Western Esotericism A Brief History Of Secret Knowledge:

Western Esotericism Kocku von Stuckrad, 2016-04-15 Esotericism is the search for an absolute but hidden knowledge accessed through mystical vision the mediation of higher beings or personal experience In Western cultural history esoteric approaches to religion have often been in conflict with and suffered at the hands of more established forms of religious belief and practice Western Esotericism presents a very broad and engaging history of the people and ideas which have shaped occult history from antiquity to today Throughout the history of esotericism the dynamic of concealment and revelation has characterized the search for secret knowledge Pursued both publically and privately esotericism has come to influence more mainstream religious practice and culture and has significantly shaped our understanding of modernity Today esotericism continues to be practised by a range of both established and new religious movements Western Esotericism presents the essential guide to one of the most fascinating provocative and sustained of religious traditions *Western Esotericism* Nicholas Goodricke-Clarke, 2014 Esotericism is the search for an absolute but hidden knowledge accessed through mystical vision the mediation of higher beings or personal experience In Western cultural history esoteric approaches to religion have often been in conflict with and suffered at the hands of more established forms of religious belief and practice Western Esotericism presents a very broad and engaging history of the people and ideas which have shaped occult history from antiquity to today Throughout the history of esotericism the dynamic of concealment and revelation has characterized the search for secret knowledge Pursued both publically and privately esotericism has come to influence more mainstream religious practice and culture and has significantly shaped our understanding of modernity Today esotericism continues to be practised by a range of both established and new religious movements Western Esotericism presents the essential guide to one of the most fascinating provocative and sustained of religious traditions Provided by publisher **Western Esotericism** Kocku von Stuckrad, 2005 A controversial issue of public debate during the recent years esotericism can be described as the search for an absolute but hidden knowledge that people claim to access through mystical vision the mediation of higher beings or personal experience In Western cultural history these claims often led to conflicts with more established forms of scriptural religions and with reductionist interpretations in science and philosophy In this highly readable book Kocku von Stuckrad describes the impact of esoteric currents from antiquity to the present and pursues the continuities and breaks in a tradition that significantly influenced the formation of modernity When Hermes Trismegistos reveals wisdom of an absolute quality the unveiling of hidden knowledge in Jewish Kabbalah is transformed by Christians Renaissance thinkers speak of an eternal philosophy or when in the New Age people try to get in contact with a source of superior understanding in every case the dynamic of concealment and revelation is at stake and the ways this hidden knowledge can be made accessible for human curiosity **Max Weber, Rudolf Steiner, and Modern Western Esotericism** Aaron French, 2025-03-10 This book challenges previous definitions of modernity by comparing Max Weber 1864 1920 often considered the most important

sociologist of the 20th century and Rudolf Steiner 1861 1925 founder of Waldorfp dagogik and the esoteric social reform movement of anthroposophy While acknowledging that Weber and Steiner were different in several respects this research illustrates that the individual histories of these two thinkers are more entangled than previously recognized This includes the influence of esotericism on their thinking as well as their profound concern with science and technological change and an openness to the religious and philosophical concepts of the civilizations of South and East Asia Demonstrating the importance of non European influences for a full understanding of modernity this book will be a valuable resource for students and scholars of Asian and European philosophy social theory and Asian society

Essays on Women in Western Esotericism Amy Hale,2022-01-21 This book is the first collection to feature histories of women in Western Esotericism while also highlighting women s scholarship In addition to providing a critical examination of important and under researched figures in the history of Western Esotericism these fifteen essays also contribute to current debates in the study of esotericism about the very nature of the field itself The chapters are divided into four thematic sections that address current topics in the study of esotericism race and othering femininity power and leadership and embodiment This collection not only adds important voices to the story of Western Esotericism it hopes to change the way the story is told

Polemical Encounters Olav Hammer,Kocku Von Stuckrad,2007 In its historical development from late antiquity to the present western esotericism has repeatedly been the issue of polemical discourse This volume engages the polemical structures that underlie both the identities within and the controversy about esoteric currents in European history From Jewish and Christian kabbalah through heretical discourse and interconfessional polemics in early modernity to the legitimization of esoteric identity in modern culture the 12 chapters accompanied by an editors introduction provide a cornucopia of relevant cases that are interpreted in a framework of polemical discourse and Othering This volume sheds new light on the ultimately polemical structure of western esotericism and thus opens new vistas for further research into esoteric discourse

Angels of Desire Jay Johnston,2016-04-08 The idea that the human body consists of subtle bodies psycho spiritual essences can be found in a variety of esoteric traditions This radical form of selfhood challenges the dualisms at the heart of Western discourse mind body divine human matter spirit reason emotion I other Angels of Desire explores the aesthetics and ethics of subtle bodies What emerges is an understanding of embodiment not exclusively tied to materiality The book examines the use of subtle bodies across a range of traditions yogic tantric theosophical hermetic and sufi Angels of Desire shows the relevance of the subtle body for religion philosophy art history and contemporary feminist religious studies and theories of desire

Medicine, Magic and Art in Early Modern Norway Ane Ohrvik,2018-04-02 This book addresses magical ideas and practices in early modern Norway It examines a large corpus of Norwegian manuscripts from 1650 1850 commonly called Black Books which contained a mixture of recipes on medicine magic and art Ane Ohrvik assesses the Black Books from the vantage point of those who wrote the manuscripts and thus offers an original study of how early modern magical

practitioners presented their ideas and saw their practices The book show how the writers viewed magic and medicine both as practical and sacred art and as knowledge worth protecting through encoding the text The study of the Black Books illuminates how ordinary people in Norway conceptualized magic as valuable and useful knowledge worth of collecting and saving despite the ongoing witchcraft prosecutions targeting the very same ideas and practices as the books promoted Medicine Magic and Art in Early Modern Norway is essential for those looking to advance their studies in magical beliefs and practices in early modern Europe as well as those interested in witchcraft studies book history and the history of knowledge

Lightbringers of the North Perttu Häkkinen,Vesa Iitti,2022-05-17 Examines the significant figures and groups of Finland s occult world including their esoteric practices and the secret societies to which they were connected Investigates the relationship of nationalism and esotericism in Finland as well as the history of Finnish parapsychology and the Finnish UFO craze Looks at the unique evolution of Freemasonry in Finland showing how when Finland was still part of Russia and the Masonic order was banned adherents created a number of other secret societies Finland has long been viewed as the land of sorcerers and shamans Exploring the rich history of Finnish occultism Perttu H kkinen and Vesa Iitti examine the significant figures and groups of Finland s occult world from the late 19th century to the present day They begin with Pekka Ervast known as the Rudolf Steiner of the North who was a major figure in Theosophy before starting a Rosicrucian group called Ruusu Risti and they look at the Finnish disciples of G I Gurdjieff and the grim case of the cult of Tattarisuo Investigating the relationship of nationalism and esotericism in Finland the authors tell the stories of Sigurd Wettenhovi Aspa who thought that Finns were the root of all Western civilization and of Yrj von Gr nhagen who became a close friend of Heinrich Himmler and Karl Maria Wiligut They also explore the history of Finnish parapsychology the Finnish UFO craze and the unique evolution of Freemasonry in Finland showing how when the Masonic order was banned adherents created a number of other secret societies such as the Carpenter s Order the Hypotenuse Order and the Brotherhood of February 17 which later became hubs for the OTO and AMORC Unveiling both the light and dark sides of modern esotericism in Finland the authors show how because of its unique position as partially European and partially Russian Finland s occult influence extends into the very heart of left hand and right hand occult groups and secret societies around the world *The Bloomsbury*

and accessibly organised to help users quickly locate key information and analysis the book includes an A to Z of key terms extensive guides to further resources a comprehensive bibliography and a timeline of major developments in the field such as the emergence of new groups publications legal decisions and historical events *Locations of Knowledge in Medieval and Early Modern Europe* Kocku Von Stuckrad,2010 Addressing discourses of perfect knowledge in Western culture between 1200 and 1800 this book integrates the study of Western esotericism in a larger analytical framework of European history of religion **Religions in the Modern World** Linda Woodhead,Christopher Partridge,Hiroko Kawanami,2016-01-13

Religions in the Modern World Traditions and Transformations Third Edition is the ideal textbook for those coming to the study of religion for the first time as well as for those who wish to keep up to date with the latest perspectives in the field This third edition contains new and upgraded pedagogic features including chapter summaries key terms and definitions and questions for reflection and discussion The first part of the book considers the history and modern practices of the main religious traditions of the world while the second analyzes trends from secularization to the rise of new spiritualities Comprehensive and fully international in coverage it is accessibly written by practicing and specialist teachers *The Oxford Handbook of the Sociology of Religion* Peter Clarke,2011-02-04 The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world The role and impact of religion and spirituality on the politics culture education and health in the modern world is rigorously discussed and debated The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion Using a combination of theoretical methodological and content led approaches the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law ecology to art music to cognitive science crime to institutional health care and more The developing character of religion irreligion and atheism and the impact of religious diversity on social cohesion are explored An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline **Redefining Shamanisms**

David Gordon Wilson,2013-01-31 Spiritualism and mediumship are often regarded as the product of lingering superstition in the Victorian era and as having limited relevance in modern Anglo American society Scholarship to date which has considered Spiritualism as a distinct religious tradition has focussed on analysing the phenomenon in terms of spirit possession only This volume analyses the development of shamanism communication with the spiritual world as a concept within North American English speaking scholarship with particular focus on Mircea Eliade s influential cross cultural presentation of shamanism By re examining the work of Sergei Shirokogoroff one of Eliade s principal sources the traditional

Evenki shamanic apprenticeship is compared and identified with the new Spiritualist apprenticeship. The author demonstrates that Spiritualism is best understood as a traditional shamanism as distinct from contemporary appropriations or neo shamanisms. He argues that shamanism is the outcome of an apprenticeship in the management of psychic experiences and which follows the same pattern as that of the apprentice medium. In doing so the author offers fresh insights into the mechanisms that are key to sustaining mediumship as a social institution. The Critical Study of Non-Religion Christopher R. Cotter, 2020-07-09. This book acts as a bridge between the critical study of religion and empirical studies of religion in the real world. Chris Cotter presents a concise and up to date critical survey of research on non religion in the UK and beyond before presenting the results of extensive research in Edinburgh's Southside which blurs the boundary between religion and non religion. In doing so Cotter demonstrates that these are dynamic subject positions and phenomena can occupy both at the same time or neither depending on who is doing the positioning and what issues are at stake. This book details an approach that avoids constructing religion as in some way unique whilst also fully incorporating non religious subject positions into religious studies. It provides a rich engagement with a wide variety of theoretical material rooted in empirical data which will be essential reading for those interested in critical sociological and anthropological study of the contemporary non religious landscape. Handbook of New Religions and Cultural Production Carole Cusack, Alex Norman, 2012-03-28. This volume fills a lacuna in the academic assessment of new religions by investigating their cultural products such as music architecture food et cetera. Contributions explore the manifold ways in which new religions have contributed to humanity's creative output. Faith in the Familiar Kim Knibbe, 2013-06-20. Faith in the Familiar is an ethnography of religious change in the Netherlands a country that has moved from strongly pillarized to strongly secularist in the space of fifty years. This book shows how people look back on this but also how Catholic rituals continue to play a role in the reproduction of place. Furthermore it shows how forms of spiritualism and new age have become part of a pluralistic local religious landscape and are used to create new ways of relating to religious authority and to reshape personal relationships. Situating itself within general theories of religious change in Western Europe it offers a contribution to this discussion from an angle that is often neglected focusing on locality rather than on globalization on what happens to old religion rather than on new religious trends on popular forms of spirituality rather than on middle class and highbrow spirituality. The Madness of Knowledge Steven Connor, 2021-07-21. Many human beings have considered the powers and the limits of human knowledge but few have wondered about the power that the idea of knowledge has over us. Steven Connor's *The Madness of Knowledge* is the first book to investigate this emotional inner life of knowledge the lusts fantasies dreams and fears that the idea of knowing provokes. There are in depth discussions of the imperious will to know of Freud's epistemophilia or love of knowledge and the curiously insistent links between madness magical thinking and the desire for knowledge. Connor also probes secrets and revelations quarreling and the history of quizzes and general knowledge.

charlatanry and pretension both the violent disdain and the sanctification of the stupid as well as the emotional investment in the spaces and places of knowledge from the study to the library In an age of artificial intelligence alternative facts and mistrust of truth *The Madness of Knowledge* offers an opulent enlarging and sometimes unnerving psychopathology of intellectual life

Religion, Theory, Critique Richard King, 2017-07-18 *Religion Theory Critique* is an essential tool for learning about theory and method in the study of religion Leading experts engage with contemporary and classical theories as well as non Western cultural contexts Unlike other collections this anthology emphasizes the dynamic relationship between religion as an object of study and different methodological approaches and openly addresses the question of the manifold ways in which religion secular and culture are imagined within different disciplinary horizons This volume is the first textbook which seeks to engage discussion of classical approaches with contemporary cultural and critical theories Contributors write on the influence of the natural sciences in the study of religion the role of European Christianity in modeling theories of religion religious experience and the interface with cognitive science the structure and function of religious language the social scientific study of religion ritual in religion the phenomenology of religion critical theory and religion embodiment and religion the impact of colonialism and modernity theorizing religion in terms of race and ethnicity links among religion nationalism and globalization the interplay of gender sex and religion and religion and the environment Each chapter introduces the topic identifies key theorists and issues and respects the pluralistic nature of the scholarship in the field Altogether this collection scrutinizes the explicit and implicit assumptions theorists make about religion as an object of analysis

The New Age in the Modern West Nicholas Campion, 2015-11-19 New Age culture is generally regarded as a modern manifestation of Western millenarianism a concept built around the expectation of an imminent historical crisis followed by the inauguration of a golden age which occupies a key place in the history of Western ideas *The New Age in the Modern West* argues that New Age culture is part of a family of ideas including utopianism which construct alternative futures and drive revolutionary change Nicholas Campion traces New Age ideas back to ancient cosmology and questions the concepts of the Enlightenment and the theory of progress He considers the contributions of the key figures of the 18th century the legacy of the astronomer Isaac Newton and the Swedish visionary Emanuel Swedenborg as well as the theosophist H P Blavatsky the psychologist C G Jung and the writer and artist Jose Arguelles He also pays particular attention to the beat writers of the 1950s the counterculture of the 1960s concepts of the Aquarian Age and prophecies of the end of the Maya Calendar in 2012 Lastly he examines neoconservatism as both a reaction against the 1960s and as a utopian phenomenon *The New Age in the Modern West* is an important book for anyone interested in countercultural and revolutionary ideas in the modern West
