Why Torture Doesn't Work The Neuroscience Of Interrogation

S Ben Porath

Why Torture Doesn't Work The Neuroscience Of Interrogation:

Why Torture Doesn't Work Shane O'Mara, 2015-11-30 Torture is banned because it is cruel and inhumane But as Shane O'Mara writes in this account of the human brain under stress another reason torture should never be condoned is because it does not work the way torturers assume it does In countless films and TV shows such as Homeland and 24 torture is portrayed as a harsh necessity If cruelty can extract secrets that will save lives so be it CIA officers and others conducted torture using precisely this justification But does torture accomplish what its defenders say it does For ethical reasons there are no scientific studies of torture But neuroscientists know a lot about how the brain reacts to fear extreme temperatures starvation thirst sleep deprivation and immersion in freezing water all tools of the torturer's trade These stressors create problems for memory mood and thinking and sufferers predictably produce information that is deeply unreliable and for intelligence purposes even counterproductive As O'Mara guides us through the neuroscience of suffering he reveals the brain to be much more complex than the brute calculations of torturers have allowed and he points the way to a humane approach to interrogation founded in the science of brain and behavior Torture may be effective in forcing confessions as in Stalin's Russia But if we want information that we can depend on to save lives O'Mara writes our model should be Napoleon It has always been recognized that this way of interrogating men by putting them to torture produces nothing worthwhile

Personalist Neuroethics: Practical Neuroethics. Volume 2 James Beauregard, 2023-05-23 Personalist Neuroethics Practical Neuroethics Volume 2 is the second volume by the author to address ethical questions in neuroscience The first volume dealt primarily with theoretical issues while the present volume delves into specific and concrete ethical dilemmas that arise in neuroscience research and practice The topics covered include human dignity and neuroethics neuroethical issues at the beginning of life e.g. stem cell use in neuropsychiatric treatments neuroethics and injured persons e.g. brain injury and disorders of consciousness brain computer interface technology neuroethics at the end of life e.g. dementia care the ethics of enhancement and neuroethics as it impacts forensics and the justice system the media national security and warfare and the rarely discussed topic of neuroethics and religion

Parameters, 2017 **Contesting Torture** Rory Cox, Faye Donnelly, Anthony Lang Jr., 2022-10-27 This edited volume seeks to contest prevailing assumptions about torture and to consider why despite its illegality torture continues to be widely employed and misrepresented The resurgence of torture and public justifications of it led to the central questions that this interdisciplinary volume seeks to address How is it possible for torture to be practiced when it is legally prohibited What kinds of moves do agents make that render torture palatable Why do so many ignore the evidence that torture is ineffective as an intelligence gathering technique Who are the victims of torture The various contributors in the book look to history the practices of interrogators artistic representations documentary films rendition policies political campaigns diplomatic discourses international legal rules refugee practices and cultural representations of death and the body to illuminate how torture becomes permissible Building from the personal to

the communal and from the practical to the conceptual the volume reflects the multivalence of torture itself This framework enables readers at all levels better appreciate how and why torture is open to so many interpretations and applications This book will be of much interest to students of International Relations Security Studies Terrorism Studies Ethics and International Legal Studies

Forensic Psychology Thomas Davis, 2020-12-10 This fascinating and research led textbook gives students the facts and the tools they need to engage critically with the psychological dimension of the criminal justice system Accessibly written and packed with the latest psychological research Forensic Psychology Fact and Fiction is an engaging and wide ranging exploration of both foundational and contemporary issues The book prepares students to weigh up evidence and arguments and reach their own conclusions about the issues and questions that have led them to study forensic psychology Forensic Psychology Fact and Fiction gives students all they need to get to grips with debates about the link between mental fitness and criminal responsibility the purposes and effectiveness of punishment and the use of police force and others It places psychology at its heart combining research with legal perspectives to give the full picture Drawing on global research and examples students are given insights into what differs and what remains the same across jurisdictions and borders Real life case studies illustrate forensic concepts allowing students to see how psychology is applied to criminal behaviour and the response of society to it This comprehensive introduction is ideal for undergraduate students taking a course in forensic psychology Balancing clarity and rigor the book takes the student on a journey from the fundamental concepts through to the application of psychology to forensic techniques Accompanying online resources for this title can be found at [bloomsburyonlineresources.com/davis/forensic-psychology](https://www.bloomsburyonlineresources.com/davis/forensic-psychology) These resources are designed to support teaching and learning when using this textbook and are available at no extra cost

Psychological Torture Pau Perez Sales, 2016-11-03 Sadly it is highly likely that psychological torture is committed by governments worldwide and yet notwithstanding the serious moral questions that this disturbing and elusive concept raises and research in the area so limited there is no operational or legal definition This pioneering new book provides the first scientific definition and instrument to measure what it means to be tortured psychologically as well as how allegations of psychological torture can be judged Ground in cross disciplinary research across psychology anthropology ethics philosophy law and medicine the book is a tour de force which analyses the legal framework in which psychological torture can exist the harrowing effects it can have on those who have experienced it and the motivations and identities of those who perpetrate it Integrating the voices both of those who have experienced torture as well as those who have committed it the book defines what we mean by psychological torture its aims and effects as well as the moral and ethical debates in which it operates Finally the book builds on the Istanbul Protocol to provide a comprehensive new framework including practical scales that enables us to accurately measure psychological torture for the first time This is an important and much needed overview and analysis of an issue that many governments have sought to sweep under the carpet Its accessibility and range of coverage make it essential reading not only for

psychologists and psychiatrists interested in this field but also human rights organizations lawyers and the wider international community Propaganda and International Criminal Law Predrag Dojčinović, 2019-10-16 This book addresses the conceptual and evidentiary issues relating to the treatment of propaganda in international criminal law Bringing together an interdisciplinary range of scholars researchers and legal practitioners from Africa Australia Europe and the United States the book provides an in depth analysis of the nature position and role of the concept of propaganda in mass atrocity crimes trials A sequel to the earlier Propaganda War Crimes Trials and International Law From Speakers Corner to War Crimes Routledge 2011 this book is the first to synthesize the knowledge procedures and methods of international criminal law with the social cognitive sciences Including a comprehensive overview of the most relevant case law jurisprudence and scientific studies the book also offers a series of practical insights and strategies for both academics and legal professionals An invaluable resource for those working in the area of international criminal law this book will also be of interest to academics practitioners and students with relevant interests in legal theory politics linguistics and psychology Talking to Strangers Malcolm Gladwell, 2019-09-10 Malcolm Gladwell host of the podcast Revisionist History and author of the 1 New York Times bestseller Outliers offers a powerful examination of our interactions with strangers and why they often go wrong now with a new afterword by the author A Best Book of the Year The Financial Times Bloomberg Chicago Tribune and Detroit Free Press How did Fidel Castro fool the CIA for a generation Why did Neville Chamberlain think he could trust Adolf Hitler Why are campus sexual assaults on the rise Do television sitcoms teach us something about the way we relate to one another that isn't true Talking to Strangers is a classically Gladwellian intellectual adventure a challenging and controversial excursion through history psychology and scandals taken straight from the news He revisits the deceptions of Bernie Madoff the trial of Amanda Knox the suicide of Sylvia Plath the Jerry Sandusky pedophilia scandal at Penn State University and the death of Sandra Bland throwing our understanding of these and other stories into doubt Something is very wrong Gladwell argues with the tools and strategies we use to make sense of people we don't know And because we don't know how to talk to strangers we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world In his first book since his 1 bestseller David and Goliath Malcolm Gladwell has written a gripping guidebook for troubled times

The Practice of Art and Science Gerfried Stocker, Andreas Hirsch, 2017 The European Digital Art and Science Network was initiated in 2015 with the aim of connecting the microcosm and macrocosm of science with the digital arts The network is made up of renowned research institutions ESA CERN and ESO which collaborate with the Ars Electronica Futurelab to offer residencies for artists The seven European project partners represent cultural and artistic positions in Europe which are as strong as they are diverse in exhibitions at workshops and at conferences The book presents the artistic projects and residencies in powerful images and contributions by well known scientists and artists analyze the challenges posed by art and science *Empowerment und Exklusion* Thomas Hoffmann, Wolfgang Jantzen, Ursula Stinkes, 2018 Ein kritisches

Bewusstsein für Ausgrenzung und Verletzbarkeit von marginalisierten Gruppen ist für den deutschen Diskurs um Empowerment von zentraler Bedeutung. Zum ersten Mal beziehen die AutorInnen in diesen Diskurs auch die Debatte um Exklusion und Alterität mit ein und lassen die von Diskriminierung, Armut und Ausgrenzung betroffenen Menschen deren Stimmen in der Gesellschaft weder Gehör finden noch eine politische Bedeutung haben selbst zu Wort kommen. Die AutorInnen plädieren für eine Ethik der Befreiung als Antwort auf Unterdrückung und Ausschließung. Um diese zu ermöglichen ist es wichtig sowohl Globalisierungsprozesse als auch historische kulturelle und soziale Lebensumstände marginalisierter Gruppen in Beziehung zur Theorie und Praxis des Empowerments zu setzen. Sie arbeiten die Ideologie des autonomen Subjekts und die Missachtung realer Leidenserfahrungen heraus sowie die fachliche und politische Bedeutung des Empowerment-Ansatzes für die Soziale Arbeit und die Behindertenpädagogik.

Environment & Planning A., 2011 *The Indian Journal of Criminology & Criminalistics*, 2008 **The Brain**, 2009 *Denver Journal of International Law and Policy*, 2014 *Educating Information*, 2006 **Discover**, 2008 **Forensic and Legal Psychology** Mark Costanzo, Daniel Krauss, 2015-01-13. Drawing on a combined three decades of teaching experience Costanzo and Krauss help students explore the fascinating intersections where psychology and the law meet in an excitingly written textbook that presents the latest research in the context of dozens of real cases. As before the new edition draws on extensive research in social cognitive clinical and developmental psychology to explore virtually every aspect of the legal system studied by psychologists emphasizing the ways research and theory deepen our understanding of key participants e.g. criminals, police, victims, lawyers, witnesses, judges and jurors and basic psychological processes e.g. decision making, persuasion, perception, memory and behavior change.

The Psychologist, 2007 *Proceedings of the Nova Scotian Institute of Science*, 2007 *Moral Markets* Paul J. Zak, 2008. Drawing on converging evidence from neuroscience, social science, biology, law and philosophy *Moral Markets* makes the case that modern market exchange works only because most people most of the time act virtuously.
