Test Tube Families Naomi R. Cahn, 2009-01-01 The birth of the first test tube baby in 1978 focused attention on the sweeping advances in assisted reproductive technology (ART) which is now a multi-billion dollar business in the United States. Sperm and eggs are bought and sold in a market that has few

barriers to its skyrocketing growth While ART has been an invaluable gift to thousands of people creating new families the use of someone else's genetic material raises complex legal and public policy issues that touch on technological anxiety eugenics reproductive autonomy identity and family structure How should the use of gametic material be regulated Should recipients be able to choose the best sperm and eggs Should a child ever be able to discover the identity of her gamete donor Who can claim parental rights Naomi R Cahn explores these issues and many more in *Test Tube Families* noting that although such questions are fundamental to the new reproductive technologies there are few definitive answers currently provided by the law ethics or cultural norms As a new generation of donor kids comes of age Cahn calls for better regulation of ART exhorting legal and policy making communities to cease applying piecemeal laws and instead create legislation that sustains the fertility industry while simultaneously protecting the interests of donors recipients and the children that result from successful transfers

Infertility Robin E. Jensen, 2016-09-29 This book explores the arguments appeals and narratives that have defined the meaning of infertility in the modern history of the United States and Europe Throughout the last century the inability of women to conceive children has been explained by discrepant views that women are individually culpable for their own reproductive health problems or that they require the intervention of medical experts to correct abnormalities Using doctor patient correspondence oral

histories and contemporaneous popular and scientific news coverage Robin Jensen parses the often thin rhetorical divide between moralization and medicalization revealing how dominating explanations for infertility have emerged from seemingly competing narratives Her longitudinal account illustrates the ways in which old arguments and appeals do not disappear in the light of new information but instead reemerge at subsequent often seemingly disconnected moments to combine and contend with new assertions Tracing the transformation of language surrounding infertility from barrenness to infertility this rhetorical analysis both explicates how language was and is used to establish the concept of infertility and shows the implications these rhetorical constructions continue to have for individuals and the societies in which they live [Get Me Out](#) Randi Hutter Epstein, 2011-04-11 An engrossing survey of the history of childbirth Stephen Lowman Washington Post Making and having babies what it takes to get pregnant stay pregnant and deliver have mystified women and men throughout human history The insatiably curious Randi Hutter Epstein journeys through history fads and fables and to the fringe of science Here is an entertaining must read an enlightening celebration of human life **Women's Health Care in Advanced Practice Nursing** Catherine Ingram Fogel, Nancy Fugate Woods, 2008-06-23 Designated a Doody's Core Title A comprehensive resource oriented to advanced nursing students but one that also will interest women wishing to learn more about their health The volume also covers nutrition exercise sexuality infertility and other chronic illnesses and disabilities A wonderful resource Summing up Highly recommended Choice This book is the ideal tool to help graduate level nursing students expand their understanding of women's health care and wellness issues For easy reference Women's Health Care in Advanced Practice Nursing is organized into four parts Women and Their Lives covering connections between women's lives and their health Frameworks for Practice addressing health care practice with women Health Promotion covering ways for women to promote their health and prevent many chronic diseases Threats to Health and Health Problems addressing problems unique to women diseases more prevalent in women and those in which there are different risk factors Key features include The most recently available data on selected social characteristics of women with a focus on changing population demographics Separate chapters on health issues of adolescent young adult midlife and older women Chapters on preconceptional and prenatal care Chapters covering cardiovascular disease chronic disease sexually transmitted infections and other common infections HIV AIDS and women with disabilities Lesbian health care content which is integrated throughout **Research Perspectives on Work and the Transition to Motherhood** Christiane Spitzmueller, Russell A.
