

FROM EXECUTIVE PRODUCER JERRY BRUCKHEIMER

A promotional poster for the Disney+ series 'National Treasure: Edge of History'. The central figure is Hailey Steinfeld, who plays the character Nellie, standing in a dramatic pose within an ancient Egyptian tomb. She is wearing a dark leather jacket over a white collared shirt and dark trousers. A bright, golden light emanates from her chest, suggesting the presence of the 'Sankhara' artifact. Behind her is a large, circular stone wall covered in hieroglyphs. The floor of the tomb is dark and uneven, with small fires burning in the foreground. The overall atmosphere is mysterious and adventurous.

Americanization of History Kathleen McDonald, 2010-10-12 This collection of essays searches for how history and literature translate into filmic texts that then reflect the time and place of the translation Major motion pictures as well as television movies and series are the sites of this exploration The opening essay surveys what films tell us it means to be set in a medieval time while the second looks at one of the most powerful movie studios since the earliest days of movie making Walt Disney Studios The second section investigates classic Americana by delving specifically into the hegemonic power of Walt Disney Studios by considering the union between the American pastime of baseball and the great white way of Broadway and by discovering the constantly morphing relationship of the icons of the Wild West Section three looks at characters living outside of roles considered socially appropriate in their world vampire slayers mobsters and those with multiple personalities The fourth section studies how present day mores of power and beauty control revisions of historically based stories through issues of vengeance race sexuality and the notion of beauty itself The final section takes up the question of what it means to historicize the present moment and analyzes the current period via a very popular and long running show's depiction of sexuality as accepted or rejected within a paradigm that appears not merely to tolerate but actively to promote deviance The last essay questions the very concepts of time and history themselves The articles do not reach one conclusion regarding this topic but instead provide a variety of perspectives which help to theorize the issue for the discerning reader
