division in World War II Gordon L. Rottman, 2012-10-20 The 10th was the only US mountain division to be raised in World War II and still has a high profile having been involved in operations from Iraq to Somalia and from Haiti to Afghanistan. It did not arrive in Europe until winter 1944-45 but then fought hard in the harsh mountainous terrain of Northern Italy. The division was special in a number of ways. Its personnel were selected for physical fitness and experience in winter sports mountaineering and hunting unlike the rest of the infantry. It was highly trained in mountain and winter warfare including the use of skis and snowshoes while its organization field clothing and some personal equipment also differed from that of the usual infantry division. The division made extensive use of pack mules and its reconnaissance unit was horse mounted conducting the last horse mounted charge in US history in April 1945. Featuring full color artwork and rare photographs this is the gripping story of the US Army's only mountain division in action during the closing months of World War II.
