The

Wenzi Paul van Els, 2018-03-06 The *Wenzi* is a Chinese philosophical text that enjoyed considerable prestige in the centuries following its creation over two thousand years ago. When questions regarding its authenticity arose, the text was branded a forgery and consigned to near oblivion. The discovery of an age-old *Wenzi* manuscript inked on strips of bamboo refueled interest in the text. In this combined study of the bamboo manuscript and the received text, Van Els argues that they belong to two distinct text traditions as he studies the date, authorship, and philosophy of each tradition as well as the reception history of the received text. This study sheds light on text production and reception in Chinese history with its changing views on authorship, originality, authenticity, and forgery, both past and present. **Water, Pure and Simple** Dr. Paolo

Consigli, 2012-01-01 There is no more important substance on earth than water; it is the source of life, one of the four classic elements, and makes up over 70% of our bodies and our planet. This remarkable new book allows us to discover and understand more about this most common of molecules. *An Intellectual History of China, Volume One* Zhaoguang

Ge, 2014-01-30 Winner of the 2014 Choice Outstanding Academic Title Award. In *An Intellectual History of China*, Professor Ge Zhaoguang presents a history of traditional Chinese knowledge, thought, and belief to the late sixth century CE with a new approach offering a new perspective. It appropriates a wide range of source materials and emphasizes the necessity of understanding ideas and thought in their proper historical contexts. Its analytical narrative focuses on the dialectical interaction between historical background and intellectual thought. While discussing the complex dynamics of interaction among the intellectual thought of elite Chinese scholars, their historical conditions, their canonical texts, and the worlds of general knowledge, thought, and belief, it also illuminates the significance of key issues such as the formation of the Chinese world order and its underlying value system, the origins of Chinese cultural identity, and foreign influences. **Gateway to**

the Dao-field Avraham Cohen, 2009 This book evolved from Avraham Cohen's doctoral dissertation for which he received the 2006-2007 Ted Aoki Prize for the Outstanding Dissertation in Curriculum Studies from the University of British Columbia. Cohen, who has an extensive background as a humanistic existential therapist and as a mindfulness meditator, believes that these two fields have much to offer in the field of education. His work in this book supplies a rich resource and shows that indeed the practice and philosophy of mindfulness and humanistic existential practices is a gold mine waiting to be fully mined and applied in education. These ideas and practices come alive in his writings. This collection of provocative and evocative essays, written for both educational theorists and classroom practitioners, addresses very directly the much neglected human dimension and community development potential within classrooms. His groundbreaking work describes what most of us know intuitively to be important in classrooms and which is rarely adequately addressed: how to be authentically and fully human and how this pedagogy of being human is central to becoming a great educator. He points towards the practical implementation of pedagogic practices that integrate the personal inner work of the educator, classroom practice, and curriculum learning. *Come to the Quiet* John Michael Talbot, 2002 A highly successful Christian

recording artist and renowned thinker in the Catholic Church examines the rich tradition of meditation and contemplation deeply embedded within the center of Christianity providing strong exercises for unleashing the spiritual psychological and physical health benefits of meditation Original **The Buddhist I Ching** Chih-hsu Ou-i,2001-06-12 For centuries the I Ching has been used as a basic map of conscious development containing the underlying principles of all religions and highly prized by followers of Buddhism Chih hsu Ou i uses the concepts of Tianti Buddhism to elucidate the I Ching concentration and insight calmness and wisdom and various levels of realization Skillfully translated by Thomas Cleary this work presents the complete text of the I Ching plus the only Buddhist interpretation of the oracle *Putting Daoist Thought into Practice* Devin K. Joshi,2024-10-04 This book shows how Chinese wisdom originating many centuries ago is still highly relevant to our lives today as the Daoist classics provide insightful prescriptions on how to live a life full of happiness contentment and healthy longevity They also provide guidance regarding personal ethics sustainable economics and achieving enlightenment The book contains reflections on how to achieve happiness drawing from the Liezi a Daoist classic and it examines Daoist ideas about nourishing life to achieve longevity and the marked similarity between these principles and people living in blue zones today with the highest concentration of centenarians It explores Daoist views on consciousness and enlightenment in the Laozi and Zhuangzi and their close resemblance to some of the most influential new age teachings on the subject It highlights the ethical character of a Daoist sage by drawing on the Daoist classic of the Wenzhi and enumerates lessons for transitioning toward a sustainable economy from the Daodejing Covering multiple dimensions of classical Daoist thought and their contemporary applications to human development and well being this text will usefully inform scholars students and researchers of Asian studies religion and philosophy and individuals seeking self improvement and personal wellness
