Why Catholics Are Right Michael Coren,2012-02-07 A practicing Catholic defends the faith and offers a passionate response to current anti Catholic opinion In *Why Catholics Are Right* author columnist and practicing Catholic Michael Coren examines four main aspects of Catholicism as they are encountered understood and more importantly misunderstood today Beginning with a frank examination of the tragedy of the Catholic clergy abuse scandal Coren addresses some of them most common attacks on Catholics and Catholicism Tracing Catholic history he deconstructs popular and frequent anti Catholic arguments regarding the Church and the Crusades the Inquisition Galileo and the Holocaust He examines Catholic theology and central pillars of Catholic belief explaining why Catholics believe what they do papal infallibility immaculate conception the Church rather than Bible alone Finally he explores the dignity of life argument and why it is so important to Catholicism In this challenging and thought provoking book Michael Coren demolishes often propagated myths about the Church s beliefs and teachings and in doing so opens a window onto Catholicism which he writes is as important now as it ever was and perhaps even more necessary **Basics of a Roman Catholic Theology** William A. Van Roo,1982 The author says what I say here briefly will be found stated and elaborated at appropriate places in the course of the book But anyone who considers reading a book has a right to know some things before he or she decides whether the book id worth looking into I gather here such helpful information First a few words about the title of the book Some may be shocked or repelled or both by the

qualification Roman Catholic So I shall try to provide a shock absorber I Entitle the book as I do simply to be coherent with my conception of what theology is and my intention to set forth some basics of the theological works which I myself project As I understand it theology is the effort to understand within a life of faith As a work it is the result of that effort The matrix the living setting in which alone a theology can develop is religious experience of the theologian within his or her community of believers Outside or apart from such a concrete setting no one can reflect in any meaningful way on the structures of such experience and of the experienced reality I cannot therefore write a book of basics of theology in general for I have no experience of what it is to be a Jew or a Moslem for example and I could say nothing which would have any claim to account for Jewish or Moslem theology
