The British Blues Network Andrew Kellett, 2017-09-19 Beginning in the late 1950s an influential cadre of young white mostly middle class British men were consuming and appropriating African American blues music using blues tropes in their own music and creating a network of admirers and emulators that spanned the Atlantic This cross fertilization helped create a commercially successful rock idiom that gave rise to some of the most famous British groups of the era including The Rolling Stones The Yardbirds Eric Clapton and Led Zeppelin What empowered these white middle class British men to identify with and claim aspects of the musical idiom of African American blues musicians The British Blues Network examines the role of British narratives of masculinity and power in the postwar era of decolonization and national decline that contributed to the creation of this network and how its members used the tropes vocabulary and mythology of African American blues traditions to forge their own musical identities

Bob Dylan and the British Sixties
